## SPT-Hammer Efficiency Test (HET) Request Form

Submit by fax one request form for each drill rig to be tested.

Date of Request:	Request by:
Project Location:	Office phone #: (     )
Dist/Co/Rte/PM:	Cell phone #: (     )
EA/AC:	Fax #: (     )
Bridge No:	PiRC/Party Chief:
	Office phone #: (     )
	Cell phone #: (     )

Vehicle C#	Drill Rig Name & Number	Hammer Type, incl Manual or Automatic	Names of Drillers	Estimated Number of Holes	Dates Available

For each automatic hammer, one efficiency test will be conducted at several five-foot intervals at depths above 40 feet. For each manual hammer, three efficiency tests will be conducted, one test for each of three different hammer operators, including the driller to whom the rig is assigned, at several five-foot intervals at depths above 40 feet. Preferred soil is sand or sandy silt.
