FORMER CCR REGISTRANTS

If you had an active record in CCR, you have an active record in SAM. You do not need to do anything in SAM at this time, unless a change in your business circumstances requires updates to your Entity record(s) in order for you to be paid or to receive an award or you need to renew your Entity(s) prior to its expiration. SAM will send notifications to the registered user via email 60, 30, and 15 days prior to expiration of the Entity. To update or renew your Entity records(s) in SAM you will need to create a SAM User Account and link it to your migrated Entity records. You do not need a user account to search for registered entities in SAM by typing the DUNS number or business name into the search box.

What is the CUCP?

The California Unified Certification Program (CUCP) provides "one-stop shopping" certification services to small, minority and women businesses seeking to participate in the United States Department of Transportation (USDOT) Disadvantaged Business Enterprise (DBE) Program. Certification services are offered to businesses seeking to obtain either DBE or airport concessionaire disadvantaged business enterprise (ACDBE) status.

As mandated by USDOT in the DBE Program, Final Rule 49 Code of Federal Regulations (CFR), Parts 23 and 26, all public agencies that receive USDOT federal financial assistance must participate in a statewide unified certification program. These public agencies, commonly referred to as "recipients" of USDOT funds, include municipalities, counties, special districts, airports, transit agencies, and the State Department of Transportation (Caltrans).

The California Unified Certification Program (CUCP) went into effect on January 1, 2002. It is a "One-Stop Shopping" certification program that eliminates the need for a DBE or ACDBE firm to obtain certifications from multiple agencies within the State. A business certified as a DBE or ACDBE through the CUCP is automatically accepted by all USDOT recipients in California.

The CUCP is charged with the responsibility of overseeing the certification activities performed by various certifying agencies, and compiling and maintaining a single Statewide database of certified DBEs. The Database is intended to expand the use of DBE and ACDBE firms by maintaining complete and current information on those businesses and the products and services they can provide to all USDOT recipients in California. Select the "Database" link on the top to access the Statewide database.

The CUCP certifying agencies are responsible for certifying DBE firms. You only need to apply for DBE certification at one agency. If your firm meets the General Criteria for DBE certification as provided on the Application Package, submit your completed application, along with the requested documentation, to one of the Certifying Agencies serving the geographical area where your firm has its principal place of business.

IMPORTANT NOTE ABOUT DISCONTINUANCE OF DBE CERTIFICATES

Please note that effective **August 1, 2013**, the California UCP (including Caltrans) is no longer issuing DBE Certificates as evidence of certification. A copy of a printout from the DBE Database should be sufficient proof of a firm's certification. Prime contractors and awarding agencies should not impose on DBE firms the burden of providing a DBE certificate in their bid packages - it is not required.

MBDA Business Centers

Minority-owned firms seeking to penetrate new markets — domestic & global — and growing in size and scale, can access business experts at a MBDA Business Center. Whether it's securing capital, competing for a contract, identifying a strategic partner or becoming export-ready, your success is our priority.

The Centers are located in areas with the largest concentration of minority populations and the largest number of minority businesses. The Centers are staffed by business specialists who have the knowledge and practical experience needed to run successful and profitable businesses. Business referral services are provided free of charge. However, the network generally charges nominal fees for specific management and technical assistance services.
