FOR IMMEDIATE RELEASE

ONE-WAY TRAFFIC CONTROL OPERATIONS CONTINUE ON STATE ROUTE 33 NEXT WEEK IN FRESNO COUNTY

The Department of Transportation (Caltrans) announces that contractor **VSS International** continues one-way traffic control operations at various locations along State Route (SR) 33 near Firebaugh in Fresno County. Chip Seal pavement operations continue as part of a pavement rehabilitation project. Next week, lane closures are scheduled to take place **Monday August 17th through Friday August 21st from 6:00 a.m. to 6:00 p.m.**, each day.

Construction crews will continue conducting one way traffic control at these locations and during the work hours listed above with the use of a pilot car and flagging personnel through the work zone. Final striping operations within the project limits will follow after grinding/paving operations are complete. Commuters are reminded to obey flagging personnel and pay close attention to road construction vehicles and personnel at all times. It is anticipated that motorists will be subject to a 10-minute delay during construction.

Motorists who are delayed at driveways and intersections will be required to wait for pilot car and adhere to all signage in order to safely proceed through the work zone.

Commuters are encouraged to avoid these areas during project work hours and use alternate routes if possible. Closures may continue for longer periods of time if necessary, due to delays caused by weather or uncontrollable events that may occur during road construction procedures.

Caltrans would like to thank motorists for their patience and remember to please be **Work Zone Alert!**
