

1-5 SECTION HATCHING

Do not show the sand and aggregate in any concrete section

Section of timber or lumber

End view of timber or lumber

Cross hatch metal in large scale ($1/2'' = 1'-0''$ or more) when two or more pieces are shown. Hatch alternate direction on pieces to clearly define limits

Avoid shading lines on rounded or sloping surfaces. When needed to clarify a detail, space the shading lines a minimum of $1/16''$

A section or view defines the shape more clearly than shading
