$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked, tons or loads hauled within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

If Buyer shall fail to comply with any provision or to make payments in accordance with the terms of this contract or any other contract between Buyer and Seller, Seller may at its option defer shipments or, without waiving any other rights it may have, terminate this contract. All deliveries shall be subject to the approval of Seller's Credit Department. Seller reserves the right, before making any delivery, to require payment in cash or security for payment, and if Buyer fails to comply with such requirement, Seller may terminate this contract. A late charge of 1-½% monthly (18% annual rate) or the maximum allowed by state law, if less, will be imposed on all past due accounts.

9. TRANSPORTATION CHARGES. Delivered prices or prices involving competitive transportation adjustments shall be subject to appropriate adjustment to reflect changes in transportation charges.

Buyer must notify Seller of claims for failure or delay in delivery within 30 days after the scheduled delivery date. Buyer must notify Seller of any claims for nonconforming or defective goods within 30 days after the nonconformity or defect was or should have been discovered. In addition, Seller must be given an opportunity to investigate the claim before Buyer disposes of the material, or else Buyer's claim will be barred. Seller shall incur no liability for damage, shortages, or other cause alleged to have occurred or existed at or prior to delivery to the carrier unless the Buyer shall have entered full details thereof on its receipt to the carrier.

11. MECHANICAL PROPERTIES; CHEMICAL ANALYSES. Data referring to mechanical properties or chemical analysis are the result of tests performed on specimens obtained from specific locations of the product(s) in accordance with prescribed sampling procedures; any warranty thereof is limited to the values obtained at such locations and by such procedures. However, no other tax imposed in respect of the sale of the products sold hereunder is included in any quotation by Seller. Any tax shall be added and paid by Buyer as part of the purchase price.

16. BUYER'S RIGHT OF TERMINATION. Buyer may terminate this contract in whole or in part upon notice in writing to Seller. Seller shall thereupon cease work and transfer to Buyer title to all completed and partially completed products and to any raw materials or supplies acquired by Seller especially for the purpose of performing this contract, and Buyer shall pay Seller the sum of the following: (1) the contract price for all products which have been completed prior to termination; (2) the cost to Seller of the material or work in process as shown on the books of Seller in accordance with the accounting practice consistently maintained by Seller plus a reasonable profit thereon, but in no event more than the contract price; (3) the cost f.o.b. Seller's plant of materials and supplies acquired especially for the purpose of performing this contract; and (4) reasonable cancellation charges, if any, paid by Seller on account of any commitment(s) made hereunder.

17. SELLER'S RIGHT OF TERMINATION. In addition to the other rights of termination provided for in this contract, and if this contract is made pursuant to any governmental rule or regulation, plan, order or other directive, upon the termination thereof, Seller shall have the option of canceling this contract in whole or in part.

18. WAIVER. Failure or inability of either party to enforce any right hereunder shall not waive any right in respect to any other or future rights or occurrences.

19. DELIVERY. Unless otherwise agreed to in writing by the Seller, the Buyer hereby agrees to take delivery of the materials on this order within the later of thirty (30) days after the wanted date shown on the face of the order or within thirty (30) days after notification, oral or written, that the materials are ready for shipment. In the event that the Buyer does not arrange to take delivery of the materials in accordance with this Contract, Seller, at Seller's option, may:

(a) invoice the Buyer for the materials less freight if applicable; store the material in Seller's yard for a period not to exceed sixty (60) days from the date of invoice; charge a storage fee not to exceed 5% per month or fraction thereof of the selling price of the stored materials; add any applicable price increases listed on the face of the order; charge for any repair work to protective coatings harmed by weathering while such material is being stored; and charge applicable freight when shipment to the Buyer is made. Materials remaining in storage after sixty (60) days from the invoice date shall become the property of the Seller for disposition at the Seller's discretion. In that event, Buyer shall not be liable for the invoice price of the materials, but shall be liable for the storage fee and any repair work to protective coatings; or

(b) cancel the order and invoice the Buyer for cancellation charges, which shall be 25% of the selling price of the materials if the materials are standard, in-stock material, or the full selling price if the materials are special or nonstandard in nature and were especially fabricated for the Buyer.

20. PERIOD OF LIMITATIONS. Buyer and Seller agree that any action by Buyer against Seller for a breach of this contract, including any action for breach of warranty, or otherwise in connection with the goods sold under this contract, must be commenced by Buyer against Seller within one year after the cause of action therefore accrues.

21. CONFLICTING PROVISIONS OFFERED BY BUYER. Any terms and conditions of any purchase order or other instrument issued by the Buyer, in connection with the subject matter of this document, which are in addition to or inconsistent with the terms and conditions expressed herein, will not be binding on Seller in any matter whatsoever unless accepted by Seller in writing.

22. SEVERABILITY. In case any provision of this contract shall be declared invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired.

23. APPLICABLE LAW. This contract shall be governed by, and construed and enforced in accordance with, the laws of the State of California. Buyer and Seller specifically agree that any legal action brought relating to this contract will be brought and tried in the federal district court in Los Angeles, California, or, in the absence of jurisdiction, the Los Angeles Superior Court in Norwalk, California.

Scope of Work:

A. Prepare Stormwater Pollution Prevention Plan (SWPPP).
   - I. Prepare SWPPP per State and contract requirements. Include Rain Event Action Plan (REAP) template, Construction Site Monitoring Plan and Sampling and Analysis Plan where required.
   - II. Prepare Water Pollution Control Drawings as part of the SWPPP.
   - III. Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.

B. Rain Event Action Plans (REAPs).
   - I. Prepare REAPs prior to a rain event with 50% or more chance of occurrence; prepared by a Qualified SWPPP Developer (QSD).
   - II. Exclusions; this contract item can only be provided if we are selected to also perform Stormwater inspection or WPC Manager services. This does not include a pre-storm inspection which would be covered under other bid items.

C. Storm Water Sampling and Analysis Day.
   - I. Provide pH and turbidity sampling of runoff. Collect 3 minimum grab samples per day of stormwater runoff during a qualifying rain event. A qualifying rain event is one that produces 0.5" or more of rain with 48 hours of dry weather in between storm events. Sampling will be done using field meters. Document sampling on the Caltrans CEM2052 Field Test report form.

D. Storm Water Annual Report

ASSUMPTIONS AND QUALIFICATIONS

We have based this proposal on a nominal wall thickness for the Insitutube as shown in the price. This is based on the best available information at the time of this proposal. Existing pipe deterioration in excess of the conditions assumed, ground water loads in excess of those assumed, or other loads or conditions may increase the recommended thickness for all or portions of the work. Final recommendations may be submitted to you following the completion of the preliminary TV phase of the project. Stated prices are subject to adjustment if design changes are agreed upon.

Laterals – Based on the information provided there are no laterals that require reinstatement, however during TV inspection all side sewers are verified, using best practical efforts, to determine if each is an active hook up. Normal practice only reinstates those, which are active. You may direct us to reinstate all or specific laterals as you desire. This proposal, unless otherwise stated, assumes that no laterals will be reconnected. Specific service connections will not be reconnected only when written directions are received from the Prime. The Owner will indemnify and hold **INSITUFORM TECHNOLOGIES** harmless from all claims arising from backups and other effects of such actions or inaction's from services not opened at the Prime's request. In the event that Insituform is unable to locate or reconnect a service lateral internally, the Prime will externally reconnect the service at no cost to Insituform.

Water shall be provided at no cost to Insituform Technologies for all construction phases of this project. Insituform Technologies will follow all required deposit, backflow prevention, and metering procedures.

The Prime will need to provide access to both ends of the line, traffic control, bypass and spot repairs prior to the lining operation if needed. **Please see Attachment 1 which includes specific access requirements for each site. See Attachment 2 for pictures of required installation equipment.**

PROPOSAL INCLUSION

The prices stated in this proposal include:

1. One mobilization and demobilization. - based on a mutually agreeable schedule between Insituform and the Prime. The Prime needs to give Insituform at least a one week advance notice of any changes to the mutually agreed upon schedule. If through no fault of Insituform the mutually agreed upon schedule changes with less than one week notice then Insituform may charge the Prime an additional mobilization charge and any potential lost materials including but not limited to tube already "wetout". Materials will be ordered upon receipt of an executed contract, standard material order time is 4 – 5 weeks.
2. Pipe line cleaning. Loose debris and "normal" deposits only. Extraordinary conditions will need to be treated as a point repair.
3. Pre-Video inspections and documentation of existing pipe prior to reconstruction with the Insituform process for pipe rehabilitated by CIPP.
4. Installation of Cured-In-Place Pipe (CIPP) lining per Specification Section 15-6.11 Cured-In-Place Pipe Liners including inversion, curing, and finishing. Insituform will utilize a polyester resin system.
5. Post video inspection following completion of the installation to document your new pipe rehabilitated by CIPP
6. Confined space safe entry practices.
7. One-year standard construction warranty.
8. Certificate of insurance with a standard coverage.

In the event we are unable to perform on the job due to breakdown or unavailability of equipment we may subcontract a local sweeper in at their rates which may vary higher than ours. We will make all attempts to quickly limit the expense in these events. In the event that we cannot perform or substitute a contractor to perform on this job, Wells Sweeping will not be held liable for any back charges, surcharges, and or costs related to delays. If dispatched equipment/driver is not able to perform on scheduled day and client is provided notice of the same, unless such circumstances exist that render such notice impossible, client will be responsible for acquiring a replacement. Client agrees to assume any and all liability for delay due to this circumstance. This clause remains in effect from the date of this proposal. (These circumstances are possible, but highly unlikely; we are performing work out of our normal area of operations and events out of our control can and may take place, we have a very high out-of-town success rate and our clients are extremely satisfied with our services)The parties agree that the contents herein are deemed a proposal until the contract is awarded to Wells Sweeping, at which time the terms and conditions stated herein become binding. *Small surcharge may be added to cover fluctuations in fuel costs.

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach $3.50 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every $0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price $/gallon	% increase to hourly/tonnage/load rate
$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%
$3.80 - $3.899	4%
$3.90 - $3.999	5%
$4.00 - $4.099	6%
$4.10 - $4.199	7%
$4.20 - $4.299	8%
$4.30 - $4.399	9%
$4.40 - $4.499	10%
$4.50 - $4.599	11%
$4.60 - $4.699	12%
$4.70 - $4.799	13%
$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked, tons or loads hauled within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

Bid Date: 11/18/2015

Nothing in the original quote has been changed except for the production rate disclaimer in this paragraph. This project may require more trucks than I can provide. There is a possibility of truck shortages. I do not want to work with the work with the consequences of being back charged for not providing enough trucks. An additional concern regarding production that I want to point out, is that the trucks will be going uphill while dumping. There is a high probability that they will spin out and need a push. This resulting in your crews being delayed in there compaction efforts. You ask, what am I comfortable with. Answer is listed below. No back charges excepted.

1) **Base Rock with Double Bottoms = 600 TPH on short hauls, 400 TPH on long hauls**
2) **Asphalt with Double Bottoms = 275 TPH**
3) **End Dumps = 35 trucks. I will try to get more. (work needs to be 5 days a week)**

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach $3.50 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every $0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price $/gallon	% increase to hourly/tonnage/load rate
$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%
$3.80 - $3.899	4%
$3.90 - $3.999	5%
$4.00 - $4.099	6%
$4.10 - $4.199	7%
$4.20 - $4.299	8%
$4.30 - $4.399	9%
$4.40 - $4.499	10%
$4.50 - $4.599	11%
$4.60 - $4.699	12%
$4.70 - $4.799	13%
$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked, tons or loads hauled within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%

$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked, tons or loads hauled within that week.

1. ACCEPTANCE. This quotation is an offer to sell to potential customer(s). BUYER'S RIGHT TO ACCEPT THIS OFFER IS LIMITED TO BUYER'S ASSENT TO THE TERMS AND CONDITIONS PRINTED HEREON AND THE ACCOMPANYING QUOTE, AND NO TERMS ADDITIONAL TO OR DIFFERENT FROM THOSE IN THIS OFFER ARE BINDING ON SELLER. THERE ARE NO UNDERSTANDINGS, TERMS, CONDITIONS OF WARRANTIES NOT FULLY EXPRESSED HEREIN.

2. LIMITED WARRANTIES. Seller warrants that it can convey good title to the goods sold under this contract and that they are free of liens and encumbrances. Seller also warrants that the goods sold under this contract are free from defects in material and workmanship for a period of one year after the date of delivery. There are no warranties, express or implied with respect to products sold hereunder which are misused, abused, or used in conjunction with mechanical equipment improperly designed, used or maintained or which are used, supplied for use or made available for use in any nuclear application of which Seller has not been notified in writing by Buyer at the time of order for the products sold hereunder. SELLER MAKES NO OTHER WARRANTY WHATSOEVER, EXPRESS OR IMPLIED. ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND ALL IMPLIED WARRANTIES OF FITNESS FOR ANY PARTICULAR PURPOSE ARE DISCLAIMED BY SELLER AND EXCLUDED FROM THIS CONTRACT.

3. LIMITATION OF BUYER'S REMEDIES AND SELLER'S LIABILITY. Seller's liability hereunder shall be limited to the obligation to repair or replace only those products proven to have been defective in material or workmanship at the time of delivery, or allow credit, at its option. Seller's total cumulative liability in any way arising from or pertaining to any product sold or required to be sold under this contract shall NOT in any case exceed the purchase price paid by Buyer for such products. IN NO EVENT SHALL SELLER HAVE ANY LIABILITY FOR COMMERCIAL LOSS, LOST PROFITS, CLAIMS FOR LABOR, OR CONSEQUENTIAL OR INCIDENTAL DAMAGES OF ANY TYPE, WHETHER BUYER'S CLAIM BE BASED IN CONTRACT, TORT, WARRANTY, STRICT LIABILITY, NEGLIGENCE, OR OTHERWISE. IT IS EXPRESSLY AGREED THAT BUYER'S REMEDIES EXPRESSED IN THIS PARAGRAPH ARE BUYER'S SOLE AND EXCLUSIVE REMEDIES.

4. LIMITATION OF BUYER'S REMEDIES AND SELLER'S LIABILITY FOR FAILURE OR DELAY IN DELIVERY. NO DELIVERY DATES ARE GUARANTEED. BUYER'S SOLE AND EXCLUSIVE REMEDIES AND SELLER'S ONLY LIABILITY FOR ANY DELAY IN DELIVERY SHALL BE LIMITED AS SET FORTH IN PARAGRAPH 3 OF THIS CONTRACT.

5. FORCE MAJEURE. In any event and in addition to all other limitations stated herein, Seller shall not be liable for any act, omission, result or consequence, including but not limited to any delay in delivery or performance, which is (i) due to any act of God, the performance of any government order, any order bearing priority rating or order placed under any allocation program (mandatory or voluntary) established pursuant to law, local labor shortage, fire, flood or other casualty , governmental regulation or requirement, shortage or failure or raw material, supply, fuel, power or transportation, breakdown of equipment, or any cause beyond Seller's reasonable control whether of similar or dissimilar nature to those above enumerated, or (ii) due to any strike, labor dispute, or difference with workers, regardless of whether or not Seller's is capable of settling any such labor problem.

6. BUYER'S OBLIGATION TO PASS ON LIMITATION OR WARRANTIES AND REMEDIES. In order to protect Seller against claims by Buyer's buyer, if Buyer resells any of the goods purchased under this agreement, Buyer shall include the language contained in paragraphs 2 and 3 of this agreement, dealing with Seller's limitations of warranties and remedies, in an enforceable agreement with Buyer's buyer, or otherwise include language in an enforceable agreement with its buyer that makes Seller's limitation of warranties and remedies binding on its buyer. Buyer shall also include a provision in its agreement with its buyer applying California law to any claims its buyer might assert against Seller with respect to goods manufactured by Seller, and requiring its buyer to bring any such action against Seller either in federal district court in Los Angeles, California or the common pleas court for Los Angeles County, California. Buyer shall defend, indemnify and hold Seller harmless from any and all claims, causes of action, damages, losses or expenses (including reasonable attorneys' fees) that Seller incurs by reason of Buyer's failure to comply with this paragraph.

7. PASSAGE OF TITLE. Title to the products sold hereunder shall pass upon delivery to the carrier at the point of shipment. Neither Buyer nor the consignee shall have the right to divert or re-consign such shipment to any destination other than specified in the bill of lading without permission of the Seller. Unless otherwise agreed Seller reserves the right to select the mode of transportation.

8. PAYMENTS AND LATE CHARGES ON PAST DUE ACCOUNTS. Buyer represents that Buyer is solvent and can and will pay for the products sold to Buyer in accordance with the terms hereof. If Buyer shall fail to comply with any provision or to make payments in accordance with the terms of this contract or any other contract between Buyer and Seller, Seller may at its option defer shipments or, without waiving any other rights it may have, terminate this contract. All deliveries shall be subject to the approval of Seller's Credit Department. Seller reserves the right, before making any delivery, to require payment in cash or security for payment, and if Buyer fails to comply with such requirement, Seller may terminate this contract. A late charge of 1-½% monthly (18% annual rate) or the maximum allowed by state law, if less, will be imposed on all past due accounts.

9. TRANSPORTATION CHARGES. Delivered prices or prices involving competitive transportation adjustments shall be subject to appropriate adjustment to reflect changes in transportation charges.

10. CLAIMS BY BUYER. Buyer shall thoroughly inspect products sold under this contract immediately upon receipt to verify for itself that they conform to the specifications of the contract. Buyer must notify Seller of claims for failure or delay in delivery within 30 days after the scheduled delivery date. Buyer must notify Seller of any claims for nonconforming or defective goods within 30 days after the nonconformity or defect was or should have been discovered. In addition, Seller must be given an opportunity to investigate the claim before Buyer disposes of the material, or else Buyer's claim will be barred. Seller shall incur no liability for damage, shortages, or other cause alleged to have occurred or existed at or prior to delivery to the carrier unless the Buyer shall have entered full details thereof on its receipt to the carrier.

11. MECHANICAL PROPERTIES; CHEMICAL ANALYSES. Data referring to mechanical properties or chemical analysis are the result of tests performed on specimens obtained from specific locations of the product(s) in accordance with prescribed sampling procedures; any warranty thereof is limited to the values obtained at such locations and by such procedures. There is no warranty with respect to values of the materials at other locations.

12. PATENTS. Seller shall indemnify Buyer against attorneys' fees and any damages or costs awarded against Buyer in the event any legal proceeding is brought against Buyer by a third person claiming the material delivered hereunder in itself constitutes an infringement of any U.S. patent, provided Buyer gives Seller prompt notice of any such suit being brought, gives Seller the opportunity to defend any such suit, and cooperates with Seller with respect to any such defense; unless the material is made in accordance with material designs, or specifications required by Buyer, in which case Buyer shall similarly indemnify Seller.

13. PERMISSIBLE VARIATIONS. The products sold hereunder shall be subject to Seller's standard manufacturing variations, tolerances and classifications.

14. TECHNICAL ADVICE. Buyer represents that it has made its own independent determination that the products it is purchasing under this contract meet the design requirements of Buyer's project and are suitable for Buyer's intended application. Buyer further represents that it has not relied in any respect on any written or oral statements or advice from Seller, other than the standard product specifications set forth in the most recent addition of Seller's published product brochures, in making that determination.

15. TAXES. If this proposal includes furnishing labor to install products, applicable use taxes have been included in the prices quoted. However, no other tax imposed in respect of the sale of the products sold hereunder is included in any quotation by Seller. Any tax shall be added and paid by Buyer as part of the purchase price.

16. BUYER'S RIGHT OF TERMINATION. Buyer may terminate this contract in whole or in part upon notice in writing to Seller. Seller shall thereupon cease work and transfer to Buyer title to all completed and partially completed products and to any raw materials or supplies acquired by Seller especially for the purpose of performing this contract, and Buyer shall pay Seller the sum of the following: (1) the contract price for all products which have been completed prior to termination; (2) the cost to Seller of the material or work in process as shown on the books of Seller in accordance with the accounting practice consistently maintained by Seller plus a reasonable profit thereon, but in no event more than the contract price; (3) the cost f.o.b. Seller's plant of materials and supplies acquired especially for the purpose of performing this contract; and (4) reasonable cancellation charges, if any, paid by Seller on account of any commitment(s) made hereunder.

17. SELLER'S RIGHT OF TERMINATION. In addition to the other rights of termination provided for in this contract, and if this contract is made pursuant to any governmental rule or regulation, plan, order or other directive, upon the termination thereof, Seller shall have the option of canceling this contract in whole or in part.

18. WAIVER. Failure or inability of either party to enforce any right hereunder shall not waive any right in respect to any other or future rights or occurrences.

19. DELIVERY. Unless otherwise agreed to in writing by the Seller, the Buyer hereby agrees to take delivery of the materials on this order within the later of thirty (30) days after the wanted date shown on the face of the order or within thirty (30) days after notification, oral or written, that the materials are ready for shipment. In the event that the Buyer does not arrange to take delivery of the materials in accordance with this Contract, Seller, at Seller's option, may:

(a) invoice the Buyer for the materials less freight if applicable; store the material in Seller's yard for a period not to exceed sixty (60) days from the date of invoice; charge a storage fee not to exceed 5% per month or fraction thereof of the selling price of the stored materials; add any applicable price increases listed on the face of the order; charge for any repair work to protective coatings harmed by weathering while such material is being stored; and charge applicable freight when shipment to the Buyer is made. Materials remaining in storage after sixty (60) days from the invoice date shall become the property of the Seller for disposition at the Seller's discretion. In that event, Buyer shall not be liable for the invoice price of the materials, but shall be liable for the storage fee and any repair work to protective coatings; or

(b) cancel the order and invoice the Buyer for cancellation charges, which shall be 25% of the selling price of the materials if the materials are standard, in-stock material, or the full selling price if the materials are special or nonstandard in nature and were especially fabricated for the Buyer.

20. PERIOD OF LIMITATIONS. Buyer and Seller agree that any action by Buyer against Seller for a breach of this contract, including any action for breach of warranty, or otherwise in connection with the goods sold under this contract, must be commenced by Buyer against Seller within one year after the cause of action therefore accrues.

21. CONFI[illegible] PROVISIONS OFFERED BY BUYER. Any terms and conditions o[illegible] purchase order or other instrument issued by the Buyer, in connection with the subject matter of this document, which are in addition to or inconsistent with the terms and conditions expressed herein, will not be binding on Seller in any matter whatsoever unless accepted by Seller in writing.

22. SEVERABILITY. In case any provision of this contract shall be declared invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired.

23. APPLICABLE LAW. This contract shall be governed by, and construed and enforced in accordance with, the laws of the State of California. Buyer and Seller specifically agree that any legal action brought relating to this contract will be brought and tried in the federal district court in Los Angeles, California, or, in the absence of jurisdiction, the Los Angeles Superior Court in Norwalk, California.

The coating manufacturer does not recommend the Final Coat of Inorganic Zinc as specified by Caltrans. R&B will not be held responsible for any issues associated with the final coat application as specified by Caltrans. Fabrication prices do not include 3rd party inspection and are based on being performed at R&B's facility prior to coating if allowed by project construction. Fabrication will be billed based on a material on hand production. All invoices are to be processed regardless of delivery to site. The freight price includes one hour for unloading at the jobsite. Should additional standby time be required, it will be billed accordingly at $95.00 per hour. The jobsite is to be accessible with a standard CA legal tractor semi-trailer. Contractor is to provide sufficient turn around space or offer an alternative drop zone.** R&B is not responsible for any inaccessible areas. Any testing beyond R&B's Standard Caltrans Coating Quality Control will be done at R&B's Facility on a change order basis. All rack marks are to be touched up in accordance with R&B's standard packaging. The price does not include conditioning of thermal cut edges (TCEs) or knife edges produced by others. Any work performed beyond that directly stated above will be done so on a change order basis. The price does not include any surface preparation of R&B's shop applied primer prior to additional coats applied in the field. The surface preparation of the shop applied primer required for field applied coats is the responsibility of the field painter. Primer only systems should be protected or top coated within Manufacturer's Recommendations. R&B welcomes and encourages owner's acceptance and / or 3rd party inspection provided by others at our facility. Any coating defects identified by the contractor after leaving R&B's facility that are deemed to be the responsibility of R&B will be shipped back to R&B's Facility by the contractor at the contractor's expense for the necessary repairs. R&B will only warranty the application of the coating to be applied in accordance with the manufacturer's recommendations and the project specifications and does not apply any warranty to the coating material or it's intended use. Any warranties applied to this proposal are for a duration of One (1) Year from the date of R&B's Final QC. Any warranties beyond One (1) Year will need to be discussed, priced and issued prior to work performed. Price does not include a dunnage surcharge for any dunnage provided by R&B for shipping painted steel. R&B will make all efforts to meet our customer's delivery requirements. However, R&B is not a party to onsite requirements and assumes no responsibility for jobsite delays, back-charges, adverse weather conditions and all inconveniences for final erection and installation. Schedules will be binding only if R&B receives a written delivery schedule in a timely fashion prior to coating, and concurs to meet the submitted schedule in writing. Contractor will pay interest at the rate of 1.5% monthly on all overdue balances. R&B is a supplier, not a subcontractor, and should be treated as such on this project. All work is to be performed on a Purchase Order only. This proposal may be withdrawn by R&B if not accepted within 30 days. Contractor will pay all attorney fees & costs needed to collect overdue balances.
