PRE-CON PRODUCTS TERMS AND CONDITIONS

1. **Purchase Price.** The Purchase Price specified on the face of this invoice is and shall be considered a lump sum price for the sale and/or installation of the Products based upon the aggregate price of the items and material components of the Purchase Price including installation charges, if any, as have been separately stated.
2. **Payment.** Payment in full of the Purchase Price, including transportation costs, shall be due thirty (30) days after delivery. Interest at the rate of eighteen percent (18%) per annum shall accrue on the unpaid balance, and any other charges or expenses payable by Buyer, from the due date until paid in full. Seller reserves the right to withhold release of further deliveries if timely payment in full has not been received.
3. **Price Change.** The Purchase Price is binding on the Seller only for the period indicated, and prices are subject to change without notice. The possession of price sheets or catalogs by any person should not be construed as a binding offer to sell by Seller. Price changes made by Seller shall apply to all materials covered by this contract and delivered after date period, provided that delivery is not delayed due to any fault of the Seller.
4. **Delivery.** Seller will deliver the Products to the job site, and if requested in writing by Buyer, Seller shall install, test and affix the Products to their final location using Seller's trucks, trailers and personnel. The unloading, placement and installation of the Products shall be the sole responsibility of Seller based upon the reasonable directions and requirements of Buyer, unless otherwise agreed in writing. Buyer shall provide any material suitable access roads to the delivery site and protect utility or adjacent structures.
5. **Installation.** In the event Seller is required to install the Products pursuant to Buyer's request, Seller shall further furnish all tools, equipment, labor, materials, structures and accessories which may be required or necessary to properly install and affix to the job site all of the Products. Seller makes no representation or guarantee, nor assumes any responsibility regarding the proper location, alignment, depth, etc. bedding, supports, physical requirements, base, backfill, compaction or any other condition affecting the placement or installation of the Products specified by Buyer, whose responsibilities are exclusively borne by Buyer. Seller assumes no responsibility for water infiltration into any Product placed into any excavation.
6. **Security.** Seller shall be deemed a construction contractor for all purposes if Seller is required to install and affix the Products according to the plans and specifications of Buyer. Buyer's payment of the Purchase Price shall not be reduced or subject to any offset, retention, back charge or other claim by reason of any item or condition contained herein.
7. **Title.** Seller shall retain title to all Products until the full Purchase Price has been paid and, if Seller is responsible for the installation of the Products, until the Products have been erected, incorporated in an enclosure or their final position by Seller.
8. **Sales Tax.** The Purchase Price of the Products is based upon the assumption that Seller shall install and affix the Products, provided that in the event Buyer does not elect or contract with Seller to install the Products, then Buyer shall be further liable and responsible for the payment of all sales or use tax compliance on the gross purchase price of the Products.
9. **Warranties.** Seller only warrants that the Products shall conform to the specification thereof and shall be free from defects in labor and materials for a period of one (1) year from date of delivery. If the Products are found to be defective then upon written notice and after the return of the Products to Buyer's expense to Seller's business premises, Seller shall replace the Product with a duplicate Product free from defect without charge, but without further expense to Seller. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, AND SELLER HEREBY EXPRESSLY DISCLAIMS ALL OTHER IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE OR PURPOSE, EXCEPT FOR THE REPLACEMENT OF ANY DEFECTIVE PRODUCTS AS SET FORTH ABOVE. SELLER SHALL NOT BE LIABLE OR RESPONSIBLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSSES, EXPENSES OR LITIGATION SUFFERED BY BUYER, INCLUDING ANY CLAIMS ON ALLICED DELAY DAMAGES, REPUTATIONAL DAMAGE OR DAMAGES BY DEFECTIVE PRODUCTS SUPPLIED BY SELLER, PROVIDED THAT SUCH PRODUCTS ARE NOT DEFECTIVE. Seller's warranty shall not apply to any Products not supplied by Seller.
10. **Inspections.** Buyer shall inspect the Products for any broken, chipped or other visible defect or deficiency prior to unloading the same and Seller shall have no liability for any such deficiencies unless Buyer provides written notice to Seller on the shipping/delivery copy upon unloading Buyer's receipt of the same. All other inspections of the Products shall be made by Buyer within two (2) days from Seller's delivery of the products to the job site, at Buyer's sole cost and expense, for correct size, type, depth and quality consistent with allowable tolerances and variations consistent with local trade practices. Unless written notice of rejection is timely received by Seller, it is conclusively deemed that the Products meet with the Buyer's purchase requirements and are complete in accordance with the description of the Products.
11. **Returns.** Products shall not be returned by the Buyer without prior written acceptance by the Seller. The amount of credit to be given, if any, shall be determined by the Seller after inspection of the Products upon return to Seller's business premises.
12. **Quantity.** If on the Buyer requires a quantity in total quantity of the Products ordered of more than ten percent (10%) for any category of Products listed. Seller may at its option increase the unit price of the Products a reasonable amount to offset the reduction in quantity.
13. **Scheduling.** Seller's delivery of the Products is based on its present estimate of the time required to ship after receipt of Buyer's order. ACCEPTANCE BY BUYER OF ANY PRODUCTS WITHOUT WRITTEN OBJECTION SHALL CONSTITUTE A WAIVER BY BUYER OF ANY CLAIM FOR ACTUAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ON ACCOUNT OF ANY DELAY IN DELIVERY OF SUCH PRODUCTS.
14. **Ordering Odd Lengths.** The Purchase Price is based upon furnishing not over two percent (2%) of total Products sold having standard "cut-to" lengths, unless otherwise agreed in writing or the reverse is true. An additional charge will be made for any excess in such percentages. All pipe and Products will be billed at nominal lengths (4' or 6') and no allowance shall be changeable for shortage due to bevelling.
15. **Default.** Upon any default by Buyer under this contract, Seller, at its option, may cancel the unutilized portion of this contract, and the full Purchase Price for all Products manufactured by Seller for Buyer under this contract, whether or not delivered to the job site, shall, as Seller's sole option, become immediately due and payable. The amount by Seller of any of its rights under this contract shall not be Seller's own existing or other rights or remedies under the applicable law except the property where the Products are placed or installed. In the event of default in payment, in any other breach, Seller may retain possession of the Products wherever they may be found, and may resell the same without notice to Buyer, applying the amount so received to the balance due. Seller may at any time exercise all rights and remedies available to Seller in accordance with California law.
16. **Sale Contract.** This contract is subject to acceptance only on its terms and conditions as set in this offer. This contract shall not be subject to modification except by an agreement in writing signed by both parties. Any additional or different terms and conditions proposed by Buyer, either before or after this offer, are hereby rejected.
17. **Force Majeure.** The Seller shall not be liable for delays or other failure to perform because of any delays in manufacture or delivery due to unforeseeable causes beyond the control and without the fault or negligence of the Seller, including, but not limited to, acts of God or of the public enemy, acts of the Government or its department or instrumental capacity, fire, floods, epidemics, quarantine restrictions, strikes, excessive tariffs, major equipment or transportation failure, delays or curbs of third parties, freight embargoes, unusually severe weather or delays of subcontractors or suppliers due to any causes and non availability of materials. All claims for delay in delivery of the Products shall be deemed waived unless presented in writing concurrently with acceptance of the Products. Delays in delivery, for whatever reason, shall not be cause of cancellation of this contract by Buyer. The parties hereto acknowledge that the amount of damages suffered or incurred by Buyer as a result of any delay in the delivery of Products which is caused by Seller's neglect or default shall be incapable of accurate measurement and that the parties hereto agree that Seller shall solely be liable to Buyer in such event if an amount equal to Fifty Dollars (\$50) per day of delay which amount shall constitute the sole and exclusive measurement of damages suffered by Buyer due to any such delay damages.
18. **Bid Jobs.** Or bid jobs. This contract shall be binding on its parties only (a) for deliveries within sixty (60) days from the date on this contract and (b) if Buyer is awarded other than a general or subcontract contract for the use of the Products.
19. **Taxes Not Included.** The Purchase Price is exclusive of all state or local sales or use taxes and all other taxes of any governmental or public agency, applicable to the order unless specifically included.
20. **Indemnification.** Buyer expressly agrees to indemnify, defend and hold Seller harmless from and against all claims, damages, losses, expenses, costs, including reasonable attorney's fees, liabilities, suits or judgments of any kind or nature, arising out of, in connection with, or resulting from death or injury to persons and loss, damage or injury to property, caused or due directly or indirectly to the sale, delivery, installation, storage or use of the Products being provided to Buyer. Buyer further agrees to erect sufficient protective and warning devices at the time the Products are placed on the job site.
21. **No Assignment.** Buyer shall not assign this contract or any interest therein, without Seller's prior written consent.
22. **Risk of Loss.** Risk of damage or loss of the Products at all times to the Buyer upon the transfer of title. Therefore, Buyer shall be responsible for compliance of all governmental regulations and ordinances not related to storage or placement of the Products.
23. **Attorney Fees.** In the event of any litigation, action or proceeding is commenced in connection with this contract, the prevailing party therein shall be entitled to recover its reasonable attorney's fee and court costs.
24. **Storage.** In the event Buyer does not accept delivery of the Products in accordance with the delivery schedule agreed upon between the Seller and Buyer, Seller will store the undelivered Products on its business premises for a period of thirty (30) calendar days after the scheduled delivery date; provided that Seller will charge Buyer an amount equal to one and one-half percent (1.5%) for each month, or any portion thereof, of the Purchase Price for the undelivered Products from the scheduled delivery date, payable monthly, and continuing until delivery of the Products or the termination of this contract whichever shall last occur. Seller shall have the right to cancel this contract, retain any deposits or prepayments, and recover the remaining balance of the full Purchase Price of any undelivered Products, plus interest thereon at the rate of one and one-half percent (1.5%) per month until paid in full, if Buyer shall not accept delivery, or any reason whatsoever, within ninety (90) days from the scheduled delivery date.
25. **Disclaimer of Plans.** Buyer hereby acknowledges that in the event the Seller has provided any layouts, schematics, drawings or other plans to Buyer in connection with the placement, location or installation of the Products, any such plans were prepared solely for the benefit of Buyer and Seller hereby disclaims, and shall expressly not be liable or responsible for, any loss, damage, expense or other injury suffered by Buyer, or claimed to be suffered or incurred by Buyer, with respect to or arising out of Buyer's use of such plans. Buyer shall solely be responsible for determining the number, length, configuration, layout, installation, dimensions and all other design parameters affecting the installation of the Products provided by Seller.

Pre- and Post Construction Survey Work Plan

Scope of Anticipated Work

MORGNER is proposing the following Pre- and Post Construction Survey work plan, section 14-8.03A General and 14-8.03B Submittals, which is embedded in the Vibration Monitoring section 14-8.03. This proposal includes 8 distinct tasks (PC0001/PC0005) Commercial/Industrial/Other Exterior and Interior Building Inspection, (PC0002/PC0006) Preconstruction Access Arrangements, (PC0003/PC0007) Submittals / Work Plans / Deliverables

PC0001/PC0005) Commercial/Industrial/Other Exterior Building Inspection

Morgner will conduct a pre and post construction survey of each building within a 150' radius of all pile driving activities using videography and photographs to document existing cracks and other architectural or structural problems or deficiencies. These buildings are identified in **Figure 1** and **Figure 2**. Red circles indicate 150-foot radius of proposed location on pile driving activities.

PC0002/PC0006) Preconstruction Access Arrangements

Morgner will send out notification letters to property owners to secure access to the properties and make a concerted effort to make contact with each property owner via email, phone and/or in person to detail the need to access the property for the pre and post construction survey.

PC0003/PC0007) Submittals / Work Plans / Deliverables

All surveys will be conducted 15 days before pile driving and all post construction surveys will be conducted within 5 days from completion of pile driving activities.

Outreach and Coordination

MORGNER has extensive experience reaching out to stakeholders to secure access to the properties. This effort requires an understanding of working with the City's project managers and outreach team as well as the Contractor. Each notification letter is produced with the owner's information and mailing address. We use title and additional data to secure the owner's name and contact information (many owners do not dwell within the subject property). These letters are submitted to the Contractor and City for approval prior to transmittal to property owners.

All appointments secured are noted on a cloud based calendar that is shared with the Contractor and the City for informational and coordination purposes.

Inspection

MORGNER will perform an extensive survey of all visible defects of the properties. Special notes will be taken to catalogue all observations for the purpose of protecting all properties located along the areas of construction and within a radius of 150 feet of all pile driving activities.

Photo and Video Survey will be documented using our digital cameras which include a lens capable of capturing a minimum resolution of 3264 x 2448 pixels or eight megapixels. Once the survey is completed the data is compiled and a report is generated on a color laser printer capable of printing 1200 x 1200 dots per inch (dpi), or a professional graphics color inkjet printer capable of printing 1440 x 720 dpi. All reports and digital prints are printed on photo quality glossy heavy weight paper or as specified by the Engineer. Our Video Surveys as specified contain full narration along with the video recording dictating location, time and date of the scene being recorded.

Assumptions:

- Project will require 3 units for a total of 1 year at various locations throughout the project. 3 vibration units will be deployed for the project and will be used at various locations to monitor buildings that fall within 150' of the pile driving activities.
- A qualified vibration instrumentation engineer will prepare the vibration monitoring plan and supervise the initial mobilization and installation of the vibration units.
- Weekly service calls are estimated based on average use. Should battery usage exceed average battery consumption and require additional battery replacements within the same week, an additional service call will be charged at the same rate.
- **The long term lease of each monitoring unit covers the cost of deployment and use of a monitoring unit. No additional costs will be incurred for the additional leasing months of the unit should the project exceed 1 year with the exception of on-going monthly service fees for broadband data, system maintenance, service calls, and weekly reports.**
- Amendments to the vibration monitoring plan will be prepared by the acoustic engineer at a rate of \$150/hour.

RE: Disadvantaged Business Enterprise Certification

Dear Ms. Morgner:

We are pleased to advise you that after careful review of your application and supporting documentation, the Los Angeles County Metropolitan Transportation Authority (Metro) has determined that your firm meets the eligibility standards to be certified as a Disadvantaged Business Enterprise (DBE) as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended. This certification will be recognized by all of the U.S. DOT recipients in California. Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs under the following specific areas of expertise that you have identified on the NAICS codes form of the application package:

<u>NAICS (2007)</u>	<u>Description</u>	<u>Size Standard</u>
541611	Administrative Management & General Management Consulting Services	\$14 million
541720	Research & Development in the Social Sciences & Humanities	\$19 million
237110	Water & Sewer Line & Related Structures (Construction Management Only)	\$22.41 million
237310	Highway, Bridge & Street Construction (Construction Management Only)	\$22.41 million

Your DBE certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the CUCP website at www.californiaucp.com. Any additions and revisions must be submitted to Metro for review and approval.

In order to assure continuing DBE status, you must submit annually a No Change Declaration form (which will be sent to you) with supporting documentation. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the DBE Declaration, such as changes in your firm's name, business/mailling address, ownership, management or control, or failure to meet the applicable business size standards or personal net worth standard, please notify Metro immediately.

Metro reserves the right to withdraw this certification if at any time it is determined that it was knowingly obtained by false, misleading, or incorrect information. Your DBE certification is subject to review at any time. The firm thereby consents to the examination of its books, records and documents by Metro.

Congratulations, and thank you for your interest in the DBE program. I wish you every business success and should you have any questions, please contact us at [213-922-2600](tel:213-922-2600). For information on Metro contracting opportunities, please visit our website at www.metro.net.

Contractors schedule and sequencing of the CIDH Pile drilling operation will dictate the quantity of forklifts needed. The formula to use in calculating lifts to be provided is this: (2) 10,000 LB telescoping forklifts to be provided for the duration of the building operation per CIDH Pile being built. If more than one CIDH must be built at the same time, then Contractor is to provide (2) 10,000 LB telescoping forklifts at both pile locations for the duration of that building operation.

SPECIAL NOTES:

1. CIDH piles tied & stockpiled one-piece full length only. Cages will be tied to industry standards and specs for placement of concrete. How to Fix It

The address may be misspelled or may not exist. Try one or more of the following:

- Send the message again following these steps: In Outlook, open this non-delivery report (NDR) and choose **Send Again** from the Report ribbon. In Outlook on the web, select this NDR, then select the link "**To send this message again, click here.**" Then delete and retype the entire recipient address. If prompted with an Auto-Complete List suggestion don't select it. After typing the complete address, click **Send**.
- Contact the recipient (by phone, for example) to check that the address exists and is correct.
- The recipient may have set up email forwarding to an incorrect address. Ask them to check that any forwarding they've set up is working correctly.
- Clear the recipient Auto-Complete List in Outlook or Outlook on the web by following the steps in this article: [Fix email delivery issues for error code 5.1.10 in Office 365](#), and then send the message again. Retype the entire recipient address before selecting **Send**.

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the **More Info for Email Admins** section below.

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.

For more information and additional tips to fix this issue, see [Fix email delivery issues for error code 5.1.10 in Office 365](#).

More Info for Email Admins

Status code: 550 5.1.10

This error occurs because the sender sent a message to an email address hosted by Office 365 but the address is incorrect or doesn't exist at the destination domain. The error is reported by the recipient domain's email server, but most often it must be fixed by the person who sent the message. If the steps in the **How to Fix It** section above don't fix the problem, and you're the email admin for the recipient, try one or more of the following:

The email address exists and is correct - Confirm that the recipient address exists, is correct, and is accepting messages.

Synchronize your directories - If you have a hybrid environment and are using directory synchronization make sure the recipient's email address is synced correctly in both Office 365 and in your on-premises directory.

Errant forwarding rule - Check for forwarding rules that aren't behaving as expected. Forwarding can be set up by an admin via mail flow rules or mailbox forwarding address settings, or by the recipient via the Inbox Rules feature.

Recipient has a valid license - Make sure the recipient has an Office 365 license assigned to them. The recipient's email admin can use the Office 365 admin center to assign a license (Users > Active Users > select the recipient > Assigned License > Edit).

Mail flow settings and MX records are not correct - Misconfigured mail flow or MX record settings can cause this error. Check your Office 365 mail flow settings to make sure your domain and any mail flow connectors are set up correctly. Also, work with your domain registrar to make sure the MX records for your domain are configured correctly.
