WESTBOUND 91 PERALTA WEIGH STATION CLOSED ON NOVEMBER 27TH

ORANGE COUNTY - The California Department of Transportation will close the Westbound 91 Peralta Weigh Station Tuesday, November 27, 2018 until summer of 2019. The renovation will improve the facility by replacing the weigh station building, installing a sewer line, a canopy and a multi-platform scale and reconstructing truck lanes.

Due to the closure, the California Highway Patrol will set up random stops in nearby areas for truck inspections. Any trucks needing ticket sign offs or re-inspection will be directed to the eastbound weigh station on the 91 freeway. Minor lane closures may be in place during the initial construction setup, but no major traffic disruption is expected.

Caltrans appreciates the public's patience while we perform this work. Electronic Changeable Message Signs will notify drivers of the closure and detours. Additionally, construction updates will be available via Twitter @CaltransOC and Facebook.com/CaltransOC.

The work schedule is subject to change due to traffic incidents, weather, availability of equipment and/or materials, and/or construction-related issues. For more information, you may contact the District 12 Public Information Office at (657) 328-6621.

###

@CaltransOC

California law requires vehicles to safely reduce speed, move over, and merge into unoccupied lanes when emergency vehicles, construction vehicles, or tow trucks are displaying flashing warning lights.

Caltrans reminds motorists to use extra caution and reduce speeds when driving through construction zones
