control (our straw mulching machines are retrofitted for dust suppression with the "Dust Dog" (United States Patent US 8,550,384 B2 (10/08/13)), costs of local licenses, permits, fees and/or other taxes, watering, maintenance, pedestrian protection and traffic control.

3) ~~One~~ (1) move-in is included in the total bid price. Additional move-ins caused by weather related issues, other delays in work and other conditions out of our control is at $1,150.00 each. Approximately one (1) working day (weekends and holidays excluded) is required to complete an estimated 12,500 SQFT of Compost and an estimated 12,500 SQFT of Incorporate Materials. Stand-by time will be billed at $550.00 per hour.

4) Bond premium (performance and payment) rate is 2.5%. Minimum bond premium charge per project is $150.00. Bond premium amount is not included in the bid price. Commercial Liability Insurance does not cover Railroad Protective Insurance, Coverage for "volunteers," Umbrella Liability Limits and/or Excess Liability Limits, Professional Liability, Avian Influenza A (Avian Flu – Absolute), Employment Related Practices, Silica (Absolute), Residential Construction Defect PCO, Construction Wrap-UP/OCIP Exclusion, EIFS & Spray-on Siding, Known Damage or Injury, Biological Contaminants - Mold, Fungus, Micro-Organisms (covered under Pollution policy), Engineers, Architects, or Surveyors Professional Liability, Nuclear Energy Liability, Lead (Absolute), Asbestos (Absolute), Injury to Independent Contractors, Residential Construction Activities (Absolute except Apartments), Condominium Conversion, Beryllium, Advertising Liability and Certified Acts of Terrorism. With the exception that our bid-proposal shall in no event be construed to require indemnification by Subcontractor to a greater extent than permitted under the public policy of the State of California, Subcontractor shall indemnify and save harmless Owner and Contractor only arising out of or in connection with Subcontractor's operations to be performed under this bid-proposal.

5) Terms: Due and payable within 30 days from date of installation and/or as per Business and Professional Code §7108.5 and Public Contract Code §10262.5 (for progress payments) and/or as per Public Contract Code §7107 (for retention due).

6) Attorney fees and interest: If court action be instituted on this invoice, general contractor promises to pay reasonable attorney fees. A late payment charge of 1 1/2% per month will be charged on all invoices not paid within terms of quote. This is annual percentage rate of 18 %.

7) General Contractor to provide good, drivable truck access to each site to be treated with Compost and with Incorporate Materials.

9) Final field measured quantities shall be provided by General Contractor and/or Owners' Representative prior to installation of Compost or of Incorporate Materials. If final field measurement shall be required of Nitta Erosion Control at jobsite, it shall be performed on a time and material basis with an authorized representative from the General Contractor and Owner in attendance.

Thank you for the opportunity to quote on this project.

Yours truly,

control (our straw mulching machines are retrofitted for dust suppression with the "Dust Dog" (United States Patent US 8,550,384 B2 (10/08/13)), costs of local licenses, permits, fees and/or other taxes, watering, maintenance, pedestrian protection and traffic control.

3) One (1) move-in is included in the total bid price. Additional move-ins caused by weather related issues, other delays in work and other conditions out of our control is at $1,150.00 each. Approximately one (1) working day (weekends and holidays excluded) is required to complete an estimated 12,500 SQFT of Compost and an estimated 12,500 SQFT of Incorporate Materials. Stand-by time will be billed at $550.00 per hour.

4) Bond premium (performance and payment) rate is 2.5%. Minimum bond premium charge per project is $150.00. Bond premium amount is not included in the bid price. Commercial Liability Insurance does not cover Railroad Protective Insurance, Coverage for "volunteers," Umbrella Liability Limits and/or Excess Liability Limits, Professional Liability, Avian Influenza A (Avian Flu – Absolute), Employment Related Practices, Silica (Absolute), Residential Construction Defect PCO, Construction Wrap-UP/OCIP Exclusion, EIFS & Spray-on Siding, Known Damage or Injury, Biological Contaminants - Mold, Fungus, Micro-Organisms (covered under Pollution policy), Engineers, Architects, or Surveyors Professional Liability, Nuclear Energy Liability, Lead (Absolute), Asbestos (Absolute), Injury to Independent Contractors, Residential Construction Activities (Absolute except Apartments), Condominium Conversion, Beryllium, Advertising Liability and Certified Acts of Terrorism. With the exception that our bid-proposal shall in no event be construed to require indemnification by Subcontractor to a greater extent than permitted under the public policy of the State of California, Subcontractor shall indemnify and save harmless Owner and Contractor only arising out of or in connection with Subcontractor's operations to be performed under this bid-proposal.

5) Terms: Due and payable within 30 days from date of installation and/or as per Business and Professional Code §7108.5 and Public Contract Code §10262.5 (for progress payments) and/or as per Public Contract Code §7107 (for retention due).

6) Attorney fees and interest: If court action be instituted on this invoice, general contractor promises to pay reasonable attorney fees. A late payment charge of 1 1/2% per month will be charged on all invoices not paid within terms of quote. This is annual percentage rate of 18 %.

7) General Contractor to provide good, drivable truck access to each site to be treated with Compost and with Incorporate Materials.

9) Final field measured quantities shall be provided by General Contractor and/or Owners' Representative prior to installation of Compost or of Incorporate Materials. If final field measurement shall be required of Nitta Erosion Control at jobsite, it shall be performed on a time and material basis with an authorized representative from the General Contractor and Owner in attendance.

Thank you for the opportunity to quote on this project.

Certified Coatings Company

September 10, 2014

Attention: General Contractors

Regarding: For Construction On State Highway in Butte County About 10.9 Miles North of Oroville from 0.2 Mile East of Pentz Road to 0.2 Mile East of Cherokee Road Contract No. 03-3E1204

BID LETTER

Gentlemen:

Certified Coatings Company is pleased to provide our bid for the field cleaning and painting of surfaces on the above referenced project. We hold current SSPC QP1 certifications as required by Caltrans.

For shop abrasive blasting and priming, we recommend that you contact R&B Protective Coatings in Linden, CA (Tel 209-887-2030), who is SSPC QP3 certified.

We are a non-union contractor and will provide non-union painters at prevailing wages. If this is a problem, please let us know immediately. We will provide a paint quality work plan to cover our work.

We will be bidding on the following items:

Bid Item #	Description	Unit of Measure	Est. Qty.	Unit Price	Extension
58	**Clean Structural Steel (Existing Bridge)**	**LS**	**LS**	**LS**	**$15,000.00**
59	**Clean and Paint Structural Steel**	**LS**	**LS**	**LS**	**$14,627.00**
	Total Lump Sum Bid				**$29,627.00**

Bonding can be provided upon request at 1.2% of our subcontract price.

Item 58: Clean Structural Steel (Existing Bridge) – we will clean the structural steel and the interiors of bolt holes within the foot print of the existing restrainer plates per SSPC SP1 solvent cleaning.

Certified Coatings Company — 2320 Cordelia Road Fairfield, CA 94534
(707) 639-4414 - FAX (707) 432-0574 — e-mail: ccc@muehlhan.com
EEO Employer

887287

Item 59: Clean and Paint Structural Steel – our bid assumes the new restrainer plates are abrasive blasted and primed with zinc primer in the shop by others. Our scope of work includes painting the inside of bolt holes and performing SSPC SP2/3 hand & power tool spot cleaning and touchup of any damage to the shop applied coatings on the restrainer plates with a coat of Carboline Carbozinc 859 VOC organic zinc primer.

Exclusions:

- Preparing a lead work compliance plan – no lead paint removal is required for our work.
- Repair of deficient shop-applied coatings.
- Railroad Protective Liability insurance or RR flagging. CCC to be named as additional insured on General Contractor's RR Protective Liability policy if necessary.
- Access platforms or bridge snooper for access to the work areas to be provided by GC.
- Repair of damaged coatings caused by GC or others outside of the new restrainer plates. Our bid assumes that any erection damage to the shop primer is minimal enough that it will be repairable by spot hand/power tool cleaning and spot application of organic zinc as described above. If damage is so much that Caltrans requires surface preparation beyond SP2/3 (i.e. abrasive blasting), additional charges will apply.
- Removal of any material that would affect the adhesion of the top coats or as directed by the GC/Caltrans that cannot be removed by the specified pressure washing, including concrete splatter/residue.
- Our bid is based on doing the work in no more than two mobilizations.
- Traffic control to allow us to access our work is to be provided by GC at no cost to Certified Coatings.
- GC to provide periodic use of a forklift at no cost to Certified Coatings if needed.
- GC to provide portable toilets.
- Provision of enclosures to paint during inclement weather. Paint will not be applied during inclement weather.
- GC agrees not to negotiate change orders affecting our work with Owner without first getting our input as to affect on our work.

This bid is valid for 45 days.

If there are any other bid items you feel should include field painting, or if you require further clarification or modifications to this bid proposal, please call us at (707) 639-4414.

Sincerely,

David Brockman

3) One (1) move-in is included in the total bid price. Additional move-ins caused by weather related issues, other delays in work and other conditions out of our control is at $1,150.00 each. Approximately one (1) working day (weekends and holidays excluded) is required to complete an estimated 12,500 SQFT of Compost and an estimated 12,500 SQFT of Incorporate Materials. Stand-by time will be billed at $550.00 per hour.

4) Bond premium (performance and payment) rate is 2.5%. Minimum bond premium charge per project is $150.00. Bond premium amount is not included in the bid price. Commercial Liability Insurance does not cover Railroad Protective Insurance, Coverage for "volunteers," Umbrella Liability Limits and/or Excess Liability Limits, Professional Liability, Avian Influenza A (Avian Flu – Absolute), Employment Related Practices, Silica (Absolute), Residential Construction Defect PCO, Construction Wrap-UP/OCIP Exclusion, EIFS & Spray-on Siding, Known Damage or Injury, Biological Contaminants - Mold, Fungus, Micro-Organisms (covered under Pollution policy), Engineers, Architects, or Surveyors Professional Liability, Nuclear Energy Liability, Lead (Absolute), Asbestos (Absolute), Injury to Independent Contractors, Residential Construction Activities (Absolute except Apartments), Condominium Conversion, Beryllium, Advertising Liability and Certified Acts of Terrorism. With the exception that our bid-proposal shall in no event be construed to require indemnification by Subcontractor to a greater extent than permitted under the public policy of the State of California, Subcontractor shall indemnify and save harmless Owner and Contractor only arising out of or in connection with Subcontractor's operations to be performed under this bid-proposal.

5) Terms: Due and payable within 30 days from date of installation and/or as per Business and Professional Code §7108.5 and Public Contract Code §10262.5 (for progress payments) and/or as per Public Contract Code §7107 (for retention due).

6) Attorney fees and interest: If court action be instituted on this invoice, general contractor promises to pay reasonable attorney fees. A late payment charge of 1 1/2% per month will be charged on all invoices not paid within terms of quote. This is annual percentage rate of 18 %.

7) General Contractor to provide good, drivable truck access to each site to be treated with Compost and with Incorporate Materials.

9) Final field measured quantities shall be provided by General Contractor and/or Owners' Representative prior to installation of Compost or of Incorporate Materials. If final field measurement shall be required of Nitta Erosion Control at jobsite, it shall be performed on a time and material basis with an authorized representative from the General Contractor and Owner in attendance.

Attention: General Contractors

Regarding: For Construction On State Highway in Butte County About 10.9 Miles North of Oroville from 0.2 Mile East of Pentz Road to 0.2 Mile East of Cherokee Road Contract No. 03-3E1204

BID LETTER

Gentlemen:

Certified Coatings Company is pleased to provide our bid for the field cleaning and painting of surfaces on the above referenced project. We hold current SSPC QP1 certifications as required by Caltrans.

For shop abrasive blasting and priming, we recommend that you contact R&B Protective Coatings in Linden, CA (Tel 209-887-2030), who is SSPC QP3 certified.

We are a non-union contractor and will provide non-union painters at prevailing wages. If this is a problem, please let us know immediately. We will provide a paint quality work plan to cover our work.

We will be bidding on the following items:

Bid Item #	Description	Unit of Measure	Est. Qty.	Unit Price	Extension
58	**Clean Structural Steel (Existing Bridge)**	**LS**	**LS**	**LS**	**$15,000.00**
59	**Clean and Paint Structural Steel**	**LS**	**LS**	**LS**	**$14,627.00**
	Total Lump Sum Bid				**$29,627.00**

Bonding can be provided upon request at 1.2% of our subcontract price.

Item 58: Clean Structural Steel (Existing Bridge) – we will clean the structural steel and the interiors of bolt holes within the foot print of the existing restrainer plates per SSPC SP1 solvent cleaning.

Certified Coatings Company — 2320 Cordelia Road Fairfield, CA 94534
(707) 639-4414 - FAX (707) 432-0574 — e-mail: ccc@muehlhan.com
EEO Employer

887287

Item 59: Clean and Paint Structural Steel – our bid assumes the new restrainer plates are abrasive blasted and primed with zinc primer in the shop by others. Our scope of work includes painting the inside of bolt holes and performing SSPC SP2/3 hand & power tool spot cleaning and touchup of any damage to the shop applied coatings on the restrainer plates with a coat of Carboline Carbozinc 859 VOC organic zinc primer.

Exclusions:

- Preparing a lead work compliance plan – no lead paint removal is required for our work.
- Repair of deficient shop-applied coatings.
- Railroad Protective Liability insurance or RR flagging. CCC to be named as additional insured on General Contractor's RR Protective Liability policy if necessary.
- Access platforms or bridge snooper for access to the work areas to be provided by GC.
- Repair of damaged coatings caused by GC or others outside of the new restrainer plates. Our bid assumes that any erection damage to the shop primer is minimal enough that it will be repairable by spot hand/power tool cleaning and spot application of organic zinc as described above. If damage is so much that Caltrans requires surface preparation beyond SP2/3 (i.e. abrasive blasting), additional charges will apply.
- Removal of any material that would affect the adhesion of the top coats or as directed by the GC/Caltrans that cannot be removed by the specified pressure washing, including concrete splatter/residue.
- Our bid is based on doing the work in no more than two mobilizations.
- Traffic control to allow us to access our work is to be provided by GC at no cost to Certified Coatings.
- GC to provide periodic use of a forklift at no cost to Certified Coatings if needed.
- GC to provide portable toilets.
- Provision of enclosures to paint during inclement weather. Paint will not be applied during inclement weather.
- GC agrees not to negotiate change orders affecting our work with Owner without first getting our input as to affect on our work.

This bid is valid for 45 days.

If there are any other bid items you feel should include field painting, or if you require further clarification or modifications to this bid proposal, please call us at (707) 639-4414.

Sincerely,

David Brockman

Regarding: For Construction On State Highway in Butte County About 10.9 Miles North of Oroville from 0.2 Mile East of Pentz Road to 0.2 Mile East of Cherokee Road Contract No. 03-3E1204

BID LETTER

Gentlemen:

Certified Coatings Company is pleased to provide our bid for the field cleaning and painting of surfaces on the above referenced project. We hold current SSPC QP1 certifications as required by Caltrans.

For shop abrasive blasting and priming, we recommend that you contact R&B Protective Coatings in Linden, CA (Tel 209-887-2030), who is SSPC QP3 certified.

We are a non-union contractor and will provide non-union painters at prevailing wages. If this is a problem, please let us know immediately. We will provide a paint quality work plan to cover our work.

We will be bidding on the following items:

Bid Item #	Description	Unit of Measure	Est. Qty.	Unit Price	Extension
58	**Clean Structural Steel (Existing Bridge)**	**LS**	**LS**	**LS**	**$15,000.00**
59	**Clean and Paint Structural Steel**	**LS**	**LS**	**LS**	**$14,627.00**
	Total Lump Sum Bid				**$29,627.00**

Bonding can be provided upon request at 1.2% of our subcontract price.

Item 58: Clean Structural Steel (Existing Bridge) – we will clean the structural steel and the interiors of bolt holes within the foot print of the existing restrainer plates per SSPC SP1 solvent cleaning.

Certified Coatings Company — 2320 Cordelia Road Fairfield, CA 94534
(707) 639-4414 - FAX (707) 432-0574 — e-mail: ccc@muehlhan.com
EEO Employer

887287

Item 59: Clean and Paint Structural Steel – our bid assumes the new restrainer plates are abrasive blasted and primed with zinc primer in the shop by others. Our scope of work includes painting the inside of bolt holes and performing SSPC SP2/3 hand & power tool spot cleaning and touchup of any damage to the shop applied coatings on the restrainer plates with a coat of Carboline Carbozinc 859 VOC organic zinc primer.

Exclusions:

- Preparing a lead work compliance plan – no lead paint removal is required for our work.
- Repair of deficient shop-applied coatings.
- Railroad Protective Liability insurance or RR flagging. CCC to be named as additional insured on General Contractor's RR Protective Liability policy if necessary.
- Access platforms or bridge snooper for access to the work areas to be provided by GC.
- Repair of damaged coatings caused by GC or others outside of the new restrainer plates. Our bid assumes that any erection damage to the shop primer is minimal enough that it will be repairable by spot hand/power tool cleaning and spot application of organic zinc as described above. If damage is so much that Caltrans requires surface preparation beyond SP2/3 (i.e. abrasive blasting), additional charges will apply.
- Removal of any material that would affect the adhesion of the top coats or as directed by the GC/Caltrans that cannot be removed by the specified pressure washing, including concrete splatter/residue.
- Our bid is based on doing the work in no more than two mobilizations.
- Traffic control to allow us to access our work is to be provided by GC at no cost to Certified Coatings.
- GC to provide periodic use of a forklift at no cost to Certified Coatings if needed.
- GC to provide portable toilets.
- Provision of enclosures to paint during inclement weather. Paint will not be applied during inclement weather.
- GC agrees not to negotiate change orders affecting our work with Owner without first getting our input as to affect on our work.

This bid is valid for 45 days.

If there are any other bid items you feel should include field painting, or if you require further clarification or modifications to this bid proposal, please call us at (707) 639-4414.

Sincerely,

David Brockman
