Cross Agency Asset Management Forum

Bridge Asset Management Wednesday, February 14, 2024 1:00 to 3:00 p.m.

Bridges are critical to California's infrastructure and requires periodic maintenance to rehabilitate or replace components subject to deterioration. This session will feature important information and discussion on bridge asset management. Please join us!

- Introduction Michael B. Johnson, State Asset Management Engineer, Caltrans
 - How Preventive Maintenance Can Lower the Long Term Cost of Bridge Ownership
- Bridge Deck and Joint Maintenance Eric Thorkildsen, Greenman Pedersen, Inc. (New York)
- Bridge Scour Chris Long, FHWA
- Timber Bridge Deterioration Justin Alamares, Structure Maintenance Bridge Inspection, Caltrans
