Re: **Bid Protest** – Contract 03-4M5804  
Protesting Bidder – O.C. Jones & Sons, Inc.

Gentlemen:

This law firm represents O.C. Jones & Sons, Inc. ("O.C. Jones") in connection with the bid that it submitted to the Department of Transportation ("Caltrans") for Contract 03-4M5804 (the "Contract"). In particular, we are writing to protest the rejection of our client's bid as non-responsive, as communicated by Caltrans in its letter dated March 26, 2014. We further protest an award of the contract to any bidder other than O.C. Jones, because under California law O.C. Jones submitted the lowest responsive bid.

There is only irregularity identified by Caltrans relative to our client's bid. In particular, and as stated in the March 26, 2014 letter:

On bid day O.C. Jones, identified FBD Vanguard, to perform work described as aggregate approach slab. However, on its 24hr Subcontractors list form (O.C. Jones) enlarged the scope of work to include bid item 3, Traffic Control.

Caltrans does not explain how or why this irregularity renders the bid non-responsive, nor does it cite to any legal authority in support of its decision to reject the bid. As discussed more fully below, California law establishes that (i) this irregularity does not render the bid non-responsive, and (ii) the public entity's remedy for the irregularity (failing to list a subcontractor, or listing two subcontractors for the same scope of work) is not to reject the bid, but rather to require the prime bidder to perform the listed work (here, traffic control) with its own forces. (Public Contract Code section 4106.) For these reasons, it is requested

John C. McMillan  
Earl Seaberg  
April 1, 2014  
Page 2

that Caltrans reverse its determination of non-responsiveness and proceed to evaluate the bid of O.C. Jones for contract award.

In its initial Subcontractor List submitted with its bid, O.C. Jones listed FBD Vanguard for a number of items of work, including spall repair, slab replacement RSC, structural concrete approach slab, paving notch and aggregate base approach slab. (See Exhibit "A.") In its sub-bid to O.C. Jones, FBD Vanguard had included traffic control as needed for its scope of work. O.C. Jones did not include "traffic control" in the initial description of work to be performed by FBD Vanguard, because traffic control (like mobilization) is (i) customarily assumed to be included in the scope of such work, (ii) dollar-wise, does not comprise a significant portion of the overall subcontracted work, and (iii) is not typically listed by prime contractors in the "description of work" section of the Caltrans Subcontractor List. Indeed, attached as Exhibit "B" are examples from six (6) Caltrans bids in which prime contractors did not include "traffic control" in the description of the work to be performed by the subcontractor, yet (like O.C. Jones) included the traffic control bid item number for that subcontractor in the 24 hour supplemental list. To O.C. Jones' knowledge, Caltrans did not reject any of these bids.

In its 24 hour supplemental Subcontractor List, O.C. Jones provided the bid item numbers and percentage of bid item subcontracted for each of its listed subcontractors. (Exhibit "C.") In this list O.C. Jones included Bid Item Number 3 (Traffic Control) with the other bid item numbers to be performed by FBD Vanguard. CalTrans contends that the inclusion of Bid Item Number 3 on the supplemental list, when O.C. Jones did not include "traffic control" for FBD Vanguard in the description of work on the initial list, renders the bid non-responsive. In reality, however, the bid irregularity can mean only one of two things: Either O.C. Jones failed to timely list a subcontractor for traffic control, or it listed two subcontractors (FBD Vanguard and Titan DVBE) for traffic control.<sup>1</sup> Either way, California law provides that the remedy for the irregularity is not to reject the bid as non-responsive, but rather to require O.C. Jones to perform traffic control with its own forces. As provided by Public Contract Code Section 4106:

**§ 4106. Failure to specify or specification of more than one subcontractor; performance by prime contractor**

If a prime contractor fails to specify a subcontractor or if a prime contractor specifies more than one subcontractor for the same portion of work to be performed under the contract in excess of one-half of 1 percent of the prime contractor's total bid, the prime contractor agrees that he or she is fully qualified to perform that portion himself or herself, and that the prime contractor shall perform that portion himself or herself.

If after award of contract, the prime contractor subcontracts, except as provided in Sections 4107 or 4109, any such portion of the work, the prime contractor shall be subject to the penalties named in Section 4111.

<sup>1</sup> In its initial Subcontractor List O.C. Jones listed Titan DVBE for "Traffic Control – partial."

John C. McMillan  
Earl Seaberg

Page 3

Section 4106 is part of the Subletting and Subcontracting Fair Practices Act (Public Contract Code Section 4100 et seq.), which regulates contracts for public works. It strictly regulates the circumstances under which listed subcontractors may be changed. Its purpose is to protect the public and subcontractors from the evils of "bid shopping" or "bid peddling." (*R.J. Land & Associates Const. Co. v. Kiewit-Shea* (1999) 69 Cal.App.4th 416, 419-20.) The Legislature has expressly found the practices of bid shopping and bid peddling in connection with the construction, alteration, and repair of public improvements often result in poor quality of material and workmanship to the detriment of the public, and deprive the public of full benefits of fair competition among prime contractors and subcontractors. (*Id.*) **The statute provides the exclusive remedy to avoid this type of practice or result.** Specifically, when a prime bidder does not list a subcontractor for certain work, or lists more than one subcontractor for that work, the remedy is not to reject the bid as non-responsive, but rather to require the prime bidder to perform the work in question with its own forces.

Where, as here, a statute creates a right that did not exist at common law and provides a comprehensive and detailed remedial scheme for its enforcement, the statutory remedy is exclusive. *Flores v. Los Angeles Turf Club* (1961) 55 Cal.2d 736, 746-747 [California statutory scheme for regulating horse racing provides exclusive remedies for violation]; *Rojo v. Kliger* (1990) 52 Cal.3d 65, 79. In other words, because the California Legislature has provided the exclusive remedy for alleged violations of the subcontractor listing laws, Caltrans may not create or enforce different remedies (such as rejection of the bid) for those violations. Instead, as unambiguously provided in Section 4106, the remedy for the irregularity Caltrans has identified is to require O.C. Jones to perform the traffic control work with its own forces. In accordance with Public Contract Code Section 4106, O.C. Jones agrees that it is fully qualified to perform the traffic control work under this contract and that it will perform such work if awarded the contract.

Please confirm in writing that the determination of non-responsiveness has been rescinded, and that Caltrans will proceed to evaluate O.C. Jones for contract award. Please also direct all communications regarding this protest to my attention.

Very truly yours,

A handwritten signature in black ink, appearing to read "David B. Kuhlman", with a long horizontal line extending to the right.

David B. Kuhlman
