State of California
DEPARTMENT OF TRANSPORTATION

Business, Transportation and Housing Agency

Memorandum

To: CHAIR AND COMMISSIONERS

PASSED BY CTC APR 0 8 2004 CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: April 7-8, 2004

Reference No.: 4.2~~a.~~ b - **REVISED**
Action Item

From: ROBERT L. GARCIA
Chief Financial Officer

Prepared by: Jim Nicholas
Division Chief
Transportation Programming

Ref: **APPROVAL OF 2004 STATE HIGHWAY OPERATIONS AND PROTECTION PROGRAM (SHOPP)**
RESOLUTION G-04-02

SUMMARY

The Department of Transportation's (Department) Proposed 2004 State Highway Operations and Protection Program (SHOPP) was prepared in response to Government Code Section 14526.5, Streets and Highways Code Section 164.6, and the Department's Policy for Management of the SHOPP. This item was presented as an informational item at the February 2004 California Transportation Commission (Commission) meeting, prior to taking formal action at the April 2004 Commission meeting.

RECOMMENDATION

The Department requests the Commission approve the Proposed 2004 State Highway Operation And Protection Program (SHOPP), as amended by the attached document.

BACKGROUND

Government Code Section 14526.5 requires the Commission to approve and submit the SHOPP to the Legislature and the Governor, in even-numbered years. Following Commission approval of the SHOPP, the Department will work closely with the various regional transportation planning agencies to incorporate the SHOPP into their regional Federal Transportation Improvement Programs to establish Federal funding eligibility.

The 2004 SHOPP was prepared in accordance with Government Code 14526.5, Streets and Highways Code Section 164.6, and the strategies outlined in the Department's Policy for Management of the SHOPP. The 2004 SHOPP is a four-year program (from Fiscal Years 2004-05 through 2007-08) that includes projects for Safety, Bridge Preservation, Roadway Preservation, Roadside Preservation, Mobility, and highway related Facilities.

The 2004 SHOPP utilizes $5.5 billion over the 2004 SHOPP four-year period. This funding level is consistent with the 2004 State Transportation Improvement Program (STIP) Fund Estimate approved by the Commission. The selection of new projects, primarily programmed the two new fiscal years of the SHOPP, is consistent with and guided by the 2002 Ten-Year State Highway System Rehabilitation Plan previously reviewed by the Commission.

Since the Proposed 2004 SHOPP was submitted to the Commission on January 31, 2004, additional refinements and updates to specific projects have been made. These changes are shown in bold print on the attached document. These changes are consistent with annual programming in the 2004 Fund Estimate.

Projects proposed for allocation in the Fiscal Year 2003-04 SHOPP Allocation Plan are not included in the 2004 SHOPP.

2004 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM (SHOPP)

EXECUTIVE SUMMARY

April 8, 2004

The 2004 State Highway Operation and Protection Program (SHOPP) was prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP. The 2004 SHOPP is a four-year program of projects for fiscal years 2004/05 through 2007/08, that have a purpose of collision reduction, bridge preservation, roadway preservation, roadside preservation, mobility or facilities related to the state highway system.

The 2004 State Transportation Improvement Program (STIP) Fund Estimate provides $5.5 billion for the 2004 SHOPP four-year period. This funding level is consistent with the 2004 State Transportation Improvement Program (STIP) Fund Estimate, approved by the California Transportation Commission (Commission). Selection of new projects was based on policies and goals included in the 2002 Ten-Year State Highway Operation and Protection Program.

The state highway system is aging and its use is increasing. Immediate needs are statewide. The increased emphasis on safety and roadway rehabilitation in the 2002 SHOPP is continued in the 2004 SHOPP with the goal of reducing fatal and injury accident rates and reducing distressed pavement to 5,500 lane miles. Other goals include rehabilitation of roadsides and reducing congestion through operational improvements.

The 2004 SHOPP includes projects from the 2002 SHOPP and new projects that have approved Project Initiation Documents (PIDs) identifying the project's scope, estimated cost and delivery schedule. All 2002 SHOPP projects in the Approved 2003/04 SHOPP Allocation Plan below the $800 million funding line are included in the 2004 SHOPP. Projects above the $800 million funding line are not included in the 2004 SHOPP.

Following is a summary of the programmed projects and reservations needed to add anticipated new projects. A comparison with the cost to achieve the goals the 2002 Ten-Year State Highway Operation and Protection Program is also included. The 2004 Fund Estimate has separate line items for Storm Water Mitigation and Office Buildings. These programs will be managed and reported separately. SHOPP Managed Transportation Enhancement Act (TEA) projects not included in the Approved 2003/04 SHOPP Allocation Plan will also be included in the 2004 SHOPP as remaining programmed projects.

Table 1: Comparison of Funding in the
2004 SHOPP* and 2002 Ten-Year SHOPP
Fiscal Years 2004/05 through 2007/08
($ Millions)

	Proposed Programming	Reservations	Total	2002 Ten-Yr SHOPP
Program Categories				
Collision Reduction	$858	$90	$948	$1,925
Bridge Preservation	1,095	21	1,116	2,890
Roadway Preservation	2,407	178	2,585	8,950
Roadside Preservation	198	12	210	1,592
Mobility	372	81	453	5,018
Facilities**	187	23	210	883
Total	$5,117	$405	$5,522	$21,258

* Excludes projects funded with Federal Emergency Relief (ER) and Seismic Retrofit funds and Storm Water Mitigation, Office Building and Transportation Enhancement Act (TEA) projects. Includes SHOPP amendments through 02H-158 dated March 11, 2004.

** Excludes Office Buildings (Accounting Code 201.353) shown below in Table 2.

A funding summary of the 2004 SHOPP by fiscal year is shown in Exhibit B.

Fiscal Years 2004/05 through 2007/08
($ Millions)

	Proposed Programming*	Reservations	Total	2002 10-Yr SHOPP
Storm Water Mitigation	$213	$42	$255	$710
Office Buildings	31	1	32	289
TEA	8	0	8	22
Total	$252	$43	$295	$1,021

* Includes amendments through 02H-158 dated March 11, 2004.

CALIFORNIA DEPARTMENT OF TRANSPORTATION

2004 STATE HIGHWAY OPERATION AND PROTECTION PROGRAM

The 2004 State Highway Operation and Protection Program (SHOPP) has been prepared in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6 and the strategies outlined in the Department's Policy for Management of the SHOPP. The 2004 SHOPP is a four-year program of projects for fiscal years 2004/05 through 2007/08.

PURPOSE

The purpose of the SHOPP is to preserve and protect the state highway system.

PROGRAM LEVELS

Streets and Highways Code Section 164.6 requires the Department to prepare a ten-year state highway rehabilitation plan for the rehabilitation and reconstruction, or combination thereof, of all State highways and bridges owned by the State. Funding levels in the 2002 Ten-Year SHOPP were considered when the California Transportation Commission (Commission) approved the 2004 STIP Fund Estimate at the December 2003 Commission meeting.

The 2004 STIP Fund Estimate provides $5.5 billion for SHOPP funding over the four-year period 2004/05 through 2007/08. Projects are grouped into six categories: collision reduction, bridge preservation, roadway preservation, roadside preservation, mobility and facilities.

Additionally the 2004 Fund Estimate has separate line items for Storm Water Mitigation, Office Buildings and Transportation Enhancement Act (TEA) projects. These programs will be managed and reported separately within their own funding amounts.

PROGRAMMING POLICIES AND METHODOLOGY

The 2004 SHOPP was developed in accordance with the strategies outlined in the Department's Policy for Management of the SHOPP. New projects are programmed in the year the Department estimates that the projects can be delivered. All new projects have a Project Initiation Document (PID) identifying the project's scope, estimated cost and delivery schedule.

The 2004 SHOPP includes non-allocated projects carried over from the 2002 SHOPP, primarily programmed in fiscal years 2004/05 and 2005/06, and new proposed projects, primarily programmed in fiscal years 2006/07 and 2007/08. The 2004 SHOPP reflects all cost and schedule changes made to currently programmed projects through amendment 02H-158 dated March 11, 2004.

All 2002 SHOPP projects in the Approved 2003/04 SHOPP Allocation Plan above the $800 million funding line are excluded from the 2004 SHOPP.

2004 SHOPP SUMMARY

The following summary of the 2004 SHOPP shows currently programmed projects in the 2002 SHOPP and the new projects funded in the 2004 SHOPP. Jointly, they comprise the projects in the four-year period, 2004/05 through 2007/08. A funding summary of the 2004 SHOPP by fiscal year is shown in Exhibit B.

Table 1: Comparison of Funding in the
2004 SHOPP* and 2002 Ten-Year SHOPP
Fiscal Years 2004/05 through 2007/08
($ Millions)

Total	21	$221	6	$31	27	$252	$21,258
				Reservations		$43	
				Total Programmed		$295	

* Includes SHOPP amendments through 02H-158 dated March 11, 2004.

RESERVATIONS

The 2004 SHOPP includes reservations of $405 million over the four-year period. These reservations are based on historical expenditures for emergencies and other unforeseen immediate needs. Details about the reservations are shown in Exhibit B. An additional $43 million is reserved for the Storm Water Mitigation and Office Building programs.

LONG LEAD TIME PROJECTS

Commission Resolution G-13 requires the Department to notify the Commission when project development work is begun on SHOPP projects that are not currently programmed.

The Department has identified nine high priority future SHOPP projects that involve a complex environmental or project selection process and require more than four years lead time for delivery of the construction contract documents. The need to start the environmental process prior to programming these projects in environmentally sensitive areas is necessary to achieve the goals identified in the 2002 Ten-Year SHOPP. The intent is to propose these projects for programming as soon as the environmental document is completed. These projects are shown in Exhibit E.

The Department reports all new projects that the Department has begun project development work at each Commission meeting.

GEOGRAPHICAL DISTRIBUTION

The Department's selection of projects for inclusion in the SHOPP is based on statewide needs rather than on geographical distribution. Funding for SHOPP projects is not subject to the north/south split or county share requirements of Sections 188 and 188.8 of the Streets and Highways Code. For information purposes, Exhibit C is a 2004 SHOPP Summary of the projects in each county for Fiscal Years 2004/05 through 2007/08.

RESPONSE TO REGIONAL TRANSPORTATION AGENCY COMMENTS

A draft of the 2004 SHOPP was sent to regional agencies on December 19, 2003, for review and comment. Copies of the responses from regional agencies requesting changes in the SHOPP are included in Exhibit F. The following are responses to the comments received:

Amador County Transportation Commission

Comments: Noted that several District Minor projects in the 10-Year SHOPP are not included in the 2004 SHOPP.

Reply: District Minor projects are not included in the SHOPP. These District Minor projects are on schedule for delivery to the CTC for allocation.

Kern Council of Governments

Comments: Would like funds programmed to replace the Taft Maintenance Station equipment shop and office (PPNO 06-3079) to be redirected to projects that rehabilitate the roadway.

Reply: The Department has responsibility for maintaining the state highway system. The Taft Maintenance Station project addresses maintenance worker safety and functional operational issues. It is a high statewide priority need and should not be deferred to fund additional lower priority highway rehabilitation projects.

San Joaquin Council of Governments

Comments: Noted that one project listed as being in San Joaquin County was actually in another county.

Reply: The county was corrected to show that the project is in Stanislaus County.

San Luis Obispo Council of Governments

Comments: Requests the Department coordinate design of several projects with the Council of Governments and local agency staff to ensure landscaping, traffic operations and Intelligent Transportation Systems technology design issues are considered.

Reply: The Department will work with the Council of Governments and local agency staff to the extent practical consistent with state policies on landscaping and operational improvements. The Department supports maintaining an attractive roadside that balances the need to lessen worker safety and enhance the overall driving experience.

STORM WATER MITIGATION PROGRAM

The 2004 STIP Fund Estimate provided a separate funding line item for Storm Water Mitigation projects. Storm Water Mitigation projects will be managed within the SHOPP as a separate program. Funding will be limited to funds shown in the Fund Estimate. Strategies for addressing storm water run-off problems are still being developed. The 2004 SHOPP proposes funding for 11 high priority projects where strategies have been identified. These projects are shown in Exhibit G. Additional new projects will be amended into the SHOPP as new strategies and Project Initiation Documents are developed.

OFFICE BUILDING PROGRAM

The 2004 STIP Fund Estimate provided a separate funding line item for Department Office Buildings. The funding level was based on the 5-Year Asset Management Facilities Plan. Office Buildings will be managed within the SHOPP as a separate program. Funding will be limited to funds shown in the Fund Estimate. The 2004 SHOPP proposes funding for six high priority projects. These projects are shown in Exhibit H.

SHOPP MANAGED TEA PROGRAM

Commission Resolution G-03-13 approved at the August 2003 Commission meeting requires future stand alone Transportation Enhancement Act (TEA) projects to be programmed in the State Transportation Improvement Program (STIP). The remaining 10 unallocated TEA projects previously programmed in the SHOPP will remain in the SHOPP until allocated. Exhibit I lists remaining 2004 SHOPP Managed TEA projects that have not been allocated funds by the Commission. Projects are shown in the following two groups by county:

Department sponsored TEA projects (Accounting code 20.XX.204.735)
Locally sponsored TEA projects (Accounting code 20.XX.100.736)

PROJECT LISTINGS

Projects included in the 2004 SHOPP are listed by county in Exhibit J. Projects are sorted into the following six categories for each county:

Collision Reduction
Bridge Preservation

Roadway Preservation
Roadside Preservation
Mobility
Facilities*

* Excludes Office Buildings (Accounting Code 201.353).

List of individual projects in each county. The listing for each project indicates the programmed amount for right of way and construction from the State Highway Account and project support costs.

Exhibit I — 2004 SHOPP Managed TEA Program County Listing of Projects
List of individual projects in each county for Department sponsored and locally sponsored TEA projects. The listing for each project indicates the programmed amount for Federal TEA funds, State funds and local funds.

Exhibit J — 2004 SHOPP County Listing of Projects
List of individual projects in each county sorted by six program categories. The listing for each project indicates the programmed amount for right of way and construction from the State Highway Account and project support costs. Programmed amounts exclude Federal Emergency Relief (ER) funds that are noted in the project Location/Description. The listing excludes Storm Water Mitigation, Office Building and Approved 2003/04 Allocation Plan projects.

EXHIBIT A

April 4, 2002

California Department of Transportation

Policy for Management of the
State Highway Operation and Protection Program (SHOPP)

1. Seismic retrofit projects: Completion of the seismic retrofit program is one of the top priorities for the Department. Proposition 192 provides special funding for the Phase 2 and toll bridge seismic retrofit projects. Since the Proposition 192 funds are dedicated to this special purpose, they are being managed outside of the overall SHOPP program. Every seismic retrofit project will be proposed for the allocation of funds when it is delivered.

2. Traffic safety projects: Every identified traffic safety project will be programmed in the year in which the Department estimates that it can be delivered. The SHOPP may include unprogrammed reservations to meet the anticipated needs for traffic safety projects not yet identified. This strategy applies only to those projects meeting the Department's specific criteria for traffic safety (201.010) projects (i.e., safety index greater than 200, or equivalent safety warrant).

3. Other SHOPP projects: All SHOPP projects other than seismic retrofit or traffic safety projects will be programmed according to rehabilitation need and other program priorities, except that a project will not be programmed earlier than the year in which the Department estimates that it can be delivered.

4. Level of funding: The Ten-Year State Highway Operation and Protection Program and the most recently adopted STIP Fund Estimate establish the funds available for SHOPP purposes. Whenever the Department identifies a project cost increase or a new project to add to the SHOPP, it will identify the source of funding for the increase or new project, whether from an unprogrammed SHOPP reservation or from the deletion or decrease in cost of another project or projects.

5. Project cost and scoping: No project will be included in the SHOPP or the Long Lead list unless the Department has a completed Project Initiation Document (PID).

6. Review of project programming: The Department will develop its biennial proposed SHOPP in accordance with these strategies. In addition, the Department will continually conduct comprehensive reviews of the SHOPP in accordance with these strategies.

The objectives of these strategies are:

- to develop a SHOPP program that addresses the needs identified in the Ten-Year State Highway Operation and Protection Program;
- to assure that state resources used for the operation and protection of the state highway system are focused on the highest statewide priority needs;
- to assure that the SHOPP, consistent with the STIP, reflects a specific project delivery plan and commitment; and
- to provide goals and incentives for the identification of effective SHOPP projects and for the management of SHOPP project costs and schedules.

Facilities**	84	34	82	10	210
Total Programmed	$1,677	$1,115	$1,557	$1,173	$5,522 *

* Excludes projects funded with Federal Emergency Relief (ER) and Seismic Retrofit funds and Storm Water Mitigation, Office Building and Transportation Enhancement Act (TEA) projects. Includes SHOPP amendments through 02H-158 dated March 11, 2004.

** Excludes Office Buildings (Accounting Code 201.353).

Note: The program is developed in thousands and was rounded for this table.

SHOPP Fund Reservation Descriptions

Traffic Safety

Reservations are for Major and Minor Program Traffic Safety and Median Barrier (201.010) projects. Projects must have a Safety Index of 200 or greater, or meet specific warrants in order to qualify for funding.

Bridge Preservation

Reservations are for preservation of bridge decks (201.110) to minimize the need for future bridge rehabilitation.

Roadway Preservation

Reservations are for high priority pavement rehabilitation (201.120/121) needs that can not be identified at this time and unforeseen Major Damage Restoration (201.130) projects that are not funded with Federal Emergency Relief (ER) funds.

Roadside Preservation

Reservations are for (1) Maintenance Worker Access (201.230) projects, and (2) Surface Mining and Reclamation Act (SMARA) (201.240) obligations.

Operations

Reservations are for (1) Commercial Vehicle Enforcement Facilities (201.321) projects consistent with the 10-Year Weigh Station "Inventory of Needs", (2) Rail Road Grade Crossing Program (201.325) projects, and (3) Hazardous Waste Mitigation (201.330) projects not associated with a programmed SHOPP or STIP project.

Facilities

Reservation are for (1) immediate employee safety issues and code violation citations which would close the facility if not immediately corrected (201.351, 201.352, 201.354) and (2) relinquishment of state highways to local jurisdictions (201.160).

Subject: Draft 2004 SHOPP

John Van Berkel,

Thank you for the opportunity to review the Draft 2004 SHOPP Project List dated December 19, 2003. The Amador County Transportation Commission (ACTC) has reviewed the list of projects slated for Amador County and we concur with the project list. We look forward to working cooperatively with the District 10 staff in the development of these projects. The projects noted in this SHOPP Plan are important to the ACTC and are also reflected in our 2004 update of the Regional Transportation Plan.

We note that the 2004 SHOPP does not include several minor projects that are major safety concerns in Amador County. They are listed in the 10-Year SHOPP and scheduled for construction prior to FY 06/07.

The following Minor Projects are Listed in the 10-Year SHOPP and are currently proceeding with no delivery hurdles:

- Signal-SR49 and Clinton Road, OH2701
- Signal-SR88 and Ridge Road, OH4001
- Left Turn Lanes, SR88 and Defender Grade, 499801
- Signal-SR88/104 and Ridge, OJ2701
- Right Shoulder Improvements, SR49 and Fiddletown Rd, OH6101

The Amador County Transportation Commission will continue to cooperatively work with District 10 utilizing local resources and Traffic Mitigation Fees as required to ensure the timely delivery of the above projects.

Charles

Re: Draft 2004 SHOPP

Dear Mr. Van Berkel:

Kern Council of Governments staff has distributed the Draft 2004 SHOPP list of projects for review. Kern COG staff would like to make one comment, as follows:

Due to state budget shortfalls, funding for the project listed as "In Taft on Route 33 at the Taft Maintenance Station L5722 – replace equipment shop and office" should be redirected to projects that are described as rehabilitating the roadway system.

Kern COG staff received no other comments. Should you have any questions about this matter, contact me at 661-861-2191.

Sincerely,

Ronald E. Brummett,
Executive Director

Subject: Re: draft 2004 SHOPP

Thanks for the opportunity to comment. SJCOG has only one minor comment for projects listed in San Joaquin...Hwy 99 project denoted as in Ceres and Salida (though it does not have an EA or FY), is not in San Joaquin.

Subject: Proposed 2004 SHOPP for San Luis Obispo County

Dear Mr. Nicholas,

I am writing to provide you with our preliminary response to the proposed 2004 SHOPP for San Luis Obispo County. I would first like to thank you and your staff at Headquarters and in District 5 for the help we have received in reviewing and commenting on the plan. We are also very thankful for the extent to which the Department has identified the need to provide funding for the number of important projects.

Overall, we are in full support of the projects proposed for inclusion in the 2004 SHOPP. We have just a few concerns that we would like to highlight. First, please note on the attached table in the column titled SLOCOG Draft Position. We are recommending that your staff coordinate with our agency and local agencies in a number of instances to address certain design issues. These include the preservation of landscaping, median design, inclusion of various features, and integration with other projects. Second, we would like to ask that an effort be made to integrate appropriate ITS technology in as many of the projects on Route 101 as possible, as documented in our jointly adopted Central Coast ITS Strategic Deployment Plan. This will significantly help us in monitoring and addressing the increasing traffic congestion we are seeing along this vital artery.

In conclusion, we greatly appreciate the high level of concern, sensitivity and professionalism that you and your staff have shown in addressing the needs of the San Luis Obispo Region in development of the SHOPP. We look forward to working with you in the future as the programming of the State Transportation Improvement Program (STIP) goes forward. If there are any questions on this or any other matter, please feel free to call me at 805-781-4219.

Sincerely,

Ronald L. De Carli
Executive Director
