SACRAMENTO, CA 95816-7005

  
Signature of Bidder  
A.T. (Tom) Skoro, Sr. Vice President

October 1, 2013 (360) 694-1201  
Date (Area Code) Tel. No.

Dennis Ahl, DBE Coordinator

Person to Contact (Please Type or Print)

2. List the names of certified DBEs and the dates on which they were solicited to bid on this project. Include the items of work offered and the dates and methods used for following up initial solicitations to determine with certainty whether the DBEs were interested. Attach copies of solicitations, telephone records, fax confirmations, etc.

Name of DBEs Solicited	Date of Initial Solicitation	Item(s) of Work	Follow Up Methods and Dates
Please see attached pages Attachment 3.			

3. For each item of work made available, list the selected firm and its status as a DBE, the DBEs that provided quotes, the price quote for each firm, and the price difference for each DBE if the selected firm is not a DBE.

Item(s) of Work	Name of Selected Firm	DBE or non-DBE	Name of Rejected Firm	Quote (\$)	Price Difference (\$)
Please see attached pages Attachment 4.					

If the firm selected for the item is not a DBE, provide the reasons for the selection on a separate sheet and attach names, addresses, and phone numbers for the firms listed above.

4. List the names and dates of each publication in which a request for DBE participation for this project was placed by the bidder. Attach copies of published advertisements or proofs of publication:

Publications	Dates of Advertisement
Compliance News Publishing Company	9/16/2013
Humboldt Builders Exchange, Inc.	Start 09/23/2013 End Date: 09/30/2013
Please see attached pages Attachment 5.	

5. List the names of agencies and the dates on which they were contacted to provide assistance in contacting, recruiting and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.

Name of Agency	Date of Contact	Method of Contact	Results
Caltrans Website	9/6/2013	Internet	Quotes received via fax and email.
Please see attached pages Attachment 6.			

6. List efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. Identify the DBE assisted, the information provided, and the date of contact. Provide copies of supporting documents.

Plans and specifications for the Middle Fork Smith River Bridge project were available at the Caltrans Website  
[http://www.dot.ca.gov/hq/esc/oe/weekly\\_ads/oe\\_project.php?q=01-479404](http://www.dot.ca.gov/hq/esc/oe/weekly_ads/oe_project.php?q=01-479404).

Kiewit Infrastructure West Co. would email project information to interested DBE's when requested.

7. List efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, materials, or related assistance or services, excluding supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate. Identify the DBE assisted, the assistance offered, and the date. Provide copies of supporting documents.

Dennis Ahi - Small Business Liaison was available by phone, email or fax.

8. Include additional data to support a demonstration of good faith efforts.

None.

NOTE: USE ADDITIONAL SHEETS OF PAPER IF NECESSARY.

**ADA Notice** For individuals with sensory disabilities, this document is available in alternate formats. For information call (916) 654-8410 or TDD (916) 654-3880 or write Records and Forms Management, 1120 N Street, MS-88, Sacramento, CA 95814.

**Kiewit Infrastructure West Co**  
is seeking certified and qualified DBE subs and/or suppliers to provide scopes of work: both stripping and structure excavation and backfill, traffic control, rock slope protection, trucking, concrete pumping, concrete flatwork, furnish rebar, install rebar, demolition, storm drain systems, precast & cast-in-place concrete barriers, concrete staining, electrical, traffic signals, curbing, illumination systems, permanent signing, pavement markings, landscaping and erosion control, metal beam guard railing, and other work disciplines.

Other Subcontract Work Categories include: Cast-In-Drilled Hole Concrete Piling, Drilled Holes for Soldier Pile and Install Soldier Pile, Paving, and Micropile Installation.

for MIDDLE FORK SMITH RIVER BRIDGE  
Owner: CALTRANS  
in Del Norte County, CA

To count towards our DBE Participation Targets, Small Business Subcontractors and Suppliers should be listed and shown in the Directory of Certified Disadvantaged Business Enterprises published by the California Department of Transportation, Office of Business & Economic Community. DBE's need to be a part of the California Unified Certification Program.

Subcontractor/Supplier Quotes Due in Our Office

[http://www.dot.ca.gov/hq/esc/oe/project\\_ads\\_addenda/01/01-479404/](http://www.dot.ca.gov/hq/esc/oe/project_ads_addenda/01/01-479404/)

This link provides the Plans for the Middle Fork Smith River Bridge project - Contract No. 01-479404.

Questions of the CALTRANS procurement office can be directed to: (916) 654-4492

In order to assist certified small business subcontractors and suppliers, we will divide scopes of work into economically feasible units, and will assist firms with meeting delivery schedules, providing points of contact who may be able to assist DBE's with obtaining bonding, insurance and lines of credit; and will provide information to help DBE's secure their own sources of equipment,

## LOG

Good Faith Effort for Bid Solicitation 01-479404  
Project: MIDDLE FORK SMITH RIVER BRIDGE  
Owner: CALTRANS

### Important Instructions

NOTE: If your bid-package includes form STD-840, you MUST write "See attached Log sections A, B, & C" on STD-840 and include STD-840 with your GFE documents.

- 1.) Read and complete Section A.
- 2.) We have completed Section B for you.
- 3.) Complete Section C by making follow-up phone calls to the firms listed below.  
->For DVBE firms, call at least 3 firms. ->For DBE, MBE, & WBE firms, call all of them.

As of June 1, 2010 Caltrans now requires primes that do not meet their UDBE & DBE goal to do the following:

1.
  - A. Go to the CalTrans project calendar webpage at <http://dap1.dot.ca.gov/hq/esc/oe/calendar> and log-in using your bid package registration and password.
  - B. Hit on the project number your bidding.
  - C. Hit "See Opt-in records".
  - D. Print this page. You must now contact these Opt-in DBE's as part of your search for participation.
2. Now hit your browser back-button and hit "Primes: Advertise for help" Be sure your listed in the CalTrans "Primes Seeking Assistance".

As of Sept. 2010, Caltrans suggests the following further steps to support Good Faith Effort (GFE).

1. Attend networking opportunity events at mandatory Caltrans pre-bids & district meetings. Include with your GFE, information that you attended the meeting along with the event brochure.
2. As you reach the bid opening date, ask yourself how likely you are to meeting the goal. If its apparent you may not, then do another GFE. This should be done 5 days of bid opening.

---

### A. Awarding Department Contact Instructions

Many California Good-Faith Efforts may require the bidding contractor to CALL the awarding department or owner and talk with their Good-Faith representative. SEE YOUR CONTRACT DOCUMENTS FOR THIS TELEPHONE NO. Call it and record the result below.

## Capitol Connection Q&A Resource for Contractors

Week of 9/23/13

By Shauna Krause, President

While the law in contractor's regulation is black and white, how those words are interpreted has always been a 'gray' area where expert advice is often advised. Can a Sole Proprietor keep some parts of his license active while also qualifying someone else? Maybe, maybe not as we all learn from his question...

**Q:** I frequently read your articles and often times you refer to certain trades being "incidental and supplemental" to the classification that a contractor holds. How does the CSLB define incidental and supplemental? It seems that contractors could use these terms broadly to perform work out of the scope of their license.

**A:** Board Rule 831 states "for purposes of Section 7059, work in other

classifications is 'incidental and supplemental' to the work for which a specialty contractor is licensed if that work is essential to accomplish the work in which the contractor is

classified. A specialty contractor may use subcontractors to complete the **incidental and supplemental work**, or he may use his own employees to do so."

**Q:** I have a CA Contractor's License with 3 classifications: "C-8"(Concrete), "C-27" (Landscaping), and a "C-29" (Masonry). It is now a Sole Proprietor license. I want to be a Responsible Managing Employee (RME) for a new corporation but the company only needs the "C-27". I know that since I'm an RME I am going to have deactivate the "C-27" classification on my individual license, but is there a way to still keep the other two classifications active?

**A:** There are limited circumstances in which a RME can qualify two active licenses at the same time however the situation you described doesn't appear to fall under those circumstances. There is no way to inactivate particular classifications on a license while keeping the others active. That being said, you will be required to inactivate your Sole Owner license in order to act as an RME for a new corporation.

**"Capitol Connection  
Q&A Resource for Contractors"  
FROM PAGE 5**

**Q:** We have made some structural changes to our corporation that involves adding several Officers. We have already updated the Secretary of State with the changes. We plan to file the changes with the CSLB to update our license as well, but it is my understanding that each of the new Officers will be required to get fingerprinted, so the process of adding them to the license could take several weeks. In the interim, are those individuals permitted to sign contracts?

decides who has the authority to sign contracts. I am not aware of any CSLB law or rule that regulates who can and cannot sign contracts on behalf of the company. With that said, as long as your corporation approves of the new Officers signing contracts, have them sign away!

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email [info@cutredtape.com](mailto:info@cutredtape.com), or write us at Capitol Services, Inc., 1225 8th St. Ste. 580, Sacramento, CA 95814. RFP - Homeowner Rehabilitation - Window Replacment & Repairs

Addenda: 0

Prebid Conf: Mandatory Prebid - 9/30 @ 10am

Work consists of repair/replace doors, windows, such as broken panes of glass with seals, trim, bases, and siding as needed in Weitchpec. The Planning Department is putting together a series of RFPs for licensed General Contractors and Roofing Contractors on behalf of the homeowners in the Pecwan District, Weitchpec District, and Hoopa area. The contracts are not through the Yurok Tribe. The contractor will make a work write up and contract directly with the homeowners. The funds are provided as grant awards to home owners for rehabilitation of damage that required homeowners to evacuate their homes in the 2008 wildfires and further seal the envelope of their homes in the event of a wildfire. The Yurok Tribe Planning Department is providing assistance to homeowners in order to ensure the legitimacy of the contractor and completion of the work. This was agreed upon by Tribal Council and California Housing and Community Development.

RFP - Roofing Installation

Addenda: 1

Prebid Conf: Mandatory Prebid - 9/30 @ 1pm

work consists of repair/replace 5 roofs in Weitchpec.

This is NOT prevailing wage. The Planning Department is putting together a series of RFPs for licensed General Contractors and Roofing Contractors on behalf of the homeowners in the Pecwan District, Weitchpec District, and Hoopa area. The contracts are not through the Yurok Tribe. The contractor will make a work write up and contract directly with the homeowners. The funds are provided as grant awards to home owners for rehabilitation of damage that required homeowners to evacuate their homes in the 2008 wildfires and further seal the envelope of their homes in the event of a wildfire. The Yurok Tribe Planning Department is providing assistance to homeowners in order to ensure the legitimacy of the contractor and completion of the work. This was agreed upon by Tribal Council and California Housing and Community Development.

# Official Announcement!

## The Humboldt Builders Exchange welcomes Allstate as a Preferred Business Auto Insurance Carrier

We are pleased to announce that members of the Humboldt Builders Exchange are eligible to receive a 10% discount\* on their business auto insurance policy. This discount is in addition to Allstate's already competitive rates. The program features broadened business auto insurance protection at no additional cost that includes – blanket additional insured protection, temporary substitute and leased vehicle coverage, lease and loan gap coverage, glass repair deductible waiver and personal effects coverage.

Find out how this membership benefit will help save you money on your business auto coverage by calling **888-328-0770** for your customized coverage review and rate proposal.

\*Coverages and discounts are subject to terms, conditions and availability. Not available in MA. 10% discount on Allstate Business Auto insurance applies to liability, physical damage medical and basic no-fault coverages only as applicable. Discount not available in TN. Policy issuance is subject to qualifications. Business Auto is issued by Allstate Insurance Company, Northbrook, IL; Allstate County Mutual Insurance Company, Irving, TX; Allstate New Jersey Insurance Company, Bridgewater, NJ. ©2012 Allstate Insurance Company.

## You build on a foundation. So do we.

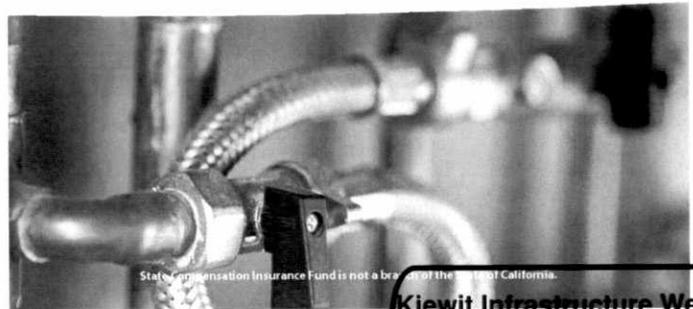

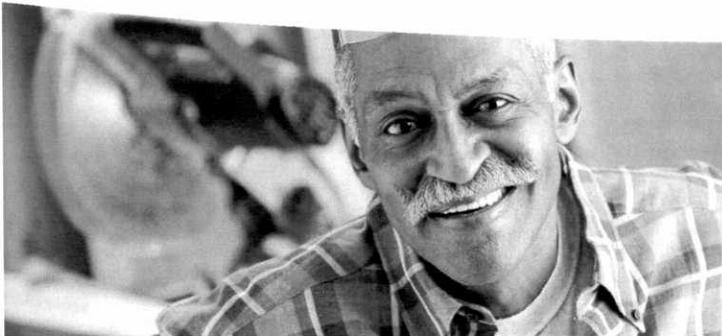

Construction takes ordered teamwork. We understand you've got a schedule to stick to, and that's why we're dedicated to getting you back to work as soon as possible. How do we do it? Through our careful processing of claims. No one else has our track record of uninterrupted service. It's our foundation.

*Together, we'll help keep California working.*

# TAILGATE SAFETY TOPIC

The Humboldt Builders' Exchange Safety and Insurance Committee provide the following safety topic as a service to its members. These instructions do not supersede local, state or federal regulations.

## Carpet Layer Safety

Carpet layers install a wide range of flooring products in homes and buildings to enhance style and comfort. The hazards involved with this work include the use of sharp and cutting tools and materials, the use of chemical adhesives and treatments, and physically demanding work that can result in ergonomic injuries.

If you install carpet for a living, focus on ergonomics. Before installation, you often have to clear out furniture and haul old and new carpeting materials. Use proper lifting techniques to protect your back. Maintain a level of good overall health and fitness. Take frequent mini-breaks to rest, and rotate your tasks as much as possible.

The National Institute for Occupational Safety and Health (NIOSH) reports that carpet layers account for 6% of all reported knee injuries, a rate 100 times the national worker average. Because you spend about 75% of your work time kneeling on hard sub-flooring, use knee pads to reduce the contact stress. Kneepads can also prevent accidental punctures from tack strips, flooring irregularities, and other sharps.

Use of a knee-kicker to stretch carpet wall-to-wall in a room or to engage the room-edge tack strip can cause knee injuries due to force and repetition. Workers must forcefully strike the knee kicker approximately 120-140 times each day. A hand and arm operated power carpet stretcher accomplishes the same tasks with reduced force. Don't trade a knee injury for a hand, arm, or shoulder injury; get training and follow ergonomic principles when using the power stretcher.

Carpet cutting tools, sharp tack strips, sewing materials, and staples can cause injuries if you do not use hand protection and tool safety. Gloves should be of sufficient weight to protect you while still allowing full movement of your hand; you may need several different pairs of gloves for different work tasks. Consider wearing eye protection to protect against flying debris and sharp objects. Always use the correct tool for the job. Ensure that your cutting tools are in good condition and sharp enough to do the job. Watch where you place your hands and knees so you do not come into contact with sharp tacks, staples, or cutting tool edges. Use caution with heat-tape and carpet irons to avoid burns.

When you use adhesives and glues to install carpet and padding, get training and read the material safety data sheet (MSDS) for information on the handling, mixing, and personal protective equipment (PPE) required for safe use. Some carpets may require special handling due to their contents or treatments. Read the carpet health information labels for the flooring materials that you install and follow all of the directions for installation.

Knowledge of the hazards of carpet installation and the use of good ergonomics and work practices can keep you safe wall-to-wall.

The above evaluations and/or recommendations are for general guidance only and should not be relied upon for legal compliance purposes. They are based solely on the information provided to us and relate only to those conditions specifically discussed. We do not make any warranty, expressed or implied, that your workplace is safe or healthful or that it complies with all laws, regulations or standards © State Compensation Insurance Fund.™

# TAILGATE SAFETY TOPIC

The Humboldt Builders' Exchange Safety and Insurance Committee provide the following safety topic as a service to its members. These instructions do not supersede local, state or federal regulations.

## Seguridad para los Instaladores de Alfombras

Los instaladores de alfombras trabajan con una amplia gama de productos para pisos en hogares y edificios para mejorar el estilo y el confort. Los peligros involucrados en este tipo de trabajo incluyen el uso de herramientas y materiales filosos y de corte, el uso de adhesivos y tratamientos químicos y el trabajo arduo que puede resultar en lesiones ergonómicas.

Si usted se gana la vida instalando alfombras, enfóquese sobre la ergonomía. Antes de la instalación, a menudo es necesario sacar los muebles, quitar las alfombras viejas y transportar las nuevas. Use las técnicas apropiadas para levantar objetos pesados para protegerse la espalda. Mantenga un buen nivel de salud en general y condiciones físicas. Tome descansos cortos con frecuencia y alterne las tareas lo más posible.

El National Institute for Occupational Safety and Health (NIOSH) reporta que el personal de instalación de alfombras representa el 6% de todas las lesiones a las rodillas, una tasa 100 veces mayor que el nivel promedio de todos los trabajadores en la nación. Debido a que los instaladores pasan aproximadamente el 75% del tiempo de rodillas sobre un piso duro, use almohadillas para las rodillas para reducir la presión en el punto de contacto. Las almohadillas para las rodillas también ayudan a prevenir pinchadas accidentales en listones de clavos, irregularidades del piso y otros objetos filosos.

El uso de un tensor con rodilla (knee-kicker) para estirar las alfombras de pared a pared en una habitación, o para anclar la alfombra a los listones de clavos puede ocasionar lesiones debido a la fuerza necesaria y a su repetición. Un trabajador debe golpear el tensor con las rodillas unas 120 a 140 veces al día. Un tensor motorizado operado con los brazos y las manos hace la misma tarea pero con un esfuerzo reducido. No trueque las lesiones en las rodillas por lesiones en los brazos, los hombros o las manos; capacítase y observe los principios de ergonomía al usar los tensores motorizados.

Las herramientas para corte de alfombras, listones de clavos filosos, los materiales para costuras y las grapas pueden ocasionar lesiones si no se cuenta con protección para las manos y seguridad en el uso de las herramientas. Los guantes deben ser suficientemente gruesos para protegerle las manos sin impedir su movimiento; puede ser necesario usar diferentes guantes para diferentes tareas de trabajo. Considere el uso de protección para los ojos contra desperdicios que vuelan y objetos filosos. Siempre use la herramienta correcta para cada tarea. Asegúrese de que las herramientas estén en buenas condiciones y bien afiladas para hacer su trabajo. Observe a donde pone las manos y las rodillas para no entrar en contacto con clavos filosos, grapas o bordes cortantes de herramientas. Tenga cuidado al usar cinta adhesiva activada con calor y las planchas calientes para evitar las quemaduras.

Cuando use adhesivos y gomas para instalar alfombras y rellenos, capacítase y lea las hojas de datos de seguridad de materiales (MSDS por sus siglas en inglés de Material Safety Data Sheet) para obtener información sobre su manejo y mezclado, a sí como los equipos de protección personal (PPE por sus siglas en inglés) requeridos para usarlos con seguridad. Algunas alfombras pueden requerir manejo especial debido a su contenido o sus tratamientos. Lea las etiquetas de información sobre la salud de los materiales para pisos que instala y observe todas las instrucciones para su instalación.

Conocer los peligros presentes en la instalación de alfombras y observar los principios de ergonomía y las buenas prácticas de trabajo ayudarán a mantenerlo seguro en su trabajo.

The above evaluations and/or recommendations are for general guidance only and should not be relied upon for legal compliance purposes. They are based solely on the information provided to us and relate only to those conditions specifically discussed. ## Capitol Connection Q&A Resource for Contractors

Week of 9/30/13

By Shauna Krause, President

New processes, additional paperwork, certifications and more changes in regulation and licensing were top of the agenda as I recently attended a CSLB Board meeting. As a spike in rejected license applications shows it pays to have help when making the decision to apply, especially if time is a critical issue...

For those currently applying for a contractor's license or considering obtaining a license, the CSLB addressed a new procedure recently instituted by the licensing division that has been causing some questions and concerns. In the past applicants applying for a new license provided a Certification of Work Experience page (which is included in the license application package) in order to verify their four years of trade experience. California Code of Regulations (CCR) 824 requires the CSLB to conduct a formal field investigation of a minimum of 3 percent of all applications. In the past investigations were conducted by the enforcement committee at the CSLB and this practice would normally delay the processing of the application by several months.

In order to prevent applications being delayed, the CSLB has begun requesting "Additional Experience Verification" within the licensing division. It seems as if this Additional Experience Verification is requested more often than before, and most frequently from applicants applying for what the CSLB considers "critical classifications", which include the "A" (General Engineering), "B" (General Building), "C-10" (Electrical), and "C-36" (Plumbing) classifications. When additional verification is requested applicants are given a list of acceptable documentation that may be submitted in order to support the applicant's claimed experience. Acceptable documentation includes things such as W-2's, pay stubs, permits, contracts, etc. Coming up with this sort of documentation has proved to be very difficult for applicants who gained their experience "illegally," and who possibly did work "under the table" without pulling permits or creating contracts. Be aware though, if this additional documentation is not provided within the allotted time frame the application will become Void.

Another noteworthy topic at the CSLB's meeting was further details on how the Enforcement Unit continues to crack down on unlicensed activity. Many recent cases have resulted in jail sentences, felonies, and restitution payments for unlicensed contractors.

**"Capitol Connection  
Q&A Resource for Contractors"  
FROM PAGE 5**

Additionally, the CSLB continues to seek out and partner with other State agencies to battle the underground economy. Currently they are trying out a pilot program with the California Highway Patrol (CHP) in which, if you are pulled over on a traffic violation and show signs of being "out on the job" (such as a truck full of construction materials), the officer may ask you for proof of a contractor's license.

It is also worth mentioning that the licensing division reported over half of all license applications have been rejected since April 2013!! In the month of July alone, 61% of license applications were rejected. In order to prevent ap-

plication delays it is important that the application is filled out correctly and completely. Application assistance is one of the primary services we've provided for more than 30 years. Keep in mind that Capitol Services is here to help, providing expert consultation and application assistance with the goal to get the application accepted the first time around!

While knowledge is power, knowing where to go for the answers is half the battle. Get expert assistance immediately when you call 866-443-0657, email [info@cutredtape.com](mailto:info@cutredtape.com), or write us at Capitol Services, Inc., 1225 8th St. Ste. 580, Sacramento, CA 95814. <b>RFP - Homeowner Rehabilitation - Window Replacement &amp; Repairs</b>						Addenda: 0
Prebid Conf: Mandatory Prebid - 9/30 @ 10am Work consists of repair/replace doors, windows, such as broken panes of glass with seals, trim, bases, and siding as needed in Weitchpec. The Planning Department is putting together a series of RFPs for licensed General Contractors and Roofing Contractors on behalf of the homeowners in the Pecwan District, Weitchpec District, and Hoopa area. The contracts are not through the Yurok Tribe. The contractor will make a work write up and contract directly with the homeowners. The funds are provided as grant awards to home owners for rehabilitation of damage that required homeowners to evacuate their homes in the 2008 wildfires and further seal the envelope of their homes in the event of a wildfire. The Yurok Tribe Planning Department is providing assistance to homeowners in order to ensure the legitimacy of the contractor and completion of the work. This was agreed upon by Tribal Council and California Housing and Community Development.

# Official Announcement!

## The Humboldt Builders Exchange welcomes Allstate as a Preferred Business Auto Insurance Carrier

We are pleased to announce that members of the Humboldt Builders Exchange are eligible to receive a 10% discount\* on their business auto insurance policy. This discount is in addition to Allstate's already competitive rates. The program features broadened business auto insurance protection at no additional cost that includes – blanket additional insured protection, temporary substitute and leased vehicle coverage, lease and loan gap coverage, glass repair deductible waiver and personal effects coverage.

Find out how this membership benefit will help save you money on your business auto coverage by calling **888-328-0770** for your customized coverage review and rate proposal.

\*Coverages and discounts are subject to terms, conditions and availability. Not available in MA. 10% discount on Allstate Business Auto insurance applies to liability, physical damage medical and basic no-fault coverages only as applicable. Discount not available in TN. Policy issuance is subject to qualifications. Business Auto is issued by Allstate Insurance Company, Northbrook, IL; Allstate County Mutual Insurance Company, Irving, TX; Allstate New Jersey Insurance Company, Bridgewater, NJ. ©2012 Allstate Insurance Company.

## You build on a foundation. So do we.

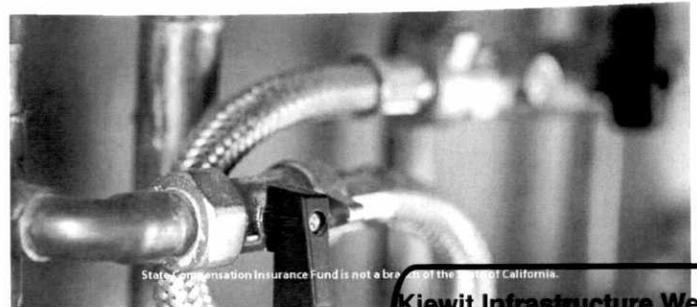

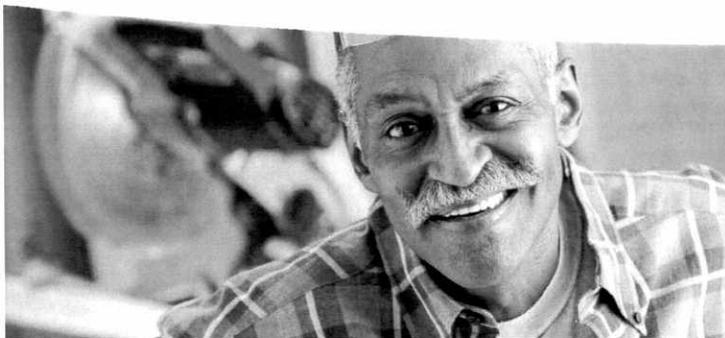

Construction takes ordered teamwork. We understand you've got a schedule to stick to, and that's why we're dedicated to getting you back to work as soon as possible. How do we do it? Through our careful processing of claims. No one else has our track record of uninterrupted service. It's our foundation.

*Together, we'll help keep California working.*

# SURETY DIVISION

## PERFORMANCE BOND MISINFORMATION

*By John Page, President of Surety Solutions Insurance Services, Inc. an independent, surety bond only agency based in Rancho Cordova, CA*

The town of Holiday Island, Arkansas had a small roof project out to bid. According to Carrollconews.com, Holiday Island District Manager, Gerald Hartley stated, "no qualified bids were returned." The reason given was because of the performance bond requirements the city has on all jobs over \$20,000. He goes on to state that financial reporting and the "cost of \$2,500 to \$3,500 was just too much for small contractors to qualify for." I cannot help but to think he got this information from small contractors that were not qualified to do a \$20,000 roof job without putting the taxpayers at risk.

The job in question was just over \$20,000 in size. The cost of a bond of that size would be well less than \$1,000 (probably in the \$600.00 range). As far as the financial reporting goes, for a job of that size, all it would take would be an owner of the construction company to have good credit and to complete an application of a couple of pages to get the surety bond. There are several surety companies that now offer "short form" performance bond programs specifically to service small and emerging contractors.

The city is considering waiving or changing the bond requirement which is short sighted. If all it takes is a contractor with good credit to get the bond, why would the city want to risk the taxpayer's money? Without the bond, the city would potentially have to pay for materials twice and have no guarantee of the workmanship. The surety bond is a bargain for the city and the city's tax payers.

*John founded Surety Solutions in 2003. John has over 25 years of surety bond experience and was a former Vice President of a national, top ten surety company. Along with a degree in Finance from Temple University John received his MBA from the University of San Francisco.*

# TAILGATE SAFETY TOPIC

The Humboldt Builders' Exchange Safety and Insurance Committee provide the following safety topic as a service to its members. These instructions do not supersede local, state or federal regulations.

## Chainsaw Safety

Any tool powerful enough to slice through wood can do the same to human flesh, so chainsaw injuries are often serious. Before you operate a chainsaw, make sure you read and understand the operator's manual and make sure you have the right chainsaw for the job. The instruction manual should describe the saw's capabilities. If you rent a saw, be sure to get a demonstration of how it works, including its safety features. Then make sure your saw is sharp, properly tensioned, and in good condition.

When you're going to use a chain saw, wear protective clothing which includes a hard hat, safety goggles, gloves to give you a good grip, hearing protection, steel-toed shoes with nonslip soles, and trim-fitting clothes that won't get caught in the chain.

Start your chainsaw according to the manual's direction. Clear the work area so the chain won't touch anything but the wood you want to cut and place the saw on a level surface; never rest a saw on your leg or drop-start it. Stand to the side of the saw so you won't follow the cut through into your leg and stand on the uphill side of your work so it won't roll into you. Hold the saw parallel to the ground with your left arm straight for better control and to reduce the chance of the saw pushing into you if it kicks back.

Keep both hands on the saw while its running. Work slowly, don't rush. Let the chainsaw do the work; never force it. Avoid cutting above mid-chest height. Never attempt to cut a tree with a diameter greater than the length of the chainsaw blade and watch for branches that may spring back as you cut. Always be aware of what is in the saw's downward path after the cut. It's a good idea to take frequent breaks from cutting so you don't operate the saw when you're tired.

Although some chainsaw injuries are caused by operator error, kickback is the greatest cause of chainsaw injuries. In kickback, the upper chain "grabs" in the wood or an obstruction and forces the saw backward, causing operator to either lose control of the saw or lose balance, bringing the saw into contact with the body. Some chainsaws have chain brakes that are designed to instantly stop the saw after kickback. While these don't prevent kickback, they can reduce the severity of injury from it.

Carry the saw below your waist, with the engine off and guide bar pointed to the rear, so if you trip the saw drops behind you.

If your saw is electric, make sure you use an extension cord that's approved for outdoor use and don't use the saw in a damp environment. Fuel gasoline-powered chainsaws outdoors, being careful not to overfill or spill the fuel. Never refuel a hot saw. Let it cool down first, and have a fire extinguisher nearby.

It's dangerous to work alone with a chainsaw. Have a companion within calling distance, but keep bystanders and helpers at a safe distance from operation so that they will not be injured by the saw, flying chips, sawdust or by what you're working on.

# TAILGATE SAFETY TOPIC

The Humboldt Builders' Exchange Safety and Insurance Committee provide the following safety topic as a service to its members. These instructions do not supersede local, state or federal regulations.

## La Seguridad en el Uso de Sierras de Cadena

Cualquier herramienta lo suficientemente poderosa como para penetrar y cortar madera puede hacer lo mismo con la carne humana; por ello, las lesiones causadas por sierras de cadena suelen ser graves. Antes de usar una sierra de cadena, asegúrese de leer y entender el manual del usuario y de que la sierra que vaya a utilizar sea la adecuada para el trabajo. En el manual de instrucciones se deben describir las capacidades de la sierra. Si alquila una sierra, asegúrese de que le demuestren su funcionamiento, incluidas las características de seguridad. Compruebe asimismo que la sierra esté afilada, que tenga la tensión correcta y que se encuentre en buenas condiciones.

Cuando vaya a usar una sierra de cadena, lleve puesta ropa de protección, incluido casco, anteojos, guantes para lograr un buen agarre, protección auditiva, zapatos con punta de acero y suelas antideslizantes, y ropas ajustadas que no se enredarán en la sierra.

Ponga en marcha la sierra de cadena de acuerdo con las instrucciones del manual. Recoja el área de trabajo de modo que la sierra no toque nada, a excepción de la madera que desea cortar, y coloque la sierra en una superficie nivelada; nunca se debe colocar una sierra sobre la pierna ni ponerla en marcha dejándola caer con una mano y jalando el cordón de arranque con la otra mano. Párese a un lado de la sierra de modo que la trayectoria de corte no coincida con la pierna y párese en el lado ascendente del objeto que vaya a cortar, de modo que éste no ruede hacia usted. Sujete la sierra paralela al piso con el brazo izquierdo estirado para lograr un mejor control y reducir la posibilidad de que la sierra le golpee si ésta retrocede.

Mantenga ambas manos en la sierra mientras ésta esté en marcha. Trabaje despacio y sin apresurarse. Permita que la sierra de cadena realice el trabajo; no la fuerce nunca. Evite cortar a una altura superior a la parte media del pecho. No trate nunca de cortar un árbol que tenga un diámetro mayor que la longitud de la pala de la sierra y evite las ramas que puedan saltar a medida que corta. Dese cuenta siempre de lo que haya en la trayectoria descendente de la sierra después del corte. Se recomienda tomarse descansos frecuentes mientras corta para evitar usar la sierra estando cansado.

Aunque algunas lesiones de sierra de cadena son causadas por un error del usuario, el retroceso es la causa del mayor número de lesiones de sierra de cadena. En el retroceso, la cadena superior "se agarra" a la madera o a una obstrucción, y fuerza la sierra hacia atrás, haciendo que el usuario pierda el control de la sierra o pierda el equilibrio y provocando que la sierra toque el cuerpo. Algunas sierras de cadena tienen frenos diseñados para detener la sierra instantáneamente después del retroceso. Aunque los frenos no previenen el retroceso, pueden reducir la gravedad de la lesión causada.

Lleve la sierra por debajo de la cintura, con el motor apagado y el brazo de la sierra en dirección hacia atrás, de modo que, si se tropieza, la sierra caiga detrás de usted.

Si la sierra es eléctrica, asegúrese de usar un cable de extensión aprobado para uso a la intemperie y no utilice la sierra en lugares húmedos. Llene las sierras de cadena que funcionan a gasolina al aire libre, cuidando de no llenarlas en exceso ni de derramar el combustible. Nunca reposte una sierra en caliente. Deje que se enfríe primero y tenga a mano un extinguidor de incendios.

Es peligroso trabajar en solitario con una sierra de cadena. Tenga a una persona a quien pueda llamar, pero mantenga a los espectadores y asistentes a una distancia segura, de modo que no sean lesionados por la sierra, trozos de madera que salgan despedidos, aserrín o el objeto que está cortando.

**Requirements:** J. F. Shea Construction Inc. is a union signatory contractor. Subcontractors must possess a current contractor's license, insurance coverage and worker's compensation for the entire length of the contract. All subcontractors will be required to sign our standard Subcontract Agreement. 100% payment and performance bonds may be required. Please call if you need assistance in obtaining insurance, bonding, equipment, materials and/or supplies. Plans and specifications can be viewed at our office located at 17400 Clear Creek Road, Redding, Ca. 96001 or call for any additional needed project information. J. F. Shea Construction Inc. intends to work cooperatively with all qualified firms seeking work on this project. We are an equal opportunity employer and will work with any interested subcontractor to identify opportunities to break items into economically feasible packages.

**Requirements:****Date posted:** 08/14/2013**Contractor:** Steelhead Constructors, Inc **Contact:** Kelly Knight**Address:** 2940 Innsbruck Drive Redding, CA 96003**Phone:** 5302266400 **Fax:** 5302266401 **Email:** [kelly@steelheadconstructors.com](mailto:kelly@steelheadconstructors.com)

**Services needed:** We are requesting quotes from all qualified subcontractors and suppliers, including all certified DBE/MB subcontractor. We are soliciting quotes for (including but not limited to): Furnish K-Rail, Striping / Marking, Arborist, Guardrail, Cold Plane/Grading, Erosion Control, Paving, Profiling, Drilling, CIDH Pile, Micropile, Rebar, Signs, Furnish Mesh, Furnish Pipe, and Barrier Rail. The quotations may be broken down into comparable units as reasonably necessary. Steelhead will work with suppliers and subcontractors to identify opportunities and break down items into economically feasible units.

**Requirements:** Steelhead Constructors, Inc. (Steelhead) will be bidding the referenced project as a prime contractor. Plans and specifications for this project may be viewed at your local builder's exchange and are available for review in our office. If you require additional information regarding the requirements of the contract, please don't hesitate to call our office. In order that we may give your bid maximum consideration, please supply us with a FAX letter prior to the bid describing the scope of your work. Steelhead is an Equal Employment Opportunity Employer. We encourage and actively solicit proposals from DBE and MB subcontractors and suppliers on all our projects. All

Kiewit Infrastructure West C  
 - Contract No. 01-479404

qualified DBE and MB subcontractors must be registered and certified by the California Department of Transportation. Steelhead is signatory to Operating Engineers, Laborers, Carpenters and Cement Masons Unions. All subcontractors must possess a current contractor's license, insurance, and worker's compensation coverage meeting Steelhead's requirements and will be required to sign Steelhead's Subcontract Agreement. Performance and payment bonds up to 100% may be required for the full amount of the subcontract price. Prior to the bid, upon request, you can contact our office if you require assistance in bonding, lines of credit, insurance, obtaining necessary equipment, supplies, materials or services etc., which may be required by the Owner. Please contact our office and advise us if you are interested in bidding on this project. Sincerely, STEELHEAD CONSTRUCTORS, INC. The Estimating Department 530-226-6400 ask for Kelly Knight

**Contractor:** Flatiron West Inc **Contact:** Lillian Simon

**Address:** 2100 Goodyear Road Benicia, CA 94510

**Phone:** 707-742-6000 **Fax:** 707-746-1603 **Email:** [lisimon@flatironcorp.com](mailto:lisimon@flatironcorp.com)

**Services needed:** Flatiron West Inc is soliciting for the following items of work, but are not limited to: CAS/Roadway Signs, Bridge Demo, Clear & Grub, Erosion Control, AC Paving, Cold Plane AC, CIDH, Joint Seal Assembly, Rebar, Tie Down Anchors, AC Dike and Curbs, Underground Utilities, Metal Railing, MBGR, Bridge Concrete Barrier, Striping, Electrical, Minor Concrete, Micropiles, Aggregates, Ready Mix Concrete, Concrete Pumping, Steel Beams, Underground Pipe Products (APC, CSP & PVC), Misc. Iron and Steel, Misc. Metals, Trucking, SWPP Plan, SWPPP Materials, Lead Compliance Plan, Geotextile Materials, Bridge Bearings, Underground Precast, Street Sweeping, Traffic Control, Arborist Services and Biologist Services.

**Requirements:** 100% performance and payment bonds will be required for the full amount of the subcontract price. By submitting a price quote to Flatiron, subcontractors and suppliers bidder affirms that they have carefully examined ALL the bidding/contract documents/Addenda and that from his/her own investigation, they have satisfied themselves as to the nature and location of the work. Please contact Flatiron West for any assistance to this solicitation, including obtaining bonding, insurance, equipment, materials and/or supplies. Please provide subcontractor and supplier quotes as early as possible to enable our estimators to perform a thorough evaluation of all quotes received. Flatiron's listing of a Subcontractor in its bid submittal to any agency is not to be construed as an acceptance of all of the Subcontractor's conditions or exceptions included with Subcontractor's price quotes. Quotations will be broken down into comparable packages as reasonably necessary. Quotations must be valid for the same duration as specified by the Owner for Contract Award. Flatiron is signatory to Operating Engineers, Laborers, Ironworkers, Cement Masons, Carpenters and Pile Drivers Unions. Any non-signatory subcontractors will be required to sign an agreement for trades covered under our union agreements. Plans, specifications and project requirements may be reviewed at our office by appointment only or plans and specs may also be downloaded on the Caltrans Office Engineer website at no cost. Flatiron West will work cooperatively with Subcontractors and suppliers for all bid items you are licensed and qualified to perform. Bid items can be split to facilitate participation from all certified firms. Flatiron West will pay for bond premium up to 2%. Subcontractors must possess a current contractor's license, insurance and worker's compensation coverage meeting Flatiron's requirements and will be required to sign the standard Flatiron Subcontract Agreement. A copy of the insurance requirements and agreement can be obtained by contacting the Estimating Administrator. Flatiron West is an Equal Opportunity Employer. Please contact Flatiron for any assistance required by your firm.
