

Cross Agency Asset Management Forum

Do you serve the public by making strategic decisions about how to fund and care for public roads, bridges, other transportation infrastructure?

Are you interested in enhancing value and getting the most out of our tax dollars on behalf of our constituents?

YES? Great! We do too!

It may not be in your official job title, but you are an asset manager, and we invite you to attend this forum dedicated to sharing and developing best asset management practices for California public agencies.

WHO SHOULD ATTEND? Federal, State, City, and County Engineers, Project Managers, Public Works Officials / Executives, Academia, and Consultants who work with State & Local Agencies. Participation in this forum is open to transportation practitioners from all levels of government in California.

ABOUT THIS MEETING The purpose of this forum is to establish ongoing discussions and presentations intended to improve asset management practices across participating California agencies. The forum is sponsored by Caltrans, California Transportation Commission, Federal Highway Administration and City and County Public Works professionals.

THE GOALS OF THIS FORUM

- Provide an ongoing forum to discuss a variety of asset management topics
- Receive guidance on target setting and Transportation Performance Management topics
- Host asset management presentations from California and national leaders
- Build your network of professionals across all levels of transportation agencies in California
- Share best practices from agencies across California
- Development of a broader network of peers and cross agency collaboration
