timeframe or pricing will be negotiated. Pricing is based on a package deal any changes in quantities or items listed may affect pricing. Pricing is for a standard basket advise if skewed or tapered baskets are required and a bid will be prepared accordingly. Billable Feet = calculated Lane Width, not actual length of basket. Basket Lane width calculation is: number of dowels multiplied by on center spacing divided by 12 to express as lineal feet. All orders are subject to the availability of raw materials. Pricing is based on materials being released for immediate production and or prior to expiration date noted above. If materials are released for production after expiration date, raw material escalators that occur from bid date to production release date may be passed along at cost if applicable. A steel raw material prepay option is available to protect pricing and control cost. Materials released for production will be invoiced upon completion and are to be paid for within standard terms or late fees will apply. In the event the job is unable to take possession at time of completion a storage option is available as space permits. If materials are stored beyond 30 days UV Protection is mandatory. Disposable UV Protection Coverings will be required at a cost of $25.00 each which will provide coverage for up to 4 pallets of dowels or each pallet of 60 baskets. Freight charges are based on full truck load moves. If less than full

Additional information

C. A. Rasmussen, Inc. makes it a practice to encourage our subcontractors to utilize 2nd and 3rd tier DBE subs and suppliers. Additionally, members of CAR staff are actively involved in advocacy groups promoting outreach to minority and disadvantaged subcontractors, including DBEs. This includes the SCCA's Community Outreach Committee, which works to educate union contractors on the standards and practices of utilizing DBEs, and additionally helps DBE contractors learn how to make themselves competitive and to market their business toward general contractors.
