David- The Oil buy is $578.55/ton and the Haul is $24/ton. In terms of DBE credits, you can take 60% of the buy, and 100% of the haul. As a frame of reference in order to calculate how much oil you will need to buy and haul to purchase 32,850 tons, each truck load of Asphalt Oil will produce approx. 500 tons of Asphalt. A truck load of oil is approx. 25 tons.

≈ 1,642 TONS OF PG 64-10 (1,642)($578.55)(0.6) = $569,987
(1,642)($ 24) = $39,408
DBE PARTICIPATION = $609,395

Thanks, Scott

Hello David,

Yes, we will quote on it for SWPPP, REAP, Annual Reports and Weekly inspections. However, It is too far away for us to perform the sampling and analysis days and pre, during and post storm visual inspection. Since your staffs is onsite during rainy days, could they perform this tasks? We can train them.

Thanks,

David,

We don't offer tree removal services.

Our 40Y roll off bins would be good options for green waste and debris.

I can provide some unit rates for you.

Bin deliveries - $450/trip (1-2 bins can be delivered per trip)

Bin rental (each) - $10/day

Bin Transporation to Hay Road Landfill - $550/trip (1-2 bins per trip)

Dump fees - $20/yard for green waste/debris

Additional terms and conditions apply - see attached (pending receipt on Monday).

Jane,

Please furnish RGW with our terms and conditions Monday.

There is some tree removal involved. Caltrans has not provided the quantity so it would have to be quantified. Do you perform top to bottom tree removal service? If you don't, we would request pricing for green waste & debris dump fees.

David-

Are you simply looking for hauling and dump fees for greenwaste and debris? If so, I can easily quote with estimated volumes.

As for the trucking, I am sure that this is already on our list of bids.

Jane - please confirm.

We don't do rebar. We do steel fabrication, welding and erection. Our scope with Caltrans is mostly tubular railing, bicycle railing,cable railing, welding of cans, re-fabrication of field steel. Please keep us in mind for future projects.

David,

We don't offer tree removal services.

Our 40Y roll off bins would be good options for green waste and debris.

I can provide some unit rates for you.

Bin deliveries - $450/trip (1-2 bins can be delivered per trip)

Bin rental (each) - $10/day

Bin Transporation to Hay Road Landfill - $550/trip (1-2 bins per trip)

Dump fees - $20/yard for green waste/debris

ɔdditional terms and conditions apply - see attached (pending receipt on Monday).

Jane,

Please furnish RGW with our terms and conditions Monday.

There is some tree removal involved. Caltrans has not provided the quantity so it would have to be quantified. Do you form top to bottom tree removal service? If you don't, we would request pricing for green waste & debris dump fees.

David-

Are you simply looking for hauling and dump fees for greenwaste and debris? If so, I can easily quote with estimated volumes.

As for the trucking, I am sure that this is already on our list of bids.

Jane - please confirm.

Southwestern Fire Suppression and Construction
Mission Statement

Southwestern Fire Suppression and Construction manages fleets of NFPA standard firefighting water tenders in support of wild land firefighting crews from various agencies in the southwestern United States as well as managing fleets of water trucks in support of construction projects throughout California. Currently Southwestern Fire Suppression and Construction is based in Corona, CA.

Founded recently through a vision from three former firefighters (one of whom is a disabled veteran) with a combined experience of over 40 years in the fire industry who saw a need and have a drive to provide extremely high quality equipment and personnel to support wild land firefighting crews while those crews risk their life to protect natural lands and homes from the destructive power of fire. Southwestern Fire Suppression and Construction is breaking new ground in the industry by supplying crews that are trained and certified as well as equipment that meets or exceeds the NFPA standard. The training and equipment that we utilities allows our crews to work safely and seamlessly with crews from firefighting agencies throughout our region.

Southwestern Fire Suppression and Construction's quality is a direct result of the employees' drive to provide the very best service throughout the industry. The reputation of honesty and quality that Southwestern Fire Suppression and Construction has achieved is a result of the things we value most. Safety, honesty, quality and excellence. David with the information I have I could do $8.65 per ton and that includes the dumping fees to the nearest site ,Concrush. That would be for the off haul of the roadway material. The import of the rock I cannot bid yet as I do not know where you would be getting the material from. So I hope this helps.

Thanks
