Do not go with a high percentage for trucking, each truck has to be a dbe to qualify and there are not a lot in the Bay Area. Also keep in mind that if you use a dbe owned truck with an employee these jobs are prevailing wage and that driver will need to be paid as such so we use dbe owner operators and there are very few because Cal Trans does not like to certify owner operators.

2. List the names of certified DBE's and all the dates on which they were solicited to bid on this project. Include the items of work offered and the dates and methods used for following up initial solicitations to determine with certainty whether the DBE's were interested. Attach copies of solicitations, email messages, telephone records, fax confirmations, etc.:

Names of DBEs Solicited	Dates of Initial Solicitation	Follow-up Methods & Dates

On February 16th 2015, we performed a DBE search on the CUCP database and generated 418 potential DBE firms. We filtered this search down to 246 DBE firms (see attached 11x17 spreadsheet) and sent out a mass email invitation on February 16th. We recruited the services of Compliance news as part of their advertising package and they sent an additional 100 invitations to DBE firms for this project. Firms were contacted by phone, fax and email between February 23rd and March 6th to verify their intent to bid. DBE firms were also contacted by fax and email.

Follow up was an ongoing process to determine with certainty the DBE's that had been faxed and emailed who had not yet indicated their intention to bid.

Please see the attached list of firms Invited/Solicited to bid to Flatiron, including method of contact and follow up to confirm with certainty the DBE firms intent to bid to Flatiron. Emails and fax confirmations are also attached.

Section 3

3. For each item of work made available, indicate whether the bidder provided plans and specification sections specific to the items of work being offered, list the selected firm and its status as a DBE, the DBE's that provided quotes, the price quote for each firm, and the price difference for each DBE if the selected firm is not a DBE. Provide copies of each DBE and Non-DBE quote submitted to the bidder whenever a Non-DBE firm was selected over a DBE for work on the contract:

Please See Attached Spreadsheet for the following requested information:

Item(s) of Work	Provided Plans and Specs for Work Offered Y/N	Name of Selected Firm	DBE or non-DBE	Name of Rejected Firm	Quote ($)	Price Difference ($)

If the firm selected for the item is not a DBE, provide the reasons for the selection on a separate sheet and attach names, addresses and phone numbers for the firms listed above. Provide evidence as to why additional agreements could not be reached for DBE's to perform work.

Quotes are provided directly behind the Selected/Rejected Firms spreadsheet. All firms were offered access to the Caltrans Office Engineer website for plans and specs by a website link in our invitations and advertisements. We also offered to allow them to make an appointment and view plans and specs in our office. We received no requests from any firms for an appointment to meet or review plans and specs in our office.

1. Unless stipulated to the contrary, the following items of work are to be performed and paid for by others. No cost for these items is included.
   a. All field engineering, transit and level work as required by Case Pacific Company in addition to center hubs, reference points and grade stakes for concrete and steel placement at each pier and/or soldier beam location.
   b. All required soils and concrete testing and inspection including pier records, shop drawings and reports.
   c. Access includes furnishing, placing and maintaining ramps, mats, gravel or other surface materials throughout the project. Access to shafts to be provided prior to beam or cap excavation, or agreed to in writing.
   d. Removal, relocation or protection of any existing utilities, either above or below ground, which may interfere with the installation of Case Pacific Company's work. Power lines closer than legally permissible are to be removed or de-energized by others. When Case Pacific Company is requested to commence work on the referenced construction project, that request will constitute representation that all above or below ground utilities have been located and that all necessary and appropriate action has been taken to ensure that the work to be performed by Case Pacific Company can be performed safely without any threat of injury or damage to persons or property from said utilities.
   e. Furnishing, delivering and placing of any anchor bolts, dowels, column or wall steel, base plates, keys, templates or forming above or below drilling grade.

16. The work may be changed by "Field Order", "Change Order", "Extra Work Order", or otherwise authorized by the contractor/owner or his agents. Such changes may include changes in scope, method, scheduling or other performance requirements. In such event, the contract price and the completion date will be equitably adjusted. Case Pacific Company will notify contractor/owner of such changes within a reasonable time after authorization.
17. Extra work and items of work specifically excluded but performed by Case Pacific Company or delays resulting from interference or non-performance of others shall be invoiced at extra work rates or will be negotiated and included in monthly progress estimates and reimbursed according to our terms of payment.
18. The add-deduct unit price for any individual drilled pier shall apply only when the variation from plan length does not exceed 15%. Any increase/decrease in excess of such amount shall be considered a change of contract, and at our option, shall be performed on a cost basis, plus 20% for overhead and profit.
19. Payment shall be made on the 10th of each month for all work completed during the preceding month. Such payments are to include the cost of materials placed on the jobsite or in storage near the site and not incorporated in the work. Final payment, including retention, if any, shall be made within thirty-five (35) days after substantial completion of all work covered by this proposal. Retainage withheld by the Contractor from progress payments to the Subcontractor shall not exceed the percentage withheld by the Owner on his payments to the Contractor. 20. If payment is not made as provided herein and Case Pacific Company is compelled to incur attorney's fees and litigation costs to collect all or any part of the contract price or extras incurred during the course of the work, said fees and costs shall become collectible as an addition to the contract price.
21. Should any payment due us, including payment for all extra work, not be made when due, we shall have the right to stop work and to refrain from continuing work on the project until all due payments are received.
22. Case Pacific Company shall not be responsible for and is hereby released from any and all liability for liquidated, consequential or incidental damages which may be assessed under the prime contractor or otherwise.
23. The parties agree that all claims and disputes by and between them shall be submitted to mediation by a mediator mutually agreeable to the parties and if they cannot agree, a mediator appointed by the court on petition by either party therefor. The cost of such mediation shall be borne equally by the parties. The foregoing agreement to mediate shall be specifically enforceable.
24. The term "piers", as used in these Terms and Conditions, is used generically to include piers, drilled piles, drilled shaft foundations, belled piers and caissons.
25. Others are to provide continuous removal and disposal of all spoils and contaminated materials so as not to interfere with or delay the progress of Case Pacific Company's work. Should hazardous substances be encountered, the prime contractor or owner shall promptly investigate the condition and make all determinations as necessary and provide direction in writing to the subcontractors relating to handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, monitoring, cleanup, etc. Case Pacific Company shall be entitled to a time extension of any delay caused thereby, and compensation for all costs incurred as a result of encountering hazardous substances to include but not limited to the additional costs associated with performance of contract work, extra work, delays, suspension of work, handling, transportation, storage, disposition, obtaining of permits, implementation of safety measures, personal protective equipment and/or clothing, cleanup, etc., whether caused or directed by the prime contractor, owner or any government regulatory authority. *For the purposes of this paragraph "hazardous substances" is defined as any material encountered during the course of performance of this subcontract that any governmental or regulatory authority has or may determine represents a hazard or danger to the health and welfare of persons, property or the general environment.*
26. This proposal shall be made part of any contract covering this work. If contractor/owner signs this proposal, or otherwise indicates its consent, such as verbally requesting us to commence work, then this proposal will represent the entire agreement of the parties regarding performance of the work. If contractor/owner subsequently requests Case Pacific Company to sign its own form of contract, this proposal will be deemed to be part of the contract and will supersede any other conflicting terms of that contract, unless this proposal or any paragraph or part is expressly excluded by the parties.
27. A bond may be furnished if required with premium to be paid for by others prior to our mobilization.
28. This proposal offers to the contractor/owner the terms and conditions upon which Case Pacific Company will perform the work. It may be changed by Case Pacific Company at any time prior to acceptance by notice to the contractor/owner and will be deemed to be withdrawn if not accepted by the contractor/owner within thirty (30) days from the date appearing on the face hereof.

This quote has been prepared based on job requirements communicated by our customer. Unless specifically provided in the quote, the concrete has not been designed for use in special conditions, including high sulfate soils or corrosive environments, or for applications requiring the concrete to serve as a water or vapor barrier. If the specifications or site conditions require special strengths, cement types, water/cement ratios, admixtures, or other special characteristics of the concrete mix, please contact your Graniterock representative. Graniterock strongly recommends that this mix be submitted to the owner and/or project design professional to ensure compatibility with project requirements

*** For ready-mix concrete sales, this quotation is subject to a surcharge to cover potential extraordinary increases in the price of diesel fuel. The surcharge is calculated based on the average On-Highway Diesel Fuel Price for California published by the U.S. Energy Information Administration on the date closest to the first day of the month during which concrete deliveries are made ("Monthly Average Price"). Surcharges will apply only in the event the Monthly Average Price exceeds five dollars ($5.00) per gallon. A surcharge of ($5.00) per load of concrete delivered during the month will be added to the quoted price for every fifty cents ($.50) that the Monthly Average Price exceeds $5.00 per gallon. For example, if the Monthly Average Price is $5.01 per gallon, a surcharge of $5.00 per load delivered during that month will apply; if the Monthly Average Price is $5.51 per gallon, a surcharge of $10.00 per load delivered during that month will apply, etc.

This quote has been prepared based on job requirements communicated by our customer. Unless specifically provided in the quote, the concrete has not been designed for use in special conditions, including high sulfate soils or corrosive environments, or for applications requiring the concrete to serve as a water or vapor barrier. If the specifications or site conditions require special strengths, cement types, water/cement ratios, admixtures, or other special characteristics of the concrete mix, please contact your Graniterock representative. Graniterock strongly recommends that this mix be submitted to the owner and/or project design professional to ensure compatibility with project requirements

*** For ready-mix concrete sales, this quotation is subject to a surcharge to cover potential extraordinary increases in the price of diesel fuel. The surcharge is calculated based on the average On-Highway Diesel Fuel Price for California published by the U.S. Energy Information Administration on the date closest to the first day of the month during which concrete deliveries are made ("Monthly Average Price"). Surcharges will apply only in the event the Monthly Average Price exceeds five dollars ($5.00) per gallon. A surcharge of ($5.00) per load of concrete delivered during the month will be added to the quoted price for every fifty cents ($.50) that the Monthly Average Price exceeds $5.00 per gallon. For example, if the Monthly Average Price is $5.01 per gallon, a surcharge of $5.00 per load delivered during that month will apply; if the Monthly Average Price is $5.51 per gallon, a surcharge of $10.00 per load delivered during that month will apply, etc.

Do not go with a high percentage for trucking, each truck has to be a dbe to qualify and there are not a lot in the Bay Area. Also keep in mind that if you use a dbe owned truck with an employee these jobs are prevailing wage and that driver will need to be paid as such so we use dbe owner operators and there are very few because Cal Trans does not like to certify owner operators.

8. List the names of agencies and the dates on which they were contacted to provide assistance in contacting, recruiting, and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.

On February 16th, 2015 Flatiron searched the Caltrans CUCP database to locate potential DBE firms to participate in the bidding process with us on this project. We sent out email invitations to 246 DBE firms from that search. We advertised in the following publications (Listed Below) as outreach requesting DBE quotes to obtain additional participation. We posted an ad seeking quotes from subs and suppliers on the Caltrans website and also Opted in seeking quotes from potential DBE firms. We solicited the assistance of some Bay Area local Chambers of Commerce to post or distribute our Invitation to Bid for this project. Compliance news extended an invitation by fax to an additional 100 DBE firms as part of our advertisement package for this project.
