## TERMS AND CONDITIONS

1. Unless stipulated to the contrary, the following items of work are to be performed and paid for by others. No cost for these items is included.
   a. All field engineering, transit and level work as required by Case Pacific Company in addition to center hubs, reference points and grade stakes for concrete and steel placement at each pier and/or soldier beam location.
   b. All required soils and concrete testing and inspection including pier records, shop drawings and reports.
   c. Provide acceptable ramp to working area and firm, dry level access and suitable clearance to each pier location so that drilling equipment, concrete trucks, cranes and other construction vehicles can move from location to location under their own power. Access includes furnishing, placing and maintaining ramps, mats, gravel or other surface materials throughout the project. Access to shafts to be provided prior to beam or cap excavation, or agreed to in writing.
   d. Removal, relocation or protection of any existing utilities, either above or below ground, which may interfere with the installation of Case Pacific Company's work. Power lines closer than legally permissible are to be removed or de-energized by others. When Case Pacific Company is requested to commence work on the referenced construction project, that request will constitute representation that all above or below ground utilities have been located and that all necessary and appropriate action has been taken to ensure that the work to be performed by Case Pacific Company can be performed safely without any threat of injury or damage to persons or property from said utilities.
   f. Shoring, including shoring the pile caps, bracing, underpinning, supporting or protecting existing structures including protection and/or repair of all pavement and sidewalks.
   g. Continuous removal and disposal of all spoils (liquid or solid) and waste materials, debris and excess concrete so as not to interfere with or delay Case Pacific Company's work.
   i. Furnish storage and parking area, sanitary facilities, flagman, barricades, street cleaning and minimum 2" water service within 200' of each work location. Handrails and fences to be furnished, installed, relocated, and maintained as required.
   j. All required on-site licenses, permits, inspections, observations, monitoring, material design, surveys, easements, laboratory or field-testing, inspection reports, and services of a foundation or structural engineer.
   k. Fall protection for non-Case Pacific Company employees.
2. This proposal is based on performing our work in one continuous, uninterrupted operation with only one move on and off the site. Each additional move will be charged at: $12,000.00.
3. This proposal is based on a mutually agreed to schedule and our working a straight-time workweek. The premium time portion of any overtime work required will be charged as extra work.
4. Standard rates will be charged for delays caused us by others over which we have no control.
5. The removal of obstructions such as concrete, timber, wire, steel, masonry, pipelines, loose fill, etc., which interfere with the pier installation is not included in the principal sum and the costs for removal and delays will be billed and paid for as extra work. Case Pacific Company shall also be entitled to equitable compensation for costs of any excess repair of drill rigs, drill tools, or casing that suffers damage from unexpected rock or obstructions to drilling or coring.
6. Casing, dewatering and shoring or bracing of belled piers, hand mining or hand cleaning and rock drilling and coring are not included in the principal sum and any such work will be performed on a time and material basis. Rock drilling is defined as when more than five minutes are required to advance one lineal foot with a standard earth auger.
7. If reinforcing steel is to be furnished and paid for by others, the reinforcing steel cages shall be conveyed to each pier location at no expense to us, adequately tied and braced so they will retain their shape during handling and placing with our equipment. Cutting, splicing, and the furnishing and installation of required spacers to be done by others. Protection of protruding steel or cleaning, sandblasting, etc. to be performed by others. We do not employ ironworkers to hoist and lower the cages or to secure them prior to placing concrete. If, for any reason, ironworkers are required, they will be employed, directed and paid by others.
8. Placement of concrete by pump is excluded from this proposal. Concrete truck cleanout area to be provided by others.
9. The Prime Contractor shall arrange for prompt covering and protection of all open shafts, unless they are completely filled to existing grade with concrete by Case Pacific Company.

Case Pacific Company shall be excused for delays in the completion of the contract caused by acts of God, action or non-action of owner, owner's agents or employees, the General Contractor, other contractors on the project, inclement weather, labor disputes, acts of public utilities, public bodies, extra work, failure of owner or General Contractor to make progress payments, or other contingencies unforeseen by Case Pacific Company and beyond our reasonable control.
11. Case Pacific Company has relied on owner's plans, specifications and geotechnical report for bidding purposes. Case Pacific Company shall be entitled to compensation for extra cost incurred as a result of erroneous plans, specifications or unanticipated site subsurface conditions. Should conditions be encountered in the performance of Case Pacific Company's work which differ from (A) Those indicated by the contract documents or soils data furnished to Case Pacific Company or (B) Those ordinarily encountered and generally recognized as inherent in work of the character provided in the contract, an equitable adjustment will be made to cover the resulting costs. If drilled shafts are designed deeper then the soils borings, we have assumed that the material to be drilled is similar to that which was encountered to the depth explored. Should this not be the case, any added expense to us is to be paid for as extra work.
12. Case Pacific Company shall maintain in place, throughout the performance of its work hereunder, workers' compensation coverage as required by law, and commercial general liability insurance for bodily injury and property damage coverage (without the exclusion for explosion, collapse and underground loss), with a single occurrence limit of $1 million. Coverage for additional insured parties shall be limited to Case Pacific Company's share in the total fault causing the loss or damage on which the claim is based. Case Pacific Company shall indemnify Owner and/or Prime Contractor with respect to any claim that arises directly from the negligence or intentional fault, if any, of Case Pacific Company in performing its work hereunder, but the extent of such indemnity shall be limited to Case Pacific Company's portion of the total fault causing the loss or damage on which the claim is based. Case Pacific Company shall [illegible]

representative of Case Pacific Company.

14. It shall be the responsibility of the Owner and/or the prime contractor to coordinate the work of all other contractors, subcontractors and material suppliers, so as not to hinder, interfere or delay Case Pacific Company's work.
15. The work may be changed by "Field Order", "Change Order", "Extra Work Order", or otherwise authorized by the contractor/owner or his agents. Such changes may include changes in scope, method, scheduling or other performance requirements. In such event, the contract price and the completion date will be equitably adjusted. Case Pacific Company will notify contractor/owner of such changes within a reasonable time after authorization.
16. Extra work and items of work specifically excluded but performed by Case Pacific Company or delays resulting from interference or non-performance of others shall be invoiced at extra work rates or will be negotiated and included in monthly progress estimates and reimbursed according to our terms of payment.
17. Payment shall be made on the 10th of each month for all work completed during the preceding month. Such payments are to include the cost of materials placed on the jobsite or in storage near the site and not incorporated in the work. Final payment, including retention, if any, shall be made within thirty-five (35) days after substantial completion of all work covered by this proposal. Retainage withheld by the Contractor from progress payments to the Subcontractor shall not exceed the percentage withheld by the Owner on his payments to the Contractor. Interest will be charged on all past due accounts at the highest legal rate.
18. If payment is not made as provided herein and Case Pacific Company is compelled to incur attorney's fees and litigation costs to collect all or any part of the contract price or extras incurred during the course of the work, said fees and costs shall become collectible as an addition to the contract price.
19. Should any payment due us, including payment for all extra work, not be made when due, we shall have the right to stop work and to refrain from continuing work on the project until all due payments are received.
20. Case Pacific Company shall not be responsible for and is hereby released from any and all liability for liquidated, consequential or incidental damages, which may be assessed under the prime contractor or otherwise.
21. The parties agree that all claims and disputes by and between them shall be submitted to mediation by a mediator mutually agreeable to the parties and if they cannot agree, a mediator appointed by the court on petition by either party therefor. The cost of such mediation shall be borne equally by the parties. The foregoing agreement to mediate shall be specifically enforceable.
22. Others are to provide continuous removal and disposal of all spoils and contaminated materials so as not to interfere with or delay the progress of Case Pacific Company's work. Should hazardous substances be encountered, the prime contractor or owner shall promptly investigate the condition and make all determinations as necessary and provide direction in writing to the subcontractors relating to handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, monitoring, cleanup, etc. Case Pacific Company shall be entitled to a time extension of any delay caused thereby, and compensation for all costs incurred as a result of encountering hazardous substances to include but not limited to the additional costs associated with performance of contract work, extra work, delays, suspension of work, handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, personal protective equipment and/or clothing, cleanup, etc., whether caused or directed by the prime contractor, owner or any government regulatory authority. *For the purposes of this paragraph "hazardous substances" is defined as any material encountered during the course of performance of this subcontract that any governmental or regulatory authority has or may determine represents a hazard or danger to the health and welfare of persons, property or the general environment.*
23. This proposal shall be made part of any contract covering this work. If contractor/owner signs this proposal, or otherwise indicates its consent, such as verbally requesting us to commence work, then this proposal will represent the entire agreement of the parties regarding performance of the work. If contractor/owner subsequently requests Case Pacific Company to sign its own form of contract, this proposal will be deemed to be part of the contract and will supersede any other conflicting terms of that contract, unless this proposal or any paragraph or part is expressly excluded by the parties.
24. A bond may be furnished if required with premium to be paid for by others prior to our mobilization.
25. This proposal offers to the contractor/owner the terms and conditions upon which Case Pacific Company will perform the work. It may be changed by Case Pacific Company at any time prior to acceptance by notice to the contractor/owner and will be deemed to be withdrawn if not accepted by the contractor/owner within thirty (30) days from the date appearing on the face hereof.

**RE: Disadvantaged Business Enterprise Certification**

Dear Guy Barton:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended. This certification will be recognized by all of the U.S. DOT recipients in California. Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS codes form of the application package:

| NAICS (2007) | Description | Size Standard |
|---|---|---|
| 238120 | Structural Steel and Precast Concrete Contractors | $14.0 Million |
| 238190 | Other Foundation, structure and Building Exterior Contractors | $14.0 Million |

Your DBE certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the CUCP website at www.californiaucp.org. Any additions and revisions must be submitted to Metro for review and approval.

In order to assure continuing DBE status, you must submit annually a No Change Declaration form (which will be sent to you) with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the DBE Declaration, such as changes in your firm's name, business/mailing address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. I wish you every business success and should you have any questions, please contact us at 213-922-2600. For information on Metro contracting opportunities, please visit our website at www.metro.net.
