

CALIFORNIA DEPARTMENT OF TRANSPORTATION
SILICONE JOINT SEALANT
AUTHORIZED MATERIALS LIST

Silicone sealant is a single component product and typically used for sealing and/or replacing longitudinal and transverse joints in PCC pavement. Pavement joints include isolation joints.

Specification requirements are located in Section 41-5 of the 2015 Standard Specifications.

Evaluation Criteria: Authorization Procedures and Acceptance Criteria for Silicone Joint Sealant.

Manufacturer	Product	Expiration date
Crafco, Inc.	RoadSaver, part number 34902	7/10/2020
D.S. Brown Co.	DSB 800	7/10/2020
Dow Corning	888 Silicone Joint Sealant	7/10/2020
Sika Corporation	Sikasil-728 NS	7/10/2020

Products on this AML are products that have been evaluated and found acceptable for use, provided the products are used in accordance with the manufacturer's instructions. Caltrans may perform additional job control testing during construction or installation.
