

PUBLIC NOTICE (REVISED)

**Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS)
Available for the Interstate-710 (I-710) Corridor Project
Announcement of Public Hearings**

WHAT IS BEING PLANNED?

The California Department of Transportation (Caltrans), in cooperation with the Los Angeles County Metropolitan Transportation Authority (Metro), the Gateway Cities Council of Governments, the Southern California Association of Governments, the Ports of Los Angeles and Long Beach, and the Interstate 5 Joint Powers Authority, are proposing to improve Interstate 710 (I-710) in Los Angeles County between Ocean Blvd. and State Route 60 (SR-60). Major features include widening I-710 up to ten general purpose lanes (five lanes in each direction), modernize and reconfigure the I-405, SR-91 and a portion of the I-5 interchanges with I-710, modernize and reconfigure most local arterial interchanges along I-710, and provision of a separated four-lane freight corridor to be used by conventional or zero-emission trucks.

WHY THIS NOTICE?

Caltrans has studied the potential effects this project may have on the environment. The study that explains these findings is called a Draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) which has recently been approved for public circulation.
