TRACY CA 95391
408-687-6709
Certified DBE # 41924
Approx 17% participation
Dir1000019894

Participation is estimated based on the fact that **Cal trans/Dot 49cfr** requires that the working truck itself be owned by a certified minority. It is difficult to get certified so this is tough to accomplish. By working with 2 firms it helps to bump participation. Each firm needs to be listed separately.

ATTN: ESTIMATING FROM: SUSAN JONES * JESUS AMEZCUA JR.

HWY 84 LIVERMORE 6-17-15 DOUBLE BOTTOMS

It is questionable as to where the trucks will be turning around on various days. In several places they would need help with traffic control in order to turn around. The bid is based on having this help. The AC paving loop times have a small allowance for traffic, turn around, and minor delays at jobsite included as well as load time. The baserock haul rates are based on help with turn-around at each delivery location. The areas are wide enough it's just the traffic.

Vulcan Rock: $ 4.22
AC: Hourly, 77 min loop est. 5.30
Dirt: 47 min est if dumping near the side gate

CeMex Rock: 3.22
Dirt 50 min

Granite AC 57 min 3.92

Hanson AC 85 min 5.85

Sunol Agg 88 min 6.05

$1.72/MIN or $103/HR

Bid is a package to perform 100% of all sbe, dbe & non dbe trucking unless otherwise agreed to. Dirt must be clean, tested properly, free of debris, compactible, and to have a production rate that warrants a crew. Quoted in Double Bottoms unless otherwise noted. Dirt is quoted with a combo of Dbl Btms & Smi Btms. **Tonnage/load rates are only valid with stand-by paid in full on both ends** (except our sites) after 10 min. @ hrly rate. All other trucking is hourly at the following rates: Weekdays: Trfers, Semi Ends/Semi or Dbl Btms:$ 103.00 10 Wheelers: $ 95.00 Super Dumps: $ 105.00 Trucks are a 6 hr min. Flatbeds: $ 105.00, 7 hr min. Add $ 5.00 per hour for union trucks. Add $ 5.00 per hr for Sat $ 10.00 hr for Sun. Excessive backing is not provided for with dirt load rate. All rates are valid through **12-31-16**. At that time they will be subject to a 5% increase and an additional 5% each year thereafter. Fuel surcharges: If fuel increases by $ .25 per gal.2% shall be added. For every .25 increase in fuel, an add'l 2% shall apply. **OGAC, rubber, wet ctb is Hourly with clean out of 1 hr** added. **Night work is a 7 hr min**. Solution needs to be provided at hot plant. Continued

Rates are based on timely payment **Please know that all trucks are required to be in compliance with EPA as of this date and it is the legal responsibility of those that hire them to make sure of this.**
Tarping and prevailing wage is included.

Participation is estimated based on the fact that **Cal trans/Dot 49cfr** requires that the working truck itself be owned by a certified minority. It is difficult to get certified so this is tough to accomplish. By working with 2 firms it helps to bump participation. Each firm needs to be listed separately.

ATTN: ESTIMATING FROM: SUSAN JONES * JESUS AMEZCUA JR.

HWY 84 LIVERMORE 6-17-15 DOUBLE BOTTOMS

It is questionable as to where the trucks will be turning around on various days. In several places they would need help with traffic control in order to turn around. The bid is based on having this help. The AC paving loop times have a small allowance for traffic, turn around, and minor delays at jobsite included as well as load time. The baserock haul rates are based on help with turn-around at each delivery location. The areas are wide enough it's just the traffic.

Vulcan Rock: $ 4.22
AC: Hourly, 77 min loop est. 5.30
Dirt: 47 min est if dumping near the side gate

CeMex Rock: 3.22
Dirt 50 min

Granite AC 57 min 3.92

Hanson AC 85 min 5.85

Sunol Agg 88 min 6.05

$1.72/MIN OR $103/HR

Bid is a package to perform 100% of all sbe, dbe & non dbe trucking unless otherwise agreed to. Dirt must be clean, tested properly, free of debris, compactible, and to have a production rate that warrants a crew. Quoted in Double Bottoms unless otherwise noted. Dirt is quoted with a combo of Dbl Btms & Smi Btms. **Tonnage/load rates are only valid with stand-by paid in full on both ends** (except our sites) after 10 min. @ hrly rate. All other trucking is hourly at the following rates: Weekdays: Trfers, Semi Ends/Semi or Dbl Btms:$ 103.00 10 Wheelers: $ 95.00 Super Dumps: $ 105.00 Trucks are a 6 hr min. Flatbeds: $ 105.00, 7 hr min. Add $ 5.00 per hour for union trucks. Add $ 5.00 per hr for Sat $ 10.00 hr for Sun. Excessive backing is not provided for with dirt load rate. All rates are valid through **12-31-16**. At that time they will be subject to a 5% increase and an additional 5% each year thereafter. Fuel surcharges: If fuel increases by $ .25 per gal.2% shall be added. For every .25 increase in fuel, an add'l 2% shall apply. **OGAC, rubber, wet ctb is Hourly with clean out of 1 hr** added. **Night work is a 7 hr min**. Solution needs to be provided at hot plant. Continued

Rates are based on timely payment **Please know that all trucks are required to be in compliance with EPA as of this date and it is the legal responsibility of those that hire them to make sure of this.** Tarping and prevailing wage is included.

Firm Number: 41924

Dear Jesus Amezcua Jr.:

I am pleased to advise you that after careful review of your application and supporting documentation, the California Department of Transportation (Caltrans) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation's Code of Federal Regulation (CFR) 49, Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under these specific areas of your expertise and license identified following a comprehensive review of your firm:

NAICS Category Codes	Description
484110	General Freight Trucking, Local
484220	Specialized Freight Trucking, Local

Work Category Codes	Description
C9607	End Dump Trucking
C9774	Trucker

Your DBE certification is recognized solely for the above codes. You may review your firm's information in the CUCP DBE Database, which can be accessed at Caltrans' Web site at http://www.dot.ca.gov/hq/bep/. Any additions and revisions must be submitted to Caltrans for review and approval.

In order to assure continuing DBE status, you must annually submit a No Change Declaration Form (which will be sent to you) along with supporting documentation. Based on your annual submission – that no change in ownership and control has occurred – or if changes have occurred, they do not affect your firm's DBE standing. The DBE certification of your firm will continue until or unless it is removed by Caltrans.

Firm Number: 41924

Also, should any changes occur that could affect your certification status prior to receipt of the No Change Declaration Form, such as changes in your firm's name, business/mailing address, ownership, management or control, or failure to meet the applicable business-size standards or personal net worth standard, please notify us immediately. Failure to submit forms and/or change of information will be deemed a failure to cooperate under Section 26.109 of the Regulations.

Caltrans reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records, and documents by Caltrans.

For information on Department contracting opportunities, please visit our website at http://www.dot.ca.gov/hq/esc/oe/.

Congratulations, and thank you for your continued interest in participating in the DBE Program. I wish you every business success.

Sincerely,

JANICE SALAIS

Portland cement concrete grinding is excluded from this quotation unless specifically quoted.

Removal of Asphalt Concrete over gutter damages can't be guaranteed by ABSL.

ABSL Construction will cold plane as close as possible to existing manholes, water valves, and other obstructions in cutting plane. Handwork and placing temporary asphalt tapers around these objects or at pavement edge for safety requirements are excluded.

Contractor to post streets with "No Parking" signs prior to subcontractor's phase of work, provide water or water meter and provide traffic control during cold planing operation.

All areas to be ground shall be clearly marked by the general or the job inspector.

A minimum of two weeks notice is requested prior to move in.

Anything not specifically included in this price should be considered excluded.

ABSL Construction does not accept backcharges due to machine breakdown during operation above the machine's daily rental fee.

Back charges will only be based on the time the machine is broken and will reflect the cost of the equipment for that time. All others costs due to the equipment breakdown will not be charged to ABSL Construction.

All teeth over one complete set will be charge to the contractor.

ABSL does not accept force account rates or retention.

This quotation will be part of our contract or purchase order agreement and is valid till a new change of the rates.

If you have any questions regarding the above quote please call me at (510) 727-0900 or fax at (510) 727-0912.

Sincerely,

Daryl Vorne

GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $425.00 per hour.
9) Downtime for equipment becoming stuck in wet or muddy sub-grade conditions will be charged at a stand-by time rate until removed. Additional equipment required for removal will be charged at a time and materials basis.
10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.
15) Unless otherwise agreed to in writing prior to start of work, payment is due and payable within 30 days of billing, and no retention to be withheld on payments.
16) All utilities within mill grade are to be located and marked by customer. It is the sole responsibility of the lessee or renter (customer) to follow the requirements of the regional notification center law pursuant to Article 2 (Commencing with Section 4216) of Chapter 3.1 of Division 5 of Title 1 of the California Government Code. Customer assumes sole responsibility for, and all subsequent liabilities coincident with following the requirements of the regional notification center law. Furthermore, customer agrees to be responsible for all damage to both utilities themselves and to our company's equipment by reason of ABSL equipment encountering unmarked utilities.
17) Items not specifically included are considered to be excluded. If you have any questions please call.

Thank You,

Daryl Verne

Hi Annette -
I can throw the updated ad into today's California Bid Bulletin (a weekly) and in Monday's MWDVBE Weekly.
If you want, I can also throw it into today's daily (Calif. Bid Register) as well.
Here is the cost breakdown:
Calif. Bid Bulletin & MWDVBE Weekly = $128. ($68. per publication with $8. discount for using both weekly pubs)
Calif. Bid Register (Daily) = $90.
Total for all 3 = $218.
Let me know what you think.
Thanks,
Ric

Hi Ric, and happy Friday!

This Caltrans job had a change of bid date. I'd like to place the attached update in all of your publications (or at least all the ones I can given the late notice). Can you let me know what my options are?

Thanks so much!

Annette

Hi Annette -
I can fit this in, no problem.
Usually an ad this size would cost a lot more,
but since you guys are such great customers I'm just going to charge $68.
:)
Let me know if you would like any changes.
Thanks,
Ric

Hi Ric,

See attached ad copy. I know it's really long, but it's a big job. Can you send over a proof if you are able to fit this into your publications? I can see about consolidating scopes if it's impossible!

Thank you,
