UPDATED EMERGENCY REPAIR WORK ON BEACH BOULEVARD

LA MIRADA, Calif. – The California Department of Transportation (Caltrans) is performing emergency repair work to fix a void caused by an aged culvert on Beach Boulevard (State Route 39) on the border of La Mirada and Buena Park. Caltrans will send updated information regularly through the duration of construction, which is expected to be completed by mid-October. Work on Thursday, September 07, 2017, from 7 a.m. to 3:30 p.m., will be on the **northbound** side of Beach Boulevard near Rosecrans Avenue. The two right lanes will be closed to work on the repairs.

Motorists are encouraged to download the free Caltrans QuickMap app, which provides real-time information to help commuters avoid congestion and reduce travel times.

QuickMap users can now also add Waze™ layers to either the mobile or desktop version of the app, providing drivers access to even more traffic information including highway incidents, road conditions and other roadway events reported by Waze™ users (called Wazers). This feature joins QuickMap's current features, which display traffic speed, road closures, California Highway Patrol incidents, chain controls, fire locations, electronic highway sign messages, and live traffic cameras.

Caltrans is working quickly to perform the emergency repair work to reduce impact to the traveling public.

For more information, please contact the Caltrans District 12 Public Information Office, serving Orange County, at (657) 328-6000.

Disclaimer: Due to unforeseen operational factors or inclement weather, these times and dates may change.

Caltrans Santa Ana

@Caltrans12

California law requires vehicles to safely reduce speed, move over, and merge into unoccupied lanes when emergency vehicles, construction vehicles, or tow trucks are displaying flashing warning lights.

Caltrans reminds motorists to use extra caution and reduce speeds when driving through construction zones.
