Terms and Conditions

Price includes labor, equipment, reacting, and pumping of asphalt rubber per binder design. Customer to provide raw materials to VSSI or purchase from VSSI at the above rates.

Price based on 19 consecutive days of 12 hour production shifts yielding approximately 175 tons of finished binder per shift. VSSI shall be notified of cancellations of a production shift by noon the preceding day. Failure to provide this notification will result in a production shift being billed. All non-production days after plant setup shall be billed as standby days at a rate of \$5000 per day. Each additional hour beyond 10 per production shift shall be billed at \$1025 per hour. A production shift starts when VSSI personnel begin operations on site for the day and ends when VSSI personnel cease operations for the day. No credits will be issued for days saved due to underruns in contract quantities. All fuel, electricity, and heating costs to be billed to customer at VSSI's cost. VSSI shall not be held liable for any downtime back charges.

Virgin asphalt not purchased from VSSI to be supplied to VSSI operation at a minimum of 375F. Failure to provide asphalt at this temperature will require VSSI to heat the asphalt, which may result in production delays, increased fuel charges, and overtime charges. VSSI will not be held liable for any production delay or reduced daily production resulting from insufficient temperature of supplied asphalt.

VSSI reserves the right to rescind bid if it is not accepted within 10 days of the project bid opening. Customer shall schedule work with VSSI at least 4 weeks prior to project start date. Scheduling is subject to plant availability and compatibility with VSSI's schedule.

Customer to provide location for VSSI to set up hot plant and stage materials, subject to VSSI's approval. Electrical work and supply required to tie asphalt rubber equipment into hot plant shall be provided by customer at customer's expense. Pre-lien information shall be provided to VSSI prior to mobilization.

VSSI to be paid for all material blended. Customer to take possession of all asphalt rubber binder delivered to project site. Payment terms 20 days 1%, NET 30 days from date of services rendered.

Paving contractor shall perform all paving in accordance to the project specifications and industry best practices. Quotation excludes applicable taxes, binder design, permits, testing, QC-QA plan, inspection, Storm Water Pollution Prevention Program, and bond. VSSI is bondable at 0.5% (\$5.00/\$1,000.00)
