## PUMP STATION CLEANING REQUIRES LANE AND OFF-RAMP CLOSURES

**WHAT:** MAINTENANCE OF PUMP STATION LOCATED ALONG STATE ROUTE 168  
**WHEN:** MONDAY, APRIL 6<sup>TH</sup> 9:00 A.M. UNTIL 2:30 P.M.  
**WHERE:** CITY OF CLOVIS; WESTBOUND STATE ROUTE (SR) 168 AND FOWLER AVENUE.

The California Department of Transportation (Caltrans) announces that maintenance personnel will implement maintenance operations of a pump station located along State Route (SR) 168 next week, Monday morning, beginning at 9:00 a.m. until 2:30 p.m.

In order to safely implement these operations, westbound State Route 168 will require a lane closure of the #2 lane, right shoulder area and the full closure of the Fowler Avenue off-ramp during this improvement project. It is anticipated that traffic impacts may result from these closures; however, delays are expected to be minimal.

Motorists are advised to adhere to closure signage and to merge when directed to do so. Please watch for Caltrans equipment and personnel working in the area. Caltrans reminds drivers to be **“Work Zone Alert”** through all maintenance and construction projects and to **“Slow for the Cone Zone.”**

This schedule is subject to delays or early completion of these maintenance efforts. Caltrans would like to thank the residents, businesses and commuters for their patience during this maintenance improvement project.

For further information regarding this project, contact the Public Information Office at the number listed above.
