# CALIFORNIA UNIFIED CERTIFICATION PROGRAM (CUCP)

*(Revised 6/15/16)*
September 14, 2011

Ms. Melinda Sue Alaska
Alaska Enterprises Inc.
315 N. Associated Rd, #704
Brea, CA 92821

**RE: DISADVANTAGED/MINORITY/WOMEN BUSINESS ENTERPRISE (DBE/MBE/WBE) CERTIFICATION APPROVAL CCA File No. - 12206 CUCP File No. 39924**

Dear Ms. Alaska:

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Los Angeles has determined that your firm meets the eligibility standards to be certified as a **Disadvantaged/Minority/Women Business Enterprise (DBE/MBE/WBE)** as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs and the City of Los Angeles DBE/MBE/WBE directory under the following specific areas of expertise that you have identified on the business service form for contracting opportunities:

| NAICS Codes | Description |
|---|---|
| **425120** | **Wholesale Trade Agents and Brokers** |
| **541613** | **Marketing Consulting Services** |
| **423510** | **Metal Service Centers and Other Metal Merchant Wholesalers** |
| **484110** | **General Freight Trucking, Local** |

Your certification applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the California Unified Certification Program's website at www.californiaucp.com and the City of Los Angeles DBE/MBE/WBE database at http://bca.lacity.org. Any additions and revisions must be submitted to the City of Los Angeles for review and approval.

In order to assure continuing DBE status, you must submit annually a No Change Declaration with supporting documentation, which will be sent to you. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until or unless it is removed by our agency.

Also, should any changes occur that could affect your certification status prior to receipt of the Declaration, such as changes in your firm's name, business/mailing address, ownership, management, or control, or failure to meet the applicable business size standards or personal net worth standard, please notify us immediately. DBE certification is subject to review at any time. Failure to submit forms and/or change of information will be deemed as failure to cooperate under Section 26.109 of the Regulations.

Your DBE certification status will be honored by all of the U.S. DOT recipients in California.

Congratulations, and thank you for your interest in the California Unified Certification Program (CUCP). We wish you every business success and look forward to hearing from you if we may be of any assistance to you in this regard.

Should you have any questions, please contact me at (213) 847-2650 or e-mail at angela.delarosa@lacity.org.

Sincerely,

Angela de la Rosa

- This quote doesn't include prevailing wages
- Daily exportation requires advanced scheduling is subject to the receiving landfill's daily tonnage limit

**AESCO Proposal No. P5169**

Dear Estimator:

AESCO is pleased to submit this proposal to join your team to perform construction materials inspection and testing services for the Concrete Pavement and Lean Concrete Base Construction of the State Route 60 project in Los Angeles County, CA. Pavement for this project consists of constructing 7,894 cubic yards of Jointed Plain Concrete Pavement (JPCP), 570 cubic yards of Rapid Strength Concrete Pavement (JPCP RSC), 7,240 cubic yards of Lean Concrete Base (LCB),and 154 cubic yards of Lean Concrete Base Rapid Setting (LCBRS). A total construction period of 400 working days is specified.

AESCO is a **woman-owned corporation** (incorporated in California) and has been in operation since 1993. AESCO is headquartered in Huntington Beach, California and we currently have over eleven employees. AESCO is certified as a small business enterprise **(SBE)** by the Metropolitan Transportation Authority (MTA), *the Network* (which includes the Metropolitan Water District, the Ports of Long Beach and Los Angeles, the City of San Diego and the Los Angeles Unified School District), as well as **certified as a disadvantaged business enterprise (DBE/UDBE) by the California Unified Certification Program.**

AESCO maintains a laboratory procedure manual (approved by CALTRANS) which describes the methods used for recording, processing, and reporting data, sources of reference material, standards, and test methods. Our laboratory also maintains a quality control plan which includes quality control, quality assurance, and the equipment calibration program. An inventory of testing equipment listing the manufacturer, model serial number, calibration, and tolerance is also maintained by the laboratory.

AESCO has worked on numerous Caltrans projects such as the Garden Grove Freeway (SR 22) widening, a 400 million dollar project, the current SR 91 and I-5 widening projects, as well as numerous Orange County Transportation Authority projects.

## SCOPE OF WORK

AESCO will perform concrete pavement and lean concrete base construction materials inspection and testing services consisting of the following:

1. Prepare the Quality Control Plan for Concrete Pavement and JPCP Control Charts
2. Attend Prepaving Conference and Just-In-Time- Training for Jointed Plain Concrete Pavement (JPCP), JPCP Rapid Strength Concrete (RSC) Pavement, Lean Concrete Base (LCB), Lean Concrete Base – Rapid Setting (LCB-RS) and Pre-operation Conference for JPCP RSC Pavement
3. Testing of the Trial Slabs (1) for RSC Pavement and LCB-RS (if required)
4. Concrete mix design review
5. Concrete batch plant inspection
6. Perform aggregate gradation, cleanness and sand equivalent tests during JPCP and JPCP RSC placement
7. Perform aggregate gradation, sand equivalent tests during LCB placement
8. Perform coefficient of Thermal Expansion for every 5,000 cy of JPCP (2 sets of tests)
9. Inspect and test placement of concrete pavement (JPCP and RSC Pavement, LCB and LCB-RS)
10. Compressive strength testing of LCB at 3 days (and 7 days, if applicable) in our Huntington Beach laboratory
11. Flexural strength and compressive strength testing of RSC and LCB-RS Pavement in an on-site mobile lab (early age and/or Opening Age, as required) and 7-day breaks for RSC and LCB-RS in our Huntington Beach laboratory

Excluded from our scope, in addition to any QC testing unrelated to above scope:

1. Quality Control Manager duties for structural concrete, concrete pavement and LCB
2. Concrete and LCB mix design and field verification – this is normally done by supplier using their contracted independent QC testing lab.
3. Coring of JPCP for (a) Test Strip (1), (b) production dowels, (c) production tie bars
4. Flexural strength testing of JPCP (**specs call for Caltrans to perform this testing**)
5. QC testing for asphalt concrete pavement (this is normally contracted by the asphalt supplier).

## SCHEDULING

AESCO will begin inspection and testing services on an on-call basis during the construction phase of the project. A maximum 1-1/2-year time frame is anticipated.
