7. For hourly work, minimum charges apply: 6 hours at night and 8 hours during the daytime.

19. Dillard is not responsible for the selection of any disposal site but rather can only make suggestions about possible locations that would be permitted to accept materials or wastes based on information provided to Dillard by the contractor or generator. Dillard is relying solely on that information when providing disposal options.
20. Dillard is certified with various agencies as a SDB, DBE, SDBE, WBE, LBE, and UDBE.
21. In the event the account becomes delinquent and it is necessary to institute legal proceedings, CUSTOMER agrees to pay DES' attorney's fees incurred in such proceeding, action or suit or in any appeal thereon. The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $425.00 per hour.
9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Vorne

Any deviation from this procedure will not change the costs incurred and may cause immediate withdrawal of trucking from said job

15. All un-scaled tonnage quotes will be based on **26.20 tons** per load for Double bottoms. All scaled tonnage quotes for partial loads will be based on 24.00 tons for Transfers. All scaled tonnage quotes for partial loads will be based on 19.00 tons for Semi ends, Semi bottoms and Super Dumps These quotes are based on R&S Trucking performing all trucking requirements on said project. Also, when partial loads are sent back from the jobsite, back to the quarry: The time spent traveling back will be charged at the quoted hourly rate.
16. If Contractor chooses not to have loads weighted, then contractor is responsible for all overloads, overload tickets, and anything that occurs if load is not weighed.
17. Hourly time to be charged will start from the time reporting to work (time truck was ordered to be at load site), to the time completing the hourly service, which includes travel time back to the load site on the last load. Time to be charged shall include time for transportation in both directions, time for loading and unloading, and waiting or standby time, at origin and/or destination. Total chargeable time shall be computed to the nearest one-tenth of an hour. Deductions from the time only allowed for carrier equipment failure and meal delays.
18. R & S Trucking shall render to contractor invoices for services agreed to in the quote sheet/purchase order. Contractor agrees to pay R & S Trucking by the 20th day following the last day of the calendar month in which the work was performed, billed by the 5th day of the following month. When large truck orders are continuous in a given period it may be required that the contractor will be billed weekly and said payment to be no later than 10 days of receipt of invoice. Interest to be charged on all past due accounts at the maximum allowed by law.
19. Please provide R & S Trucking Estimator with all specific job information, which will be the basis of our quotes.
20. **Contractor must provide a site on each job for all truckers to clean out trailers daily at end of the last load.**
21. R & S Trucking is not responsible for delays caused by equipment failure of employees, agents or sub haulers of R & S Trucking, or by act of God, strikers, lockouts or similar matters beyond the control of R & S Trucking.
22. If any action at law or in equity, including an Action for Declaratory Relief, is brought to enforce or interpret the provisions of this agreement, the prevailing party shall be entitled to reasonable attorney's fee which may be set by the court in the same action or in a separate action brought for that purpose in addition to any other relief to which that party may be entitle. This agreement will be governed by and construed in accordance with the laws of the State of California.
23. Any changes to R & S Trucking freight tags must be received by FAX in the R & S Trucking main office within 2 working days from date of work performed by R & S Trucking for review.
24. Notices will be deemed communicated to either party to this agreement by either fax or certified mail using date of actual receipt of notice to receiving party.
25. R&S Trucking is not responsible for project production due to availability of trucks or any other reason, on any job.
26. As it is standard practice in the construction industry for contractors not to sign truckers trucking quotes, If R & S Trucking sign's a contractor's agreement/contract for trucking services; this action will be construed as a contractor signing an R & S Trucking complete quote with its terms & agreements. This also means that an R & S Trucking quotes supersedes any/all contractors agreements/contract/purchase order, and contractor will hold harmless anything associated in that contract, including production.
27. **R&S Trucking Co. is a VENDOR, not a SUB CONTRACTOR.**
28. Yearly escalation raise on top of the base rate quoted shall occur at **6% yearly**, commencing 1 year after the job start date, and shall continue yearly with 6% raises, year after year, for the continued duration of this same job.
29. All Asphalt mix designs, such as **Polymer blends, Rubberized, Open-Grade, etc.**, require the contractor to supply a designated clean-out area on the jobsite, and to supply additional equipment & manpower to help facilitate the clean-out of any and all truck and trailer(s). This also includes other sticky materials: such as Bay Mud, Wet Concrete mixes, etc. The time spent on this additional clean-out is chargeable and accrues separately for this clean-out procedure, and is not allowed to be averaged. In addition, R & S Trucking only hauls the above mentioned blends of asphalt in 5-axle Double bottoms only.
30. All rates quoted reflect a diesel cost per gallon up to and including: **$ 4.00/per gallon**. After it rises to: **$ 4.01/per gallon**, R & S Trucking will apply a **diesel fuel surcharge rate of 1% for every $ .10 cent per gallon cost increase**, as advised from the U.S. Dept. of Energy weekly on-highway diesel cost reports. Applying a diesel surcharge, after $ 4.01/per gallon, shall be billed thru the previous weeks trucking work (1 week in arrears).

Continued.....

31. All quoted rates DO NOT reflect the cost of an on-site truck boss. If the need of one is required, and mutually agreed upon by R & S Trucking and the contractor requesting this need, then the requesting contractor agrees to pay all costs associated for an on-site truck boss type monitor: This additional fee typically runs approx. $ 350.00/per day/per 8 hour shift, plus fuel cost. This rate is subject to change accordingly.
32. If & when and any & all Teamsters Local 315 or any other union local initiation fees and monthly union dues are required for any type of on-site/off-site/import/export trucking or trucks or owner-operators or independents that are pulling R & S Trucking's boxes or trailers = All dues payable will be paid out thru the general contractor awarded the above mentioned job. **R & S Trucking is not obligated to be a member of the Teamsters or join any other agreement with any organized union.**
33. When "budget trucking only estimates" are provided alongside quoted hourly rates, these budgets are provided reflecting the contractors/estimators desire & requests to help arrive to a: "Approximation of time cycles and/or tonnage estimate to help create a budget cost +/-". These budget costs/rates are not to be considered accurate enough for a commitment and are created only for a convenience, therefor only the hourly rates quoted at the time shall prevail.

NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not heva to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect thair lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechonics' lien against your property is 90 days efter substantial completion of your project.

NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

Yeah I do not see anything at this time looking over the plans but I will let you know if something comes up as we look at the project more. As for the Caltrans projects we are in a Joint Venture agreement with Ghilotti Bros Incorporated for both projects so one of our companies will be looking to provide the erosion control. Let me know if you have an other questions.

Subject: Good Faith Effort

Good Morning Olivia,

I wanted to touch base with you on the DBE Good Faith Effort program as it has been some time since I last spoke to you last.

In reference to section 5 of the Good Faith Efforts Documentation DBE (form DES-OE-0102.11A), are there any agencies which you can recommend to provide assistance contacting/recruiting/using DBEs? I want to make sure to fulfill all requirements for the program and reach out as much as possible.

I was in touch with the San Jose Minority Business Development Agency but it came to my attention several months ago that this effort did not satisfy requirements, so I'd like to get Agency contact information through Caltrans.

Thanks,

Melissa Daniels

Received a phone call from Jeff Skidmore. Jeff transferred the call to Ryan in the analyst department; Ryan answered questions regarding contracting/recruiting DBEs including what is expected for solicitation requirements and follow up methods. No other agency is available at this time to assist with contacting/recruiting/using DBEs.

Alright sounds good. Yeah it's a pretty big project as the engineer estimate is 52.8 Million but its not bidding for awhile though.

Will do. And we will most likely bid the Oakland Caltrans. I would just have to look at it to see what is on it.

Good morning Scott,

I am bidding the Central Marin project. The Santa Rosa and Napa project might be too far for the type of work but I will have to check. What city is the 880 widening project located?

Subject: Invitation to Bid

To Whom it may concern,

Hello my name is Scott Shires and I work for R.M. Harris Company. I talked to someone on the phone yesterday about possibly bidding on a few jobs we have coming up this month. After talking with my head estimator he said we will need water testing for Caltrans job 04-1a2904 called the Bridge Replace at Laguna de Santa Rosa in Sebastopol, CA. For this project we are going over a creek so we will defiantly need water testing. Let me know if you are interested in bidding on this job with us.

Thanks,

Scott Shires

Subject: List of Solicited DBE Firms for Hwy 12 Sebastopol
Attachments: DBE List.pdf; Invitation to Bid.pdf

Hi John,

Attached is the list of DBEs which I solicited by email and fax on Sep. 16th. I've made notes next to the firms which responded. Please have someone in your office call these firms to find out if they intend to bid. Have them try to get names of the people which they spoke to (the more info the better for Caltrans).
If they have questions, they can call Ryan.

Thanks!
