C2 Upgrade Caltrans Technology Systems

Upgrade Caltrans Technology Systems

Project Manager: Gene Mallette

General Plan

Implement the Construction Management System (CMS).

C2-a-2

Task Description / Problem Statement

Obtain Site Manager license and source code.

Task Manager: Christine Inouye

Background / General Discussion

Item C2-a-2 is to procure an evaluation license of AASHTOWare Site Manager. This comprehensive software application is used by 24 states to manage construction activities from project start-up through finalization. The CMS project will use Site Manager source code as a base for developing the web-based CMS system.

Action

Procured and received site license and source code for Site Manager.

Completion Date

June 12, 2006
