RE: Proposal for WPCP for Caltrans 04-1SS374, bidding 8/25/15

Dear Prime Contractor,

Thank you for the opportunity to provide a proposal for this project. We provide civil engineering and stormwater management services.

Handwritten: 111
PNEP WPCP only

Scope of Work:

A. Prepare Water Pollution Control Program (WPCP)

Prepare a Water Pollution Control Program (WPCP). The document will be prepared in accordance with Caltrans requirements. Water Pollution Control Drawings will be included.

Exclusions: Installation and implementation of water pollution practices, providing a WPC Manager, conducting training, and monitoring, inspection and correcting water pollution control practices are excluded. A WPC Manager, training, monitoring and inspection are available as an additional service upon request.

B. Provide Weekly Stormwater Inspection and Water Pollution Control Manager, for weekly inspection

- I. Provide Water Pollution Control Manager (WPC Manager) with appropriate Qualified SWPPP Practitioner (QSP) certification.
- II. Provide inspection 1 day per week of stormwater Best Management Practices (BMP's) and oversee BMP implementation; inspections will be done or overseen by a QSP.
- III. Provide quarterly non-stormwater monitoring inspection.
- IV. Check NOAA weather forecast daily.
- V. Provide stormwater inspection reports once a week.
- VI. Prepare WPCP Amendments as needed.
- VII. Provide initial SWPPP training to contractor's staff and subcontractors at beginning of job.
- VIII. Exclusions; Does not include any onsite sampling or lab testing if there is an event that triggers non-stormwater, non-visible pollutant or other testing. Assumes contractor's staff can provide the daily, pre-storm, during storm and post-storm visual BMP rain event inspection to reduce costs unless otherwise contracted for (See Item C below for rain event inspection).

C. Provide Stormwater Inspector for Pre-Storm, During Storm or Post Storm Inspection

- I. Provide Pre-storm inspection; before a forecasted storm event which is defined as one with a 50% chance or more of occurrence.
- II. Provide During storm inspection. This is required every 24 hours during extended storm events. A storm event is defined as one that produces or is forecasted to produce at least 0.10 inch of rain within a 24 hour period (per Caltrans definition).
- III. Provide Post storm inspection; after a qualifying rain event. A qualifying rain event is one that produces 1/2" or more of rain with a 48 hour or greater period between rain events.
- IV. Inspections will be done or overseen by a QSP.

Fee:

The WPCP will be prepared for a Fixed Fee of the following, with fees billed monthly based upon percent completion:

NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

Double G's Supply, Inc.
1079 Sunrise Avenue, Suite B#22
Roseville, CA 95661

Firm Number: 41416

Dear Ms. Guillory:

I am pleased to advise you that after careful review of your application and supporting documentation, the California Department of Transportation (Caltrans) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation's Code of Federal Regulation (CFR) 49, Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under these specific areas of your expertise and license identified following a comprehensive review of your firm:

NAICS Category Codes	Description
425120	Wholesale Trade Agents and Brokers

Work Category Codes	Description
G1000	Non-Store Whole Merchant
G1001	Drop- Shipper

Your DBE certification is recognized solely for the above codes. You may review your firm's information in the CUCP DBE Database, which can be accessed at Caltrans' Web site at <http://www.dot.ca.gov/hq/bep/>. Any additions and revisions must be submitted to Caltrans for review and approval.

In order to assure continuing DBE status, you must annually submit a No Change Declaration Form (which will be sent to you) along with supporting documentation. Based on your annual submission – that no change in ownership and control has occurred – or if changes have

**SUPPLIER CLEARINGHOUSE
CERTIFICATE OF ELIGIBILITY**

CERTIFICATE EXPIRATION DATE: **08-15-2016**

The Supplier Clearinghouse for the Utility Supplier Diversity Program of the California Public Utilities Commission hereby certifies that it has audited and verified the eligibility of:

***Double G's Supply, Inc.
of Roseville, California as a WMBE***

pursuant to Commission General Order 156, and the terms and conditions stipulated in the Verification Application Package. This Certificate shall be valid only with the Clearinghouse seal affixed hereto.

Eligibility must be maintained at all times, and renewed within 30 days of any changes in ownership or control. Failure to comply may result in a denial of eligibility. The Clearinghouse may reconsider certification if it is determined that such status was obtained by false, misleading or incorrect information. Decertification may occur if any verification criterion under which eligibility was awarded later becomes invalid due to Commission ruling. The Clearinghouse may request additional information or conduct on- site visits during the term of verification to verify eligibility.

This certification is valid only for the period that the above named firm remains eligible as determined by the Clearinghouse. Utility companies may direct inquiries concerning this Certificate to the Clearinghouse at 800-359-7998 in Los Angeles.

A MESSAGE TO OUR NEW PERMIT HOLDER

As a seller, you have rights and responsibilities under the Sales and Use Tax Law. In order to assist you in your endeavor and to better understand the law, we offer the following sources of help:

- Visiting our website at www.boe.ca.gov
- Visiting a district office
- Attending a Basic Sales and Use Tax Law class offered at one of our district offices
- Sending your questions in writing to any one of our offices
- Calling our toll-free Information Center at 800-400-7115

As a seller, you have the right to issue resale certificates for merchandise that you intend to resell. Conversely, you have the responsibility of not misusing resale certificates. While the sales tax is imposed upon the retailer,

- You have the right to seek reimbursement of the tax from your customer
- You are responsible for filing and paying your sales and use tax returns timely
- You have the right to be treated in a fair and equitable manner by the employees of the Board
- You are responsible for following the regulations set forth by the Board

As a seller, you are expected to maintain the normal books and records of a prudent businessperson. You are required to maintain these books and records for no less than four years, and make them available for inspection by a Board representative when requested. You are also expected to notify us if you are buying, selling, adding a location, or discontinuing your business, adding or dropping a partner, officer, or member, or when you are moving any or all of your business locations. If it becomes necessary to surrender this permit, you should only do so by mailing it to a Board office, or giving it to a Board representative.

If you would like to know more about your rights as a taxpayer, or if you are unable to resolve an issue with the Board, please contact the Taxpayers' Rights Advocate Office for help by calling toll-free, 888-324-2798 or 916-324-2798. Their fax number is 916-323-3319.

Please post this permit at the address for which it was issued and at a location visible to your customers.

Piling to include: Drilling, hole dewatering to other's location, temporary casing per the special provisions and hole stabilization as required, baker tank for slurry as required, setting steel soldier piles, providing and placing lean and structural concrete, night work with 10 hour piling shifts.

General Contractor to provide steel piles with picking eyes adjacent to hole locations.

EXCLUSIONS

Permits, bond premium (2%), inspection, wet weather construction, concrete block-outs or casting trumpets in forms or shotcrete, testing, welding, providing steel beams, splicing steel beams, chipping lean concrete, anchor bolts, forming, dowels, sand blasting, painting, demolition, structure excavation, structure backfill, structure concrete, field engineering, block outs, formwork, site dewatering, submittal or implementation of water pollution control plan, erosion control, water supply at drill rig 25 GPM, dust control, survey, layout, line & grade, USA utility location or markings, location/removal of utilities, shoring and protection of existing structures, streets, sidewalks and utilities, off-haul or removal of spoils and water, sediment pond or tank, off-haul of concrete over break, all costs related to any known or unknown hazardous or contaminated materials, 40 hour Hazmat Training. Traffic control provided by others.

Hillside drilling to provide an 80,000 LB Soil-Mec excavator mounted drill rig or similar with a 65' mast, 12' wide tracks, 4' tail swing, and a 6' reach from the tracks to the center of the drilled hole.

GENERAL CONDITIONS

Hillside Drilling's (HSD) bid is based on one move ins to the job with continuous operation until completion of subject move-ins; add \$8,000 to the contract for each additional move. Contractor will provide 20-foot wide level, unobstructed access with no overhead obstructions adjacent to all locations as required for drill rig, R.T. crane, concrete pump and concrete trucks. Contractor to remove drill spoils concurrent with drilling as required to provide access for setting and pouring operations. Concrete pour crew may require additional overtime work hours to complete pours. Contractor will provide a clean out area for drilling equipment and concrete pumps and trucks. Bid is based on night work Mon.-Fri. 10 hours per day. Contractor to provide three weeks minimum notice of start date. Contractor to provide area on site for storage of Hillside Drilling's equipment and materials. Changes in start date shall be made 72 hours in advance of given start date and may result in a delay to the rescheduled work. Hillside Drilling will be given one working day to verify grade, access, and layout before moving on to the site. If casing or dewatering is needed, rebar cages shall not block access of casing or sump pumps. Price based on groundwater being discharged at site into de-silting pit or basin provided by General Contractor 100' from work area. If any man-made/man-placed materials are encountered such as bricks, concrete, rip rap, pea gravel, etc., the general contractor will provide Hillside Drilling with written authorization to proceed with the work utilizing any required special tools and equipment. A daily log of labor, equipment and material will be maintained and subsequently billed at the rate of \$425.00 per drill rig hour including two men, plus costs of materials, other equipment and labor, plus appropriate markups. All standby time due to delays by others will be billed at the same hourly rate. Standby rate for drill rig left on site due to delays by others is \$1,200/day for the drill rig plus any additional equipment left on site. Back charges will only be accepted when properly documented and acknowledged on a daily basis by our authorized representative. Payments will be made within 30 days of invoice. Retention will not exceed the percentage with held by the owner. Balance of retention will be paid in full within 35 days after completion of Hillside Drilling's work.

For shafts to be drilled deeper than soil borings indicate, we have assumed that the materials to be drilled are similar to those indicated on the soil borings lowest depth explored adjacent to the drilled shaft. Conditions differing shall be considered a changed condition. Soil conditions or water table elevations that are different than those indicated in the soils report/borings shall be considered a differing site condition.

This quotation includes the following insurance coverage for HSD with the general contractor to be named as additional insured. Hillside Drilling shall only indemnify Owner and/or Prime Contractor for Hillside Drilling's proportionate fault or neglect.

- 1. Worker's compensation & Employers Liability -\$1,000,000.00 each accident, \$1,000,000.00 disease policy limit & \$1,000,000.00 disease each employee (excludes waiver of subrogation)
- 2. General Liability - \$2,000,000.00 (Excludes pollution liability, professional liability, riggers liability, builders risk and rail road insurance)
- 3. Automobile Liability Coverage - \$1,000,000.00.

This quotation is subject to acceptance within 30 days and the terms herein will be incorporated into any subsequent sub-contract agreement. In the event that legal counsel is retained to collect any sums due, HSD will be reimbursed for legal expense incurred. Should any dispute arise out of this Proposal/Agreement; the prevailing party shall be entitled to recover reasonable attorney's fees and cost.

Section 2 – Performance of Services

Article 2.1 – Suitability of Equipment and/or Services and Site Security

Client is responsible for determining the suitability of the equipment and/or services provided for this application. Client assumes all risk of loss due to their operation of equipment and/or use of services during and after the term of this rental. Client shall be responsible for any loss, damage, vandalism and theft to ATS equipment. Client shall be responsible for security for the job site and will provide “All Risks” property insurance for all rented equipment or related appurtenance for the term of the rental.

Article 2.2 – Permits and Residual Testing

ATS will assist the Client with plan and permit submittals on a time and material basis and it is quoted as an estimate only. Whether or not the scope of work and budget estimate include ATS’s providing assistance to the Owner in preparing documents, discharge identification numbers (such as Waste Discharge Identification (WDID) Number), and applications for securing permits for the project, any costs associated with permit fees (including sanitary sewer discharge fees) shall be paid directly by the owner. ATS requires that it has copies of said permits at least 10 business days prior to providing permit assistance or commencing treatment. Any third party residual testing as required by the permit is the responsibility of the Client. ATS will not discharge any treated water until appropriate permits and/or, permission documents have been secured for the subject site.

Article 2.3 – Guarantees

ATS will warrant that the real time water treatment and monitoring services that it provides under any contract or subcontract will be carried out in accordance with the associated permits for the project. Certain effluent water quality parameters specified by the permit may require third party testing. The costs for such tests are not covered by or considered a part of this contract. External influences to water quality are beyond the control of ATS and are considered the responsibility of others. If requested by Client, ATS will provide at additional cost, a formal record of all operations it performs at the project site under this contract/subcontract; such reports will delineate supporting data, which document compliance with the established water quality criteria, as well as any exceptions.

Article 2.4 – Impact of Turbidity

Client acknowledges that water treatment is most effective and efficient when the turbidity at the system inlet is less than 500 NTU, and that the effort required to achieve the discharge criteria for both turbidity and pH will be largely dependent on how Client and Client’s subcontractors control their work on the subject project.

Article 2.5 – Water Conveyance

The budget estimate for equipment is based on the assumption that all water requiring treatment will be conveyed to the associated detention basins or storage tanks by others at no expense to ATS, unless otherwise indicated in this Proposal.

Article 2.6 – Support Services

ATS provides no charge Client technical support for equipment malfunctions. Client Support for training related issues is billable in increments of six minutes at the Consulting billing rate with a minimum twelve minutes per call. (See Attachment 1 Labor Rate Sheet). ATS rental equipment includes operating instructions.

Article 2.7 – Bonding

ATS’s estimate assumes that no surety bond will be required. ATS has never been able to obtain bonding due to the nature of its non-contracting services.

Article 2.8 – Insurance

ATS’s estimate assumes that ATS’s standard insurance coverage and limits are satisfactory. If additional coverage and/or higher limits are required, additional charges will apply.

Section 3 – Financial Provisions

Article 3.1 – Suitable Site Pad

The budget estimate for mobilization assumes that the site contractor will provide a suitable pad on which the treatment equipment can be staged. Such pad must be located on firm ground capable of bearing 600 pounds per square foot; such pad must be covered with approximately 6” of 2x4-inch quarry spalls overlain by approximately 3” of 3/4-minus crushed gravel. The installation of the support pads must be coordinated with ATS’s project manager.

Article 3.12 – Generator Rental

Unless rental of an electric generator is identified in the scope of work and budget estimate, the budget estimate for equipment assumes that the contractor shall provide sufficient 480 Volt, 3-phase alternating current power to the treatment system components at no cost to ATS. If a generator is a component of the project, the Budget Estimate assumes the contractor shall maintain an adequate fuel supply. If ATS provides fuel, charges will be actual cost plus 25% markup.

Article 3.13 – Mobilization Costs

Mobilization and set-up costs are the responsibility of the Client unless they are included in the Client’s Scope of Work for ATS.

Article 3.14 – Equipment Condition

At the conclusion of the project, the Client will return the ATS equipment in the same condition as when delivered to the Client. ATS reserves the right to charge for any repairs or instrument replacements that may be necessary, including any cleaning of interior or exterior.

Article 3.15 – Impact of Layout Changes

The Budget Estimate for mobilization will be affected by the actual locations of the equipment at the site at the time the systems are set up. Parameters such as the proximity of the treatment system to the storage basin or vault and the location of the treated water discharge can affect the budget estimate.

Article 3.16 – Impact of Water Volume

Client acknowledges and agrees that volumes, durations, and frequency of any rainfall; volumes and rates of groundwater flow; interferences which may affect treatability; and other similar variables cannot be known in advance, and that the actual labor required over the course of the project may be more than, or less than, any estimate. Any negative impact of such conditions on the ability of Subcontractor to fully perform its services under this Subcontract shall not result in the waiver of Subcontractor’s entitlement to receive payment for its services rendered. Cycle charges will be based on actual hours expended for operations, maintenance, and monitoring; EXCEPT, charges for the minimum number of labor hours per cycle identified in the Budget Estimate will also apply.

Article 3.17 – Retainage

ATS’s estimate assumes that no retainage will be withheld from payments due. If retainage is required, all unit prices will be increased so that net payments remain the same as under the original price proposal without retainage; in such case the amount of retainage actually withheld will be credited back at the end of the project.

Article 3.18 – SCADA and Alarm Data Plan

ATS Standard SCADA Internet connectivity requires Verizon Data Service be available in the project site area. Other services can be accommodated at additional cost. The Basic SCADA plan is included in the ATS Control Unit or ATS Alarm Unit cycle rental. SCADA Remote Access and Control is available at additional cost based on the functionality selected.

Article 3.19 – Design Build Services

ATS charges consulting rates for design build services that do not result in the purchase or rental of equipment through ATS for a Client project. A letter of understanding defining the project must be signed by the Client and ATS before such work will commence.

Subject: Caltrans #04-1SS374, Schellville, CA - 100 GPM Dewatering/Filtration System
Attachments: Caltrans #04-1SS374 (all bidders).pdf; ATS - COLOR BOOKLET (Low Res).pdf

All Bidders,

The system proposed was selected for a mid-range application and is suitable for filtration of **Total Suspended Solids (TSS)**, or **Settable Solids (SS)** should treatment be necessary. The **Specification/Scope of Work** did not provide adequate information to determine flow (GPM) for a treatment system, if required.

This system is not suitable for chemical treatment for **Turbidity (NTU)**, or **pH** adjustment, but could easily be adapted to applications that might require: **Modified Clay (OrganoClay)**, **Granulated Activated Carbon (GAC)**, or similar media, at additional cost.

This System could be easily be converted to an **Active Treatment System** (chemical treatment), at additional cost.

Bench Scale Testing would be required to determine efficiencies for a project's specific application, which would be at additional cost.

We hope this **Rental Estimate** will be helpful in the bidding process.

Regards,

Jim Brown

SUBJECT: DISADVANTAGED BUSINESS ENTERPRISE (DBE) CERTIFICATION

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Fresno has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS Codes form of the Application Package:

NAICS Codes	Description
238990	All Other Specialty Trade Contractors

Your DBE certification applies only for the above code(s). You may review your firm's information in the California Unified Certification Program's (CUCP) DBE database which can be accessed at the CUCP website at www.californiaucp.com. Any additions and revisions must be submitted to the City of Fresno for review and approval.

In order to assure continuing DBE status, you must submit annually a No Change Declaration form (which will be sent to you), along with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the No Change Declaration, such as changes in your firm's name, business/ mailing address, ownership, management or control, or failure to meet the applicable business

NOTICE OF VERIFICATION AND CERTIFICATION

CHS Verification Order Number: 14080033

Congratulations, the Supplier Clearinghouse is pleased to inform you that in accordance with **General Order 156**, your business enterprise has successfully completed the verification process, and your company has received the following certification: **MBE**

Your company will now be recognized by the Joint Utilities as a **women and/or minority-owned business** when competing for procurements by public utilities participating in the Utility Supplier Diversity Program.

Your Certification is valid for **three years** and you are required to re-verify your company's **WMBE** status at least **30 days** prior to your expiration date. Please notify our office of any change in your address or contact information so that we can maintain your most current contact information. You must notify our office of any change in ownership and/or control of your company within **30 days** of the change. Failure to provide that notification is in violation of section **8285** of the Public Utilities Code and could render your certification status invalid.

If your company was verified and certified under the **CAV** (Comparable Agency Verification) process, your certificate status will expire on the same expiration date as that of the comparable agency except for **SBA 8a Certificates** that are valid for a **nine year** period. However, please note that the maximum verified certification period for the Supplier Clearinghouse is **three years** regardless of **any CAV** expiration date in excess of **three years**.

The Supplier Clearinghouse may request additional information or conduct an on-site visit at any time during the term of your verified certification status. The Supplier Clearinghouse may reconsider your certification status and possibly rule invalid your verified status if it is determined that the status was knowingly obtained by false, misleading and/or incorrect information. Also note that if in a formal opinion, the California Public Utilities Commission determines that the **WMBE** verification criteria under which you were deemed eligible is no longer valid, then your status may change or you may be required to comply with the change to maintain eligibility.

Thank you for participating in the Utility Supplier Diversity program. We wish you much success in your business endeavors. Feel free to contact our office if you have questions, or visit our website at:
www.thesupplierclearinghouse.com.
