

CA TIM Training Module Resources Page

This document provides resources referenced in the California Traffic Incident Management (CA TIM) Training Module. Participants are expected to review and apply all applicable codes and regulations to traffic incident management activities upon completing this training.

Reminder: The CA TIM Training Module supplements the Federal National Highway Institute (NHI) National Traffic Incident Management Responder Training with California specific information. The link to the NHI National Traffic Incident Management Responder Training is hyperlinked below. Participants must complete the NHI training before completing the CA TIM Training Module.
