

Terry A. Davis, P.E.

Consulting Engineer

(707) 601-6113 • terry@tjdavis.us

Education

California State University, Sacramento
Bachelor of Science, Civil Engineering 1976

Professional Qualifications

Registered Civil Engineer - - California No C-30351

DRB Training

- Dispute Review Board Foundation: Intro to DRB/DRA
- Caltrans DRB Workshop: Administration & Practice
- Caltrans DRA Workshop: Administration & Practice

DRB/DRA Experience

I am currently serving on several Caltrans contracts as a DRB member in the Los Angeles area and in the San Francisco Bay area, and have previously served on DRB's in northern California. I have also taught construction partnering to both owners and contractors. I am currently active in the Dispute Resolution Board Foundation, an international organization seeking the avoidance and resolution of disputes.

Construction Experience

For over 35 years I have been involved in various aspects of construction from multi-story facilities and water and sewer systems to roadways and large bridges. I have been involved in the design and construction of large earth filled-dams for the US Army Corps of Engineers as well as the construction of military housing facilities and advanced radar detection buildings. With the US Forest Service I was heavily involved in the layout, design and construction of forest roads and facilities. For the last 23 years I have been specifically involved with various aspects of heavy highway construction activities with Caltrans, from the preparation of contract documents to Project Manager of various construction programs. Most recently, I was the Caltrans North West Regional Construction Manager with a program of over \$500 Million of active construction contracts, and supervising a field staff of over 150 engineers and construction inspectors. I spent a significant amount of time on construction disputes and claims resolution, coaching state staff on how to look at the big picture and to look at issues from the contractor's perspective before making decisions on claims merit. Since my retirement in early 2011 I have been serving on DRB's and providing training in Partnering.
