

MEMORANDUM

To: CHAIR AND COMMISSIONERS
CALIFORNIA TRANSPORTATION COMMISSION

CTC Meeting: January 25-26, 2023

From: STEVEN KECK, Chief Financial Officer

Reference Number: 4.19, Information Item

Prepared By: James R. Anderson, Chief
Division of Financial Programming

Subject: **TRAFFIC CONGESTION RELIEF PROGRAM – ANNUAL REPORT**

SUMMARY:

The California Transportation Commission's (Commission) Traffic Congestion Relief Program (TCRP) guidelines require lead agencies to periodically report on project status. Commission policy requires these reported annually. The California Department of Transportation assists the Commission in reporting on TCRP project activity and does so by administering the annual reporting process.

With the passage of Senate Bill (SB) 1 (Beall, 2017), the TCRP has been deemed complete and final as of June 30, 2017, with no further programming or allocations of TCRP projects. Therefore, there was no activity for Fiscal Year 2021-22 except for project expenditures.

As of June 30, 2022, of the \$4,908,900,000 legislated to the Traffic Congestion Relief Fund (TCRF), \$4,572,059,000 was ultimately programmed and \$4,564,296,000 was allocated. The program legislated 141 specific projects, some of which have been subdivided, creating a total of 217 separate projects.

BACKGROUND:

The Traffic Congestion Relief Act of 2000 (Assembly Bill 2928, Chapter 91, Statutes of 2000 and SB 1662, Chapter 656, Statutes of 2000) created the TCRP, and committed \$4,908,900,000 to 141 specific projects.

PROGRAM STATUS:

Programming: Of the \$4,908,900,000 legislated for the TCRP, a total of \$4,572,059,000 in TCRF funding had been programmed to projects or project components.

“Provide a safe and reliable transportation network that serves all people and respects the environment.”

Allocations: As of June 30, 2017, at the close of the program, a total of \$4,564,296,000 has been allocated to these programmed projects. As of June 30, 2022, approximately \$4,381,385,000 has been expended.

Number of TCRP projects: According to TCRP statutes, 141 projects were originally identified. Subsequently, 39 of those projects had been subdivided, establishing a total of 217 TCRP projects approved by the Commission. Of the 217 individual projects, 14 were either substituted with other projects and not funded or the funding was incorporated into other TCRP projects leaving a total of 203 projects funded with TCRP funds. In the 2019-20 report, TCRP the Route 101 HOV Lane Gap Closure project (TCRP No. 17) previously reported as completed erroneously and is now listed correctly as an active project. During 2021-22, two projects, or TCRP funded phases, were reported as completed. As of June 30, 2022, a total of 209 projects have been completed or considered closed. This total includes 14 projects that were either not funded or funding was later transferred to other projects/segments. The remaining eight projects will continue to be reported on until completed. The attachments list the TCRP projects that are currently active and the TCRP funded phases considered complete or closed.
