Portland cement concrete grinding is excluded from this quotation unless specifically quoted.

Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charged to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $500.00 per hour.
9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence.
15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

Portland cement concrete grinding is excluded from this quotation unless specifically quoted.

Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charged to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $500.00 per hour.
9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence.
15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

Good Morning mr. Lal,

I received a phone call from a contractor this morning saying I was listed as dbe. Is there a certificate? If so, I was wondering if I can get a copy of the certificate. Will it come e-mail or by mail?

Thank-you, Gerilee Shinn

Pradeep-

This is a hugely devastating email to receive on Friday before my weekend. When we were shown to be approved the day before. I need an explanation as to why this has happened. Where are we at in our review? Our file must have been open for this error to happen. This was a huge relief to me to receive this status during the bidding season for next year's work. What can be done to expedite our review now?

This doesn't only affect us but the contractors that found out about our DBE status and listed us as their DBE. Within this time, we had three contractors have us fill out the DBE confirmation forms and I have received some today. When we inquired to you about this status and certs you informed us that we were to used the certification off the DBE website and that the DBE number on the website was proof we were certified to provide that number to our contactors. What is the DOT going to do for these projects that you affected in error of this approval?

I need to receive a procedure on how to know when we are approved. For this approval to be stripped right after we were approved is just devastating to me.

I need guidance today, at the earliest possible moment, as how I should proceed.

Do we need to call these contractors or send official letters? What is our proper procedure now?

Thank you,

Gerilee Shinn

Radios: Our pilot car(s) and flaggers will be equipped with VHF and UHF 2-way radios. Our pilot cars and flaggers will be equipped with CB radios for communication with your truckers and other CB-equipped equipment.

Rental Equipment: For this project, the Portable Changeable Message Signs are covered herein under. The Prime Contractor shall be responsible for any damage or loss to/of the equipment due to traffic conflicts, vandalism, theft, acts of nature or mishandling by Prime Contractor's staff, this includes batteries. The Prime Contractor will NOT be responsible for maintenance of the operational capabilities, except for operational difficulties and repairs brought about by such traffic conflicts, vandalism, acts of nature or mishandling by Prime Contractor's staff.
Prime contractor is responsible for all lost stolen or damaged equipment on job site. (Includes all non-powered equipment) A daily record of items used will be provided by T and S DVBE Inc. for the prime contractor to sign off on.

Insurance: T AND S DVBE, INC. maintains insurance coverage's as required by USDOT-FHWA, Caltrans (Commercial General Liability, Commercial Auto, and Workers Comp); any additional coverage's required by the Prime Contractor can be acquired by us at the Prime Contractor's sole expense (e.g., Workers' Comp Waiver of Subrogation, Excess Liability umbrella).

Mobilization: For this project our initial advance notice requirements are 10 calendar days for mobilization of CMS boards, flaggers, pilot car, etc.

Inclusion of these entire quotations in Subcontract or Work Order is required either within the body of the Subcontracts/Work Orders or appendixes to and referenced within the Subcontract/Work Order. Such inclusion and /or referencing in no way obligates the Prime Contractor to use any of the optional quotations above.

Working Time:
All pricing is based on consistent working weeks/days. Prices are subject to change if prime contractor contracts T AND S DVBE Inc. less than full 40 hr. Week and/or 8 hr. days. Additional Mob and or increased hourly rates will be applied.

All Payments (There will be no payment retention on traffic control)
T AND S DVBE INC. will bill every two weeks. Invoice due and payable 30 days from date of invoice. Customer agrees to pay a finance charge of 1.5% per month on all past due balances. Customer further agrees to pay reasonable attorney's fees and cost if collection is required. Venue for the purpose of this obligation shall be Lassen County, CA. T AND S DVBE Inc. will be paid within 30 days of invoicing or work shall stop until payment is made.
Should you have any questions regarding these quotations, please call our office @ 530-639-9987. Call for additional prices such as cones, barricades, barricaded follow pilot car signs, or signs/stands as needed

Acceptance of this quote is acceptance of these provisions, which shall prevail if in conflict with any other contract documents. This quote must become a binding part of any contract written in reference to it.

Quote excludes any and all electrical and water pollution control work.

No retention is to be held on Traffic Control and Equipment Rental.

Good Morning mr. Lal,

I received a phone call from a contractor this morning saying I was listed as dbe. Is there a certificate? If so, I was wondering if I can get a copy of the certificate. Will it come e-mail or by mail?

Thank-you, Gerilee Shinn

Pradeep-

This is a hugely devastating email to receive on Friday before my weekend. When we were shown to be approved the day before. I need an explanation as to why this has happened. Where are we at in our review? Our file must have been open for this error to happen. This was a huge relief to me to receive this status during the bidding season for next year's work. What can be done to expedite our review now?

This doesn't only affect us but the contractors that found out about our DBE status and listed us as their DBE. Within this time, we had three contractors have us fill out the DBE confirmation forms and I have received some today. When we inquired to you about this status and certs you informed us that we were to used the certification off the DBE website and that the DBE number on the website was proof we were certified to provide that number to our contactors. What is the DOT going to do for these projects that you affected in error of this approval?

I need to receive a procedure on how to know when we are approved. For this approval to be stripped right after we were approved is just devastating to me.

I need guidance today, at the earliest possible moment, as how I should proceed.

Do we need to call these contractors or send official letters? What is our proper procedure now?

Thank you,

Gerilee Shinn
