Question 1- Yes you can claim all 103,000 of the DBE dollars. \$35,000 of the \$103,000 is for disposal . This will run through a DBE transporter, the rest is for DBE trucking.

Question 2- Based on the volume of soil and water, the total number of soil samples will be 4 (1 per thousand tons) and the total number of water samples will be 7 (1 per tank).

Just looking at it now....question

1. Can we claim the total of \$103,000 DBE (they need to own their trucks or use owner/operators)
 2. How many tests for soil and water? (e will a single set of tests at the stockpile and holding tanks serve to classify the site regardless of haul off days?) (I think the answer is yes?)
