Dear Mr. Dees:

The Department of Transportation (Caltrans) received letter dated September 8, 2014 from C. C. Myers, Inc (C. C. Myers) for Contract No. 03-4M7404 on August 27, 2014 protesting American Civil Constructors West Coast, Inc.'s (ACC) bid. The protest alleges that ACC's bid was mathematically and materially unbalanced. C. C. Myers alleges that ACC proposes to complete the work for \$2.00 per cubic foot, which is less than 5% of the statewide average and of the average price proposed by the other bidders of this contract.

Caltrans reviewed the bid documents and it was determined that the low bid is not materially unbalanced and ACC provided an adequate justification for bidding Item Number 150310, Rapid Setting Concrete (Patch) significantly low when compared to the Engineer's Estimate. ACC claimed to bid the noted item low as they have a stockpile of the material and a volumetric mixer to place it.

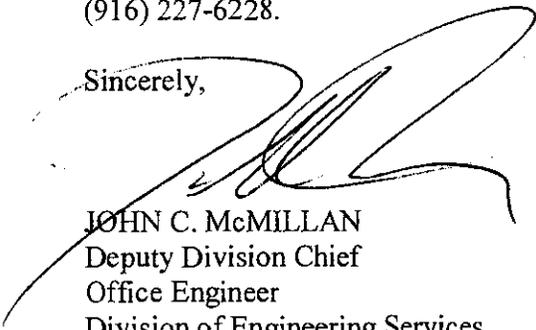

Caltrans evaluated this contract on the value of this project, not on any other contract.

Based on the above, Caltrans will proceed to award the contract to the lowest responsible bidder, provided that all requirements are met.

Your attention is directed to Section 3-1.04 of the 2010 Standard Specifications. Caltrans is not obligated to offer an extension of the award period for a nonresponsive bid. Should you wish to extend your bid while resolving a nonresponsive finding, you must send your request to the Office Engineer no later than 4:00 pm, two business days prior to the expiration of your bid.

If you have any questions, please contact Mulissa Smith, Contract Awards Branch Chief, at (916) 227-6228.

Sincerely,

JOHN C. McMILLAN
Deputy Division Chief
Office Engineer
Division of Engineering Services
