**BLENDING SERVICE/MATERIAL QUOTATION – BID DATE 4/23/2013**  
Pricing valid through November 30, 2013

To: Hat Creek Const Attn: James Folsom Project: Caltrans 02-3C0724

Item #	Est. Qty	Units	Item Description	Unit Price	Extension
16	17300	TONS	RHMA – GG	10,757.24	185,975.00
	1	EACH	Mobilization Included		
		EACH	Additional Mobilization	10,000.00	

**Special Conditions:** Price includes furnishing all the necessary labor, equipment, crumb rubber and asphalt modifier for blending, reacting, and pumping the asphalt rubber binder through the hot plant flow meter to the pug mill per mix design percentages. National shall be paid for all binder blended.

Blend site shall be adjacent to the hot plant/asphalt storage tank and subject to the approval of National. National will draw virgin asphalt oil from hot plant storage tank or tankers. Excess binder at end of job due to contractor/hot plant miscalculation will need to be pumped off during last production shift otherwise additional standby and shift charges shall apply.

Virgin asphalt shall be supplied at a minimum of 375 degrees F. If this is not possible then National will utilize our heat exchanger. However, National will not be held liable for delays in blending due to insufficient temperature of incoming asphalt since target production rate may not be met

Initial JMF test run after blend plant setup and calibration included in unit pricing. Each additional JMF test run, \$3000.00 plus unit price per ton of mix made. Standby rate of \$1500.00 per working day shall apply after 5 working days from initial JMF test run until production shifts begin.

National has calculated rubber supply based on maximum binder content (dry) of 7.5 % for RHMA, based on information provided by **Hat Creek Const** for the **Susanville** plant. Rubber calculated at 19.0%. National will provide the asphalt rubber binder design and 4 quarts of binder for use in the RHMA mix design. Asphalt plant to provide the rubberized hot mix asphalt mix design.

Price based on 9 production shifts of approximately 1922 tons per shift of RHMA, +/- days \$2500 each. Down days between production days (excluding weekend/holidays) billed at \$1500.00 day. No credit for saved days due to under runs in contract quantities.

Price is based on ten (10) hour hot plant shifts. Each additional hour will be billed at \$275.00 an hour

Cancellation of a production shift requires eight hours advance notice prior to start of heating/blending shift in order to avoid possible delays in continuous production day allotment identified above. Cancellation of production day after National has been scheduled and begun heating will be billed at \$1500.00

Asphalt rubber blending provided by National is subject to plant availability, crumb rubber material supply, permitting by local air quality control district and calibration testing (109/MPQP) by Caltrans.

National reserves the right to rescind its bid if not accepted in writing within five (5) days of bid opening.

**Standard Conditions:** Payment terms net 30 from day services rendered. A 1% penalty will be incurred on all invoices more than 15 days past payment due date.

All paving shall be in accordance with the specifications, including pavement and ambient temperature reqs.

**Exclusions:** National Blending Co. is a non-union company and will not become signatory to any union agreements. Sales tax, anti strip additives and bonding are excluded. Electrical work and supply required to tie asphalt rubber equipment into hot plant will be the responsibility of the hot plant owner. Testing of materials other than viscosity tests performed on asphalt rubber binder.
