**COASTAL DEVELOPMENT PERMIT NO. 96-7285
STATE ROUTE 56 (SR 56) MIDDLE SEGMENT
(WITHIN THE CITY OF SAN DIEGO COASTAL PERMIT JURISDICTION)**

CITY COUNCIL

This Permit is granted by the Council of The City of San Diego to The City of San Diego, Engineering and Capital Projects Department, Owner and Permittee, pursuant to Section 105.200 of the Municipal Code of the City of San Diego to construct the middle segment portion of State Route 56 within the City of San Diego's coastal permit jurisdiction. The project is located south of Del Mar Heights Road, north of Sorrento Valley Road between Carmel Creek Road and Carmel Valley/Black Mountain Road in the Carmel Valley Community Plan area. The project site is legally described as a Portion of the Northeast Quarter of Section 20, a Portion of the Northwest Quarter of Section 21, Township 14 South, Range 3 West, and a Portion of Lot B of Map 13173 in the City of San Diego.

Subject to the terms and conditions set forth in this permit, permission is granted to Owner/Permittee to construct a portion of SR 56 described as, and identified by size, dimension, quantity, type and location on the approved Exhibits "A," dated June 16, 1998 on file in the Office of Development Services. The portion of the project covered by this permit includes the following:

The construction of the middle segment portion of SR 56 within the City's coastal permit jurisdiction. The proposed middle segment would connect the existing segments of SR 56 west (Carmel Valley) and SR 56 east (Rancho Peñasquitos). Within the Carmel Valley Community Plan area, approximately nine acres of the middle segment are located within the City's coastal permit jurisdiction.

The project would be configured as an expressway under interim conditions and ultimately as a freeway under build-out conditions. The expressway would consist of four travel lanes, ten-foot-wide outside shoulders (to serve as bicycle lanes), a 22-foot-wide median with concrete barrier, and completion of the existing half-diamond interchange at Black Mountain Road. No other interchanges/intersections are proposed for the expressway configuration. The freeway configuration would consist of: six travel lanes; a 42-foot-wide median to accommodate transit uses; HOV lanes, or additional mixed-flow lanes; a 14-foot-wide bicycle path; 30-foot-wide recovery areas on each side; completion of the existing half-diamond interchange at Black Mountain Road, and up to three full interchanges at future Camino Ruiz, Camino Santa Fe, with a possible "Third Interchange" between these two facilities. No intersections or interchanges are proposed within the City's coastal permit jurisdiction. Grading within the City's coastal permit

jurisdiction would be relatively minor as the reserved CalTrans right-of-way in this area has been previously graded.

1. Construction, grading or demolition must commence and be pursued in a diligent manner within 36 months after the effective date of final approval by the City, following all appeals. Failure to utilize the permit within 36 months will automatically void the permit unless an Extension of Time has been granted. Any such Extension of Time must meet all the Municipal Code requirements and applicable guidelines in effect at the time the extension is considered by the appropriate decision maker.

2. No permit for the construction, occupancy or operation of any facility or improvement described herein shall be granted, nor shall any activity authorized by this permit be initiated until:

- a. The Permittee signs and returns the Permit to Development Services; and
- b. The Permit is recorded by Development Services in the office of the San Diego County Recorder.

3. Unless this Permit has been revoked by The City of San Diego the property included by reference within this Permit shall be used only for the purposes and under the terms and conditions set forth in this Permit unless otherwise authorized by the City Manager.

4. This Permit is a covenant running with the subject property and shall be binding upon the Permittee and any successor or successors, and the interests of any successor shall be subject to each and every condition set out in this Permit and all referenced documents.

5. The utilization and continued use of this Permit shall be subject to the regulations of this and any other applicable governmental agencies.

6. Issuance of this Permit by The City of San Diego does not authorize the applicant for said permit to violate any Federal, State or City laws, ordinances, regulations or policies including, but not limited to, the Federal Endangered Species Act of 1973 and any amendments thereto (16 U.S.C. Section 1531 et seq.)

7. Before issuance of any grading permits, complete grading and working drawings shall be submitted to the City Manager for approval. Plans shall be in substantial conformity to Exhibit "A," dated June 16, 1998, on file in the Office of Development Services. No changes, modifications or alterations shall be made to the project or plans unless a finding of substantial conformity or amendment of this Permit shall have been granted.

8. All of the conditions contained in this Permit have been considered and have been determined to be necessary in order to make the findings required for this discretionary Permit. It is the intent of the City that the holder of this Permit be required to comply with each and every condition in order to be afforded special rights which the holder of the Permit is obtaining as a result of this Permit. It is the intent of the City that the Owner of the property which is the subject of this Permit either utilize the property for any use allowed under the zoning and other restrictions which apply to the property or, in the alternative, that the Owner of the property be allowed the special and extraordinary rights conveyed by this Permit, but only if the Owner complies with all the conditions of the Permit.

In the event that any condition of this Permit, on a legal challenge by the Owner/Permittee of this Permit, is found or held by a court of competent jurisdiction to be invalid, unenforceable or unreasonable, this Permit shall be void. However, in such an event, the Owner/Permittee shall have the right, by paying applicable processing fees, to bring a request for a new Permit without the "invalid" condition(s) back to the discretionary body which approved the Permit for a determination by that body as to whether all of the findings necessary for the issuance of the Permit can still be made in the absence of the "invalid" condition(s). Such hearing shall be a hearing de novo and the discretionary body shall have the absolute right to approve, disapprove or modify the proposed Permit and the condition(s) contained therein.

9. Prior to commencement of construction, a fee shall be deposited with Development Services for the Los Peñasquitos Watershed Restoration and Enhancement Program. The enhancement fee shall be computed on the basis of site grading at a rate of \$0.005 per square foot for all areas graded, with an additional rate of \$0.03 per square foot for all impervious surfaces created by the development. The enhancement fee shall be computed by the Permittee and verified by Development Services at the time of approval of final grading permits.

ENVIRONMENTAL/MITIGATION REQUIREMENTS:

10. The project shall be subject to all applicable mitigation measures contained in the adopted Mitigation, Monitoring, and Reporting Program for SR-56 as detailed in the Final EIR (LDR No. 95-0099) to the satisfaction of the Environmental Review Manager

ENGINEERING REQUIREMENTS:

11. The project shall comply with CalTrans standards for the roadway construction.

LANDSCAPE REQUIREMENTS:

12. Landscaping shall be installed consistent with CalTrans standards.

APPROVED by the Council of The City of San Diego on June 16, 1998, by Resolution No. R-290287.

AUTHENTICATED BY THE CITY MANAGER
