#### NOTICE TO OWNER

Under the California Mechanics' Lien Law, any contractor, subcontractor, laborer, supplier or other person or entity who helps to improve your property, but is not paid for his or her work or supplies, has a right to place a lien on your home, land, or property where the work was performed and to sue you in court to obtain payment. This means that after a court hearing, your home, land and property could be sold by a court officer and the proceeds of the sale used to satisfy what you owe. This can happen even if you have paid your contractor in full if the contractor's subcontractors, laborers or suppliers remain unpaid.

To preserve their rights to file a claim or lien against your property, certain claimants such as subcontractors or materials suppliers are each required to provide you with a document called a "Preliminary Notice." Contractors and laborers who contract with owners directly do not have to provide such notice since you are aware of their existence as an owner. A preliminary notice is not a lien against your property if you are not paid. It's purpose is to notify you of persons or entities that may have a right to file a lien against your property if they are not paid. In order to protect their lien rights, a contractor, subcontractor, supplier or laborer must file a mechanics' lien with the county recorder which then becomes a recorded lien against your property. Generally, the maximum time allowed for filing a mechanics' lien against your property is 90 days after substantial completion of your project.

DBE Commitment and Good Faith Effort Documentation

Ladies and Gentlemen:

Enclosed is Granite Construction Company's (Granite) DBE Commitment and Good Faith Effort Documentation as required by the Project Special Provisions. Directly behind this letter you will find the DBE information showing Granite's participation for the above referenced project.

Granite has achieved 6.9% of DBE participation for this project as outlined in the attached DBE Commitment Form, which exceeds the DBE goal for this project. The attached Good Faith Effort (GFE) documents our efforts to achieve this goal. Some highlights of our efforts to achieve DBE participation on this project include:

1. We made nearly 84% of all work on the project available to DBEs as shown in Tab 1 of our GFE.
2. We selected several subcontractors and vendors who were not the low bidders for the sole purpose of achieving the DBE goal as shown in Tab 3 of our GFE.

Upon award of this project, Granite will continue our efforts to achieve DBE participation over the course of the project. We have a proven track record of consistently meeting or exceeding our DBE commitments during the construction of our projects.
