THIS QUOTE INCLUDES PRE-CON'S TERMS AND CONDITIONS.

Partial item 38 Precon

PRE-CON PRODUCTS TERMS AND CONDITIONS

1. **Purchase Price.** The Purchase Price specified on the face of this invoice is and shall be considered a lump sum price for the sale and/or installation of the Products based upon the aggregate prices of the time and material components of the Purchase Price including installment charges, if any, as have been separately stated.

2. **Payment.** Payment in full of the Purchase Price, including transportation costs, shall be due thirty (30) days after delivery. Interest at the rate of eighteen percent (18%) per annum shall accrue on the unpaid balance, and on any other charges or expenses payable by Buyer, from the due date until paid in full. Seller reserves the right to forthwith cease all further deliveries if timely payment in full has not been received.

3. **Price Change.** The Purchase Price is binding on the Seller only for the period indicated, and prices are subject to change without notice. The possession of price sheets or catalogs by any person should not be construed as a binding offer to sell by Seller. Price changes made by Seller shall apply to all materials covered by this contract and delivered after said period, provided that delivery is not delayed due to any fault of the Seller.

4. **Delivery.** Seller will deliver the Products to the job site, and if requested in writing by Buyer, Seller shall install, attach and affix the Products to their final location using Seller's trucks, trailers and personnel. The unloading, placement and installation of the Products shall be the sole responsibility of Seller based upon the reasonable directions and requirements of Buyer, unless otherwise agreed in writing. Buyer shall provide and maintain suitable access roads to the delivery site and protect utilities and adjacent structures.

5. **Installation.** In the event Seller is required to install the Products pursuant to Buyer's request, Seller shall further furnish all tools, equipment, labor, materials, structures and accessories which may be required or necessary to properly install and affix to the job site all of the Products. Seller makes no representations or guaranties, nor assumes any responsibility regarding the proper location, alignment, depth size, bedding, supports, physical requirements, base, backfill, compaction or any other condition affecting the placement or installation of the Products specified by Buyer, which responsibilities are exclusively borne by Buyer. Seller assumes no responsibility for water infiltration into any Product placed into any excavation.

6. **Capacity.** Seller shall be deemed a construction contractor for all purposes if Seller is required to install and affix the Products according to the plans and specifications of Buyer. Buyer's payment of the Purchase Price shall not be reduced or subject to any offset, retention, back-charge or other claims by reason of any term or condition not contained herein.

7. **Title.** Seller shall retain title to all Products until the full Purchase Price has been paid and, if Seller is responsible for the installation of the Products, until the Products have been attached to, incorporated in and affixed to their final position by Seller.

8. **Sales Tax.** The Purchase Price of the Products is based upon the assumption that Seller shall install and affix the Products, provided that in the event Buyer does not elect or contract with Seller to install the Products, then Buyer shall be further liable and responsible for the payment of all sales or use tax computed on the gross Purchase Price of the Products.

9. **Warranties.** Seller only warrants that the Products shall conform to the specification thereof and shall be free from defects in labor and materials for a period of one (1) year from date of delivery. If the Products should be found to be defective then upon written notice and after the return of the Product at Buyer's expense to Seller's business premises, Seller shall replace the Product with a duplicate Product free from defect without charge, but without further expense to Seller. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, AND SELLER HEREBY EXPRESSLY DISCLAIMS ALL OTHER IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE OR PURPOSE EXCEPT FOR THE REPLACEMENT OF ANY DEFECTIVE PRODUCTS AS SET FORTH ABOVE. SELLER SHALL NOT BE LIABLE OR RESPONSIBLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, COSTS, EXPENSES OR LOSSES SUFFERED BY BUYER, INCLUDING ANY CLAIMED OR ALLEGED DELAY DAMAGES, RESULTING FROM OR CAUSED BY DEFECTIVE PRODUCTS SUPPLIED BY SELLER. Products sold by Seller, but not manufactured by it, are warranted only to the extent such Products are warranted to Seller by the supplier.

10. **Inspections.** Buyer shall inspect the Products for any broken, chipped or other visible defect or deficiency prior to unloading the same and seller shall have no liability for any such deficiencies unless Buyer provided written notice to Seller on the shipping/delivery document evidencing Buyer's receipt of the same. All other inspections of the Products shall be made by Buyer within five (5) days from Seller's delivery of the products to the job site, at Buyer's sole cost and expense, for correct size, symmetry, depth and quality consistent with allowable tolerances and variations consistent with usual trade practices. Unless written notice of rejection is timely received by Seller, it is conclusively deemed that the Products meet with the Buyer's purchase requirements and are complete in accordance with the description of the Products.

11. **Returns.** Products shall not be returned by the Buyer without prior written acceptance by the Seller. The amount of credit to be given, if any, shall be determined by the Seller after inspection of the Products upon return to Seller's business premises.

12. **Quantity.** When the Buyer requests a reduction in total quantity of the Products ordered of more than ten percent (10%) for any category of Products listed, Seller may at its option increase the unit price of the Products a reasonable amount to offset the reduction in quantity.

13. **Scheduling.** Seller's delivery of the Products is based on its present estimate of the time required to ship after receipt of Buyer's order. ACCEPTANCE BY BUYER OF ANY PRODUCTS WITHOUT WRITTEN OBJECTION SHALL CONSTITUTE A WAIVER BY BUYER OF ANY CLAIM FOR ACTUAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ON ACCOUNT OF ANY DELAY IN DELIVERY OF SUCH PRODUCTS.

14. **Ordering Odd Lengths.** The Purchase Price is based upon furnishing not over two percent (2%) of total Products sold having standard four-foot lengths, unless otherwise agreed in writing on the reverse hereof. An additional charge will be made for any excess in such percentage. All pipe and Products will be billed at nominal lengths (4' or 8') and no allowance shall be chargeable for shortage due to bevelling.

15. **Default.** Upon any default by Buyer under this contract, Seller, at its option, may cancel the unfilled portion of this contract, and the full Purchase Price for all Products manufactured by Seller for Buyer under this contract, whether or not delivered to the job site, shall, at Seller's sole option, become immediately due and payable. the exercise by Seller of any of its rights under this contract shall not bar Seller from exercising any other rights or remedies under the applicable lien laws against the property where the Products are placed or installed. In the event of default in payment, or any other breach, Seller may retake possession of the Products wherever they may be found, and may resell the same without notice to Buyer, applying the amount so received to the balance due. Seller may otherwise exercise all rights and remedies available to Seller in accordance with California law.

16. **Sale Contract.** This contract is subject to acceptance only on the terms and conditions stated in this offer. This contract shall not be subject to modification except by an agreement in writing signed by both parties. Any additional or different terms and conditions proposed by Buyer, either before or after this offer, are hereby rejected.

17. **Force Majeure.** The Seller shall not be liable for delays or other failure to perform because of any delays in manufacture or delivery due to unforeseeable causes beyond the control and without the fault or negligence of the Seller, including, but not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, excessive traffic, major equipment or transportation failures, delays or defaults of third parties, freight embargoes, unusually severe weather or delays of subcontractors or suppliers due to any causes and non availability of materials. All claims for delay in delivery of the Products shall be deemed waived unless presented in writing concurrently with acceptance of the Products. Delays in delivery, for whatever reason, shall not be cause of cancellation of this contract by Buyer. The parties hereto acknowledge that the amount of damages suffered or incurred by Buyer as a result of any delay in the delivery of Products which is caused by Seller's neglect or default shall be incapable of accurate measurement and that the parties hereby agree that Seller shall solely be liable to Buyer in such event in an amount equal to Fifty Dollars ($50) per day of delay which amount shall constitute the sole and exclusive measurement of damages suffered by Buyer due to any such delay damages.

18. **Bid Jobs.** On bid jobs, this contract shall be binding on the parties only (a) for deliveries within sixty (60) days from the date on this contract and (b) if Buyer is awarded either from a general or subcontract embracing the use of the Products.

19. **Taxes Not Included.** The Purchase Price is exclusive of all state or local sales or use taxes and all other taxes of any governmental or public agency, applicable to this order unless specifically included.

20. **Indemnification.** Buyer expressly agrees to indemnify, defend and hold Seller harmless from and against all claims, demands, losses, expenses, costs, including reasonable attorney's fees, liabilities, suits or judgments of any kind or nature, arising out of, in connection with, or resulting from death or injury to persons and loss, damage or injury to property, caused or due directly or indirectly to the sale, delivery, installation, storage or use of the Products being provided to Buyer. Buyer further agrees to erect sufficient protective and warning devices at the time the Products are placed on the job site.

21. **No Assignment.** Buyer shall not assign this contract or any interest therein, without Seller's prior written consent.

22. **Risk of Loss.** Risk of damage or loss of the Products shall pass to the Buyer upon the transfer of title. Thereafter, Buyer shall be responsible for compliance of all governmental regulations and ordinances with regard to storage or placement of the Products.

23. **Attorney Fees.** In the event of any litigation, action or proceeding is commenced in connection with this contract, the prevailing party therein shall be entitled to recover its reasonable attorney's fee and court costs.

24. **Storage.** In the event Buyer does not accept delivery of the Products in accordance with the delivery schedule agreed upon between the Seller and Buyer, Seller will store the undelivered Products on its business premises for a period of thirty (30) calendar days beyond the scheduled delivery date; provided that Seller will charge Buyer an amount equal to one and one-half percent (1½%) for each month, or any portion thereof, of the Purchase Price for the undelivered Products from the scheduled delivery date, payable monthly, and continuing until delivery of the Products or the termination of this contract whichever shall last occur. Seller shall have the right to cancel this contract, retain any deposits or prepayments, and recover the remaining balance of the full Purchase Price of any undelivered Products, plus interest thereon at the rate of one and one-half percent (1½%) per month until paid in full, if Buyer shall not accept delivery, for any reason whatsoever, within ninety (90) days from the scheduled delivery date.

25. **Disclaimer of Plans.** Buyer hereby acknowledges that in the event the Seller has provided any layouts, schematics, drawings or other plans to Buyer in connection with the placement, location or installation of the Products, any such plans were prepared solely for the benefit of Seller and Seller hereby disclaims, and shall expressly not be liable or responsible for, any loss, damage, expense or other injury suffered by Buyer, or claimed to be suffered or incurred by Buyer, with respect to or arising out of Buyer's use of such plans. Buyer shall solely be responsible for determining the numbers, lengths, configurations, layouts installations, dimensions and all other design parameters affecting the installation of the Products provided by Seller.

PALEO SOLUTIONS
Paleontological and Archaeological Compliance and Consulting Services

DBE

November 19, 2013

Denia Lanza
Hal Hays Construction Inc.
4181 Latham St. Riverside Ca 92501

RE: Request for Proposal to Provide Archaeological and Paleontological Services for the C.V. Kane Roadside Rest Area 30 miles Northeast of Barstow in San Bernardino Ca., Caltrans District 8. Project number 08-0G8404.5.

Ms. Lanza:

Paleo Solutions is pleased to present this proposal to provide archaeological and paleontological services for the C.V. Kane Roadside Rest Area (Project number 08-0G8404.5), San Bernardino County, California. In response to your request, we have a qualified team with the requisite education, experience, capacity, and responsiveness required for this project. This proposal discusses our scope of work required to complete an archaeological and paleontological resource mitigation plan, daily rates for a field technician to provide monitoring during construction activities. Our monitoring program will be followed up by a final technical report. Paleo Solutions is registered as a small business with the State of California, with the Department of General Services (Procurement Division-SBE), is certified with the California Public Utilities Commission (CPUC) as a Women-Owned Business enterprise (WBE), and is certified with the California Unified Certification Program (CUCP), as a Disadvantaged Business Enterprise (DBE).

The Paleo Solutions team consists of highly trained technical staff possessing extensive experience working on Caltrans, BLM, and U.S. Forest Service-managed projects, in addition to transmission line, power plant, pipeline, and military base projects. Our expertise includes surveying, preparation of EIS/EIR sections, preparation of mitigation plans, and final technical reporting. Our staff is familiar with construction site protocol and etiquette, the various types of equipment operating on construction sites, operator communication, and personnel safety.

If any of the following conditions arise during construction, a change of scope may be required:

- Concurrent construction activities occurring in more than one area, such that more than one monitor is necessary.
- If required to work more than 8 hours in a day because monitoring or fossil recovery extends beyond an 8-hour day, time will be billed at time and a half and a change order will be required.
- Findings requiring additional curation or analysis.
- Additional funds are required for storage and/or transport of discoveries.
- Additional supplies and staff members are needed to complete recoveries or collections.

LOW BIDDER

Office: (562) 818-7713 • Fax: (626) 359-0712 • 911 S. Primrose, Unit J, Monrovia, CA 91016

- Archaeological and paleontological laboratory processing of discoveries for identification and analysis is required.
- Additional funds may be required for report production due to paleontological or archaeological discoveries.
- If human remains are discovered the coroner will be call upon and additional procedures would be required.
- Additional visits by project management, certified paleontologist or the RPA are required or requested.
- This proposal includes 2 consecutive weeks of monitoring. If additional monitoring or trips are required to the job site a change order will be required.

No laboratory funds have been included in this proposal. If additional funds for identification, curation or outside consulting are needed, a change order will be requested. Paleo Solutions has developed a cadre of workers that are cross-trained in archaeology and paleontology so that one worker may be able to perform the duties (such as construction monitoring) that might otherwise require two persons with separate expertise.

Necessary Permits:
All archaeological and paleontological services will be conducted under the direction of the Meghan Lamb, M.A., RPA, Principal Investigator in collaboration with Certified Paleontologist, Sarah Siren, M.S., Principal Investigator. All work will be conducted in accordance with guidelines set forth under CEQA, NEPA, and the Society of Vertebrate Paleontology (SVP).

Scope of Work:

Task 1. Mitigation Plan
Before commencement of monitoring/fieldwork for the project, a Mitigation Plan (plan) will be prepared. The plan will investigate and review the known resources present, research and cite appropriate literature, outline proper field techniques, monitoring procedures, collecting procedures, approved environmental awareness training program (if applicable), and outlines archaeologically and paleontologically sensitive areas based on the Caltrans Standard Environmental Reference (SER) Volumes 1 and 2 Guidelines. These will identify which areas should require monitoring during construction activities. A pedestrian survey for both archaeological and paleontological resources may be necessary based on environmental documentation (EIR) previously compiled and the results of our records search. This cost has been included in Task 1 incase this service is required. We would also like to request any applicable geotechnical, archaeological, and / or paleontological reports that have been completed for the project previously.

Subtask 1a – Archaeological Resources Plan
An archaeological resources plan will be produced that will be consistent with Caltrans and CEQA and/or NHPA requirements, as necessary. The report will include a project description, cultural setting, and recommendations for the mitigation program. In addition, it will include relevant maps and photographs.

Subtask 1b – Paleontological Resources Plan
The plan will include a records search to determine if previous fossil localities are known on or nearby the project alignment.

We understand that all project related information will be kept confidential. This task will be crucial to help develop and understand future work that will require monitoring for the duration of the project. We will map the existing archaeological and paleontological resources and highlight areas that are potentially sensitive for these resources. This will be utilized as a future guide to help determine the potential impacts of archaeological and paleontological resources, and cordon off any environmentally sensitive areas associated to cultural sites.

Task 2. Preconstruction Measures
If it is determined that we are needed during construction to provide monitoring, Paleo Solutions project manager shall attend the preconstruction meeting to discuss field procedures, procedures for archeology and paleontology, safety protocol and establish communications. Our Safety Officer will develop a Health and Safety Plan (HASP) prior to construction commencing. The site-specific safety plan will outline emergency procedures in remote locations, emergency contact information, which includes local hospitals locations and emergency responders, and project related safety issues. This will be reviewed and signed by each monitor prior to working on-site.

Task 3. Daily Field Monitoring
Paleo Solutions will provide a Field Technician during grading/excavation activities that impact archaeologically and / or paleontologically sensitive deposits. This will be based on Task 1 and future potential construction work. For the purposes of this proposal we have assumed we will be needed for 10 days. However this is only and estimate. If earth-moving activities require additional monitoring beyond our 10 day estimate a change order will be required to continue monitoring services. A daily rate for monitoring is provided below. All monitoring will be conducted under the direction of the Certified Archaeologist Meghan Lamb, M.A., RPA, and Certified Paleontologist Sarah Siren, M.S. The Field Technician will conduct daily procedures outlined in the plan. In addition, the Field Technician will attend on-site daily/weekly construction safety meetings as necessary, and help implement the workers environmental awareness program (WEAP), if requested.

Monitoring will be conducted on a full-time basis during such time that deposits with a high sensitivity is being impacted, and outlined in Task 1. If the monitor finds significant archaeological or paleontological resources, earthmoving activities shall be temporarily diverted around the fossil site until the remains have been recovered and the monitor agrees to allow earthmoving to proceed. If the size of a given discovery is unmanageable for a single monitor, additional assistance will be called upon on a time and materials basis. In this case a change order will be required.

If any human remains are discovered, all construction activity in the area of the discovery will be halted, and all applicable laws and ethics will be followed. The San Bernardino County Coroner will be notified immediately. If the coroner determines that the remains are Native American in origin, the coroner shall contact the Native American Heritage Commission (NAHC) in Sacramento. The NAHC will then

identify a Most Likely Descendent (MLD) who will recommend the appropriate and dignified disposition of the remains and any associated materials.

In the event that archaeological or paleontological resources are encountered during monitoring they will be mapped, photographed, recorded, and collected for later documentation that will be included in the final technical report. Map points will be taken with a GPS unit (Trimble, and/or Garmin). At a minimum, an overview photograph will be taken of each discovery site. All appropriate field notes and documentation will be recorded. A single point will be taken for isolated discoveries. Recordation will include the notation of all information required to fully complete a discovery form. In instances where sites contain large numbers of archaeological or paleontological resources, they will be generally quantified and described, and collected. If a find is too large for a single field technician to handle, additional staff will be called upon and overseen by the Field Director and/or Principal Investigator. These procedures will be properly outlined in the plan and in accordance with CEQA and SVP guidelines.

Monitoring will be increased or decreased based on the actual deposits being impacted during construction activities. This will depend on the sensitivity of the deposits being impacted and the nature of construction occurring.

Overtime will be billed at time and a half when the Paleontological Technician is asked to work more than 8 hours a day. This will be over and above the day rate. Scheduling will be coordinated with the Construction Manager and Caltrans. An 8 hour minimum will be billed for night work.

Task 4. Project Management

Paleo Solutions will provide Project Management services throughout the duration of the project. This will include tracking budgets, managing field personnel, attending and/or conference calling weekly construction meetings as requested. On-site inspections will occur as necessary by the Project Manager/Principal Investigator. All fees will be billed monthly and based on time and materials. Task 4 does not include travel costs for site-visits when requested. Project Management will only be billed when project activities are ongoing.

Task 5. Final Technical Report

A Final Paleontological Report will be prepared for compliance documenting the archaeological and paleontological context for the general site area, including the methods and results of the archival research and monitoring. In the event that significant archaeological or paleontological discoveries are made, a change order will be required to accommodate additional time needed for this task.

Subtask 5a – Archaeological Report: At the conclusion of the archaeological monitoring program, Ms. Lamb will prepare a report for submittal to Caltrans and The San Bernardino Information Center. A total of six-copies will be submitted. The report will describe the cultural history of the project area, summarize field and laboratory methods (if applicable), and include any testing or special analysis data used to support the findings and conclusions. A records search will be conducted and included in the final report.

Subtask 5b – Paleontological Report: The report will include a faunal list, an inventory of curated fossil specimens, and discuss the relationship of any newly recorded fossils within the project to previously recorded relevant fossils (This service is not included in this proposal). Field forms will be attached to the report as an appendix. The technical report will meet or exceed all local, state, and federal standards. The report will include evaluation of sites recorded, field, and laboratory results. The report will describe parcel geology/stratigraphy; summarize field techniques used, summarize new and existing fossil localities collected in the immediate area.

Task 5 details costs associated with a negative report with no significant findings. Additional funds will be needed if archaeological or paleontological resources are discovered. All finds will be discussed with the Construction Manager before recovery of fossil resources, especially if additional personnel are required.

Task 6. Archaeological and Paleontological Discoveries
If the monitor finds archaeological or paleontological resources, earthmoving activities shall be temporarily diverted around the discovery site until the remains have been recovered and the monitor agrees to allow earthmoving to proceed. If the discovery is unmanageable for one monitor, additional assistance will be billed on a time and materials basis. A change order will be required in this event. No recovery funds have been included in this budget.

Task 7. Archaeological and Paleontological Laboratory Analyses
No laboratory funds have been included in this proposal. If additional funds for identification, curation or outside consulting are needed beyond this estimate, a change order will be required. This includes all mitigation plan, field monitoring, project management, and written technical negative report production for the project. Extended periods of no ground disturbance will result in significantly reduced project activity charges.

Cost Estimate for Project (not including recurring monitoring or management costs):

TASK(S)	COST
Task 1. 1a. Archaeological and 1b. Paleontological Mitigation Plan	$ 11,785.03
Task 2. Preconstruction Measures	$ 1,752.65
Task 3. Archaeological/Paleontological Monitoring	$ 6,397.00
Task 4. Project Management	$ 2,606.91
Task 5. Final Technical Report (Negative Findings) 5a.Archaeology and 5b.Paleontology	$ 7,247.29
Task 6. Archaeological and Paleontological Discoveries	Time and Material
Task 7. Archaeological and Paleontological Laboratory Analyses	Time and Material
Total Budget	**$ 29,788.88**

PALEO SOLUTIONS
Paleontological and Archaeological Compliance and Consulting Services

In Summary:

Safety
Paleo Solutions has a zero incident record of safety. Scott Armstrong, the safety officer, will establish a site-specific safety plan with emergency contact information, which will include local hospital locations and emergency responders. All our employees have proper knowledge and training to work safely around all types of heavy equipment related to all aspects of construction projects. In house safety meetings are conducted periodically to review all safety issues. We ensure all employees comply with federal and state safety procedures applicable to the construction activities, including attending required on-site safety meeting.

Communication
We believe that good communication is a key element for all construction projects. This is especially true for larger projects and those involving multiple disciplines and sensitive issues dealing with environmental resources. Paleo Solutions is committed to having daily and weekly contact with all required entities. This is facilitated through phone and electronic communication, and continually maintained through the project life. Daily communication with Paleo Solutions management and field personal is required, in addition to liaison with construction and management personal. All Paleo Solution staff members are available through email and cell phone.

We are a pro-active, responsive firm that is mindful of our clients' needs. Our staff is committed to being available at all times to deal with any unforeseen issues. This is complimented by our cost-effective solutions and is facilitated by our efficient project management and communication, thus minimizing unnecessary site visits and increasing proper utilization of project funds. We have developed efficient fossil recovery techniques in an effort to avoid project downtime.

We have great working relationships with the natural history museums in southern California and affiliations with universities and other repository institutions.
And most of all we enjoy what we do!

It is our intent for you to be pleased with our service. Contact me (Scott) by phone at (949) 813-1240, or scott@paleosolutions.com if you have any questions or comments. Alternatively, you can also contact Geraldine Aron at geraldine@paleosolutions.com or by phone at (562) 818-7713.

We look forward to hearing from you.

Scott Armstrong
Vice President

Paleontological and Archaeological Compliance and Consulting Services

PALEONTOLOGICAL RESOURCES AND REFERENCES:

Paleo Solutions Inc. (Paleo Solutions) is in commencing our tenth year of successful paleontological and archaeological field services. Our professional staff has extensive experience, allowing us to develop cost-effective mitigation solutions for local governments, private developers, planning firms, public utilities and other entities throughout California conducted according to Society Vertebrate Paleontology (SVP), Bureau of Land Management (BLM), museum standards and agency guidelines. Our staff has experience consisting of permitting, analyses, surveying, implementing mitigation and monitoring plans, documentation review, writing EIR/EIS documentation, fossil collection, fossil preparation, museum curation, and technical report preparation. We have a modern and complete facility capable of housing large and small specimens and staff experienced in proper paleontological preparation for curation for museums and repository facilities. Our geographic areas of expertise include Contra Costa County, Kern County, Los Angeles County, Orange County, Riverside County, San Bernardino County, San Diego County, San Luis Obispo County, Imperial County, and other northern counties. We have extensive experience in all of Southern California Edison's defined service areas/regions (Southern Sierra, Mojave Desert, Southern California Coast, and Channel Islands). A list of relevant experience is listed below.

Geraldine Aron, President of Paleo Solutions, has over 15 years of experience in the field of paleontology, with the completion of her Master of Science in Geology. She has taught paleontology laboratory classes and taken numerous field geology classes that involved field trips and research opportunities in and around the Owens Valley area. Ms. Aron holds a current California BLM Permit (2010-2013) and a current U.S.D.A Forest Service Permit with the Angeles National Forest (2010-2011). Geraldine Aron exceeds the minimum qualifications to be a project manager and principal investigators under the Society of Vertebrate Paleontology (SVP), U.S.D.A. Forest Services, and BLM guidelines. She also posses all county and city qualified paleontological certifications where they are required. Some of these include San Diego County, Orange County, Riverside County, and San Luis Obispo County

Complimented by our scientific backgrounds, Scott Armstrong has 18 years of experience in southern California paleontology including field and laboratory management, proper collection techniques and has a reputation for running large fossil recoveries in a safe, fast and thorough manner. Mr. Armstrong has recently conducted paleontological public outreach programs to better service the community.

Paleo Solutions has maintained a close working relationship with SDNHM and utilizing them as support to our team enhances our expertise and quality assurance to conduct paleontological field services to the highest scientific standards.

Our staff possesses certificates including:
Certified Archaeologist, County of Orange, California
Certified Paleontologist, County of Orange, California

California BLM Permit issued from April 2013 through April 2016. The permit number is CA-10-00-006P
U.S.D.A. Forest Services (Angeles National Forest 2010-2011)
Professional Geologist, PG#8327, Expiration date July 31, 2011
Campbell Nuclear Test Gauge Certified
Paleontological Resource Specialist for the California Energy Commission
Qualified Paleontologist, City and County of San Diego, California
Qualified Paleontologist, County of Riverside, California
Certificate in Cartography and Geographical Information Systems
40 Hour Hazwoper Training

Relevant experience:

Paleo Solutions staff has managed, surveyed, and monitored multiple linear projects that include transmission line, water pipelines, sewer pipelines, gas pipelines and energy projects in Southern California over the last 15 years. Our experience demonstrates our diversity of linear and energy projects and knowledge of construction procedures. Each project's approach of construction varied widely from trenching to directional boring to mass grading. Some other examples of relevant projects our paleontological staff has been involved in include:

Relevant Projects:
San Joaquin Cross Valley Loop Project, Tulare County, California (Southern California Edison).
Contra Costa-Moraga 230kV Reconductoring Project, PG&E, Contra Costa County, California (Far Western/Insignia).
Desert Sunlight Solar Farm Project, Riverside County, California. Paleontological Mitigation Plan, Survey and Monitoring (entirely on BLM land).
UHS Temecula Hospital, Riverside County, California.
El Casco System-Transmission Line, Southern California Edison, Riverside County, California.
Paleontological Mitigation Plans (PMP) for Caltrans Cherry/Citrus Ave I-10 interchange, San Bernardino, California.
Paleontology Survey and Assessment for the Cadiz Groundwater Project San Bernardino County, California (EIR).
Ocotillo Wind Express Project, Ocotillo, Imperial County, California.
Paleontological Assessment Report For The Havasu Springs Project, Havasu Lake, San Bernardino: Tentative Parcel Map Number 19169 And Plan Tract Number 8284 (Apn# 0649-201-43).
California Edison (SCE) Orange County Access Roads Maintenance -YR 2010 Cultural Resources Impact Avoidance Protocol (2010-present; teamed with ECORP).
Tehachapi Renewable Transmission Project, Southern California Edison, Los Angeles, Kern, and San Bernardino, Counties, California (Pacific Legacy)
Paleontological Review and Report for the proposed Devore Substation Project, San Bernardino County, California (IO 307041), Southern California Edison (LSA).
Paleontological Review and Report for the proposed Horsetown Substation Project, Riverside County, California (CWA 1: IO # 306687), Southern California Edison (LSA).

Paleontological Mitigation Plan and Monitoring for Manzana Wind Energy Project, Kern County, California (Sapphos Environmental).
SDGE Project, County of San Diego. On-Call Paleontological Services (2009-2012).
Nacimiento Water Project Survey and Monitoring Compliance, San Luis Obispo County Flood and Conservation District, California (ESA).
Paleontological Assessment Sensitivity Report and Survey for the Irvine Water District-Baker Regional Water Treatment Plant Project, Lake Forest,
Orange County, California (ESA).
Third Party Review for SES Solar Two Project, Imperial Valley, Imperial County, California.
Paleontological Assessment Report For The Havasu Springs Project, Havasu Lake, San Bernardino: Tentative Parcel Map Number 19169 And Plan Tract Number 8284 (Apn# 0649-201-43).
Sewer 703 Project, City of San Diego, San Diego County, California.

This partial list of our experience demonstrates our diversity of pipelines and energy projects and variability on construction procedures. Each project's approach of construction varied widely from trenching to directional boring to mass grading. We have conducted surveys and completed large-scale construction projects that are an equivalent order of magnitude, if not greater than the Ocotillo Project (~15,000 acres).

Our team uses an interdisciplinary compliance monitoring and survey approach that is integrated with the government agencies, construction and engineering plans and is designed to eliminate confusion regarding which areas require monitoring. I have included key staff member's resumes and details are outlined in them. If awarded the contract, we can submit the remaining resumes of field technicians as necessary. Please keep in mind this is a partial list of our staffing resources available.

CURRENT RELEVANT PROJECTS AND CLIENT REFERENCES:

Project: I-805 at La Jolla Village Drive
Client: Caltrans District 11
Contact: Karen Crafts, 619.688-0188

Paleo Solutions is responsible for paleontological monitoring during construction improvements to the I-805 at La Jolla Village Drive in San Diego County, California. This ongoing project traverses paleontologically sensitive rock units within coastal San Diego, and will require a final technical report for submittal to Caltrans District 11.
Project: Marblehead Coastal (between Avenida Hermosa and Avenida Pico, San Clemente, CA)
Client: SunCal Companies

As paleontologist, Ms. Sarah Siren was responsible for a paleontological assessment of the 266-acre property, and oversight of paleontological resource monitoring during rough grading. An archaeological survey was designed and implemented in consultation with the California Coastal Commission and local Native Americans. Survey methods were tailored in response to specific California Coastal Commission concerns regarding ground surface visibility, historical land use, previously recorded archaeological traces, and diverse development impacts. A detailed archaeological, Native American, and

paleontological monitoring and discoveries treatment plan was successfully developed to address California Coastal Commission, Native American, and City of San Clemente concerns. A final technical report of discoveries, including a partial marine mammal skeleton from the Capistrano Formation and Ice-age megafauna from the overlying terrace deposits, was submitted to the client.

Project: Southern California Edison Company Tehachapi Renewable Transmission Project (TRTP)
Client: Pacific Legacy (SCE)
Contact: Thomas Jackson, Arnold, 209.795.4481 ext 15

Paleo Solutions was hired by Pacific Legacy to conduct all paleontological monitoring services of the proposed construction sites for Southern California Edison's (SCE) Tehachapi Renewable Transmission project (TRTP), and other associated Areas of Potential Effects (APE's) including but not limited to areas in the counties of Los Angeles, Kern, and San Bernardino, California. The APE's include but are not limited to surveying and grading for access roads, pulling and splicing locations, marshalling and staging yards, shooflies, and tower erection sites. Our services are conducted in order to assist SCE with compliance responsibilities under California Environmental Quality Act (CEQA), National Environmental Policy Act (NEPA) and federal paleontology guidelines, using Society for Vertebrate Paleontology (SVP), and Bureau of Land Management's Potential Fossil Yield Classification System (PYFC) systems and guidelines.

Paleo Solutions joined this team January 2010 and is contracted through 2013. We have acquired all proper permits for the TRTP project to conduct paleontological investigations in the Angeles National Forest (U.S.D.A Forest Service). We have assisted with the Paleontological Resources Monitoring Plan (PRMP), surveyed APE's prior to construction, monitored construction activities (boring, trenching, and grading), and report writing summaries with results and recommendations. Our team is very aware of proper lines of communication, especially on a large-scale project that have multiple disciplines constantly interacting.

Project: Southern California Edison (SCE) Orange County Access Roads Maintenance -YR 2010
Cultural Resources Impact Avoidance Protocol (2010-present)
Client: Southern California Edison (SCE)
Contact: David C. Hanna, Jr., Rosemead, 949.322.0600

Paleo Solutions was hired by Southern California Edison, and is teamed with Ecorp Consulting, Inc. This overview describes the Cultural Resources Impact Avoidance Protocol (Protocol) for YR 2010 annual maintenance of Southern California Edison (SCE) dirt access roads by the Orange County Fire Authority (OCFA).

The Protocol was developed as a practical tool for managing SCE compliance with laws relating to archaeological and historical resources, among which are the following.

National Environmental Policy Act (NEPA)
Coastal Zone Management Act (CZMA)

National Historic Preservation Act (NHPA)
Native American Graves Protection and Repatriation Act (NAGPRA)
California Environmental Quality Act (CEQA, Public Resources Code § 2100 et seqem)
California Health and Safety Code § 7050.5

In 2010 Paleo Solutions was hired by SCE to work with ECORP to document for the cultural resources portion, which include information regarding the location and condition of archaeological sites recorded at or near the access roads, and recommends impact avoidance measures for future years in implementing the Protocol for 73 known archaeological sites. It is founded upon a tripartite categorization of sites. These categories include Pre-Documentation, Compliance Monitoring, and Post-Documentation of the access roads. This project is located on California State Parks, Orange County State Parks, Irvine Ranch Conservancy, the Irvine Company, and the San Onfre-Santiago #2 230 kV and San Onofre-Viejo 230 kV corridor easements.

Project: Southern California Edison (SCE)-El Casco System Transmission Line, Beaumont, Riverside County, California.
Client: LSA Associates, Inc. (SCE)
Contact: Roderic McLean, Carlsbad, 949.678.3326

Paleo Solutions was hired by LSA Associates, Inc to conducted paleontological monitoring services for the El Casco System Project for Southern California Edison (SCE). This includes the proposed El Casco Substation site, upgrades to the Zanja and Banning Substations and the SCE's Mill Creek Communications Site, upgrades to a total of 15.4 miles of existing 115 kV sub-transmission line and associated structures, and the installation of fiber optic cables within existing conduits in public streets and on existing SCE structures between the Cities of Redlands and Banning. All portions of the Proposed Project are located within Riverside and San Bernardino Counties, California. Paleo Solutions salvaged significant Ice Age Fossils from the San Timoteo Formation and have helped refine the age of the sediments in this area (~1.8 to 1.3 million years old). We specifically discovered ground sloths (rare-specie), saber-tooth tigers, horse, plant material, and numerous microfossils (snake, lizard, birds, gastropods (snails), etc.). The San Timoteo formation contains fossils of land animals and represents sediments deposited from about 3.5 to 0.7 million years ago, during Late Pliocene to middle Pleistocene time. The presence of non-marine fossils within a sequence of rocks spanning such a long time has lead to several studies of the depositional environments and paleontology of the formation. The fieldwork was complete in April 2010 and the extensive collection is being prepared and matrix samples sorted in preparation of the final report.

Paleo Solutions has teamed with LSA on the following SCE projects listed below:

Assessments:
Paleontological Review, Proposed Devore Substation Project, San Bernardino County, California (IO 307041), Southern California Edison (LSA).
Paleontological Review, Proposed Horsetown Substation Project, Riverside County, California (CWA 1: IO # 306687), Southern California Edison (LSA).
Monitoring:

El Casco System-Transrnission Line, Southern California Edison, Riverside County, California (LSA).

Project: Nacimiento Water Project, San Luis Obispo County (2008-2010) AND IRWD Survey Reports
Client: ESA Associates
Contact: Mitch Marken, Ph.D, Los Angeles, 310.971.1500

Paleo Solutions was contracted by ESA to conduct all paleontological surveys and to develop and implement a mitigation plan and rnonitoring services for all aspects of the 46-mile water pipeline being installed frorn Lake Nacimiento extending to the southern portion of the county including Camp Roberts National Guard Base. Construction includes rnostly trenching and boring procedures. This paleontological monitoring program begun March 2008 and ended December 2009. This project is complete.

Paleo Solutions also worked closely with Albion Environmental on this project.

We have also conducted several paleontological sensitivity assessrnent surveys for ESA for the Irvine Water District with the completion of two technical reports:

Paleontological Assessrnent Sensitivity Report and Survey for the Irvine Water District-Baker Regional Water Treatment Plant Project, Lake Forest,
Orange County, California (April 2009).

Paleontological Assessment Sensitivity Report for the Irvine Water District (IRWD)-Wells 1, 21, and 22 Project, Tustin, Orange County, California (December 2009).

Project: Ocotillo Express, Imperial County, California:
Client: ASPEN Environmental Group
Contact: Jon Davidson, Agura Hills, 818.597.3407 ext 343

Paleo Solutions was contracted by ASPEN to conduct all paleontological related services starting March 2010-present. This includes proper BLM authorization and permitting to conduct surveying and a research design for field reconnaissance related to EIS/EIR documentation for 15,000 acres in Ocotillo. This project is the future horne of wind turbines. This paleontological prograrn begun March 2010 and is still in progress.

Pattern Energy, through Ocotillo Express LLC (OE LLC), proposes to construct, operate, maintain and decommission a 561 rnegawatt (MW) wind generation facility on approxirnately 14,980 acres in the Ocotillo Express wind project area (Figures 1 and 2). OE LLC acquired frorn Greenhunter, another developer, its rights to approxirnately 5,915 acres of BLM adrninistered Lands and OE LLC also acquired from its affiliate Wind Developrnent Contract Co. its application for an additional 8,878 acres of adjacent BLM administered lands. OE LLC also has entered into an agreement with the owner of approxirnately 26 acres of private land near the center of the wind project area for wind monitoring. The three separate parcels are consolidated into a single 561 MW wind project in this Plan of Development.

The proposed action consists of the construction, operation, maintenance and decommissioning of wind turbine generators and associated facilities necessary to successfully generate up to 561 MW in Imperial County west of Ocotillo, California. Ocotillo is located in Imperial County, California at the intersection of Highways 8, 89, and Imperial and adjacent to the US-Mexico border.

Surface disturbing activities may cause direct adverse impacts to paleontological resources through the damage or destruction of fossils; or loss of valuable scientific information by the disturbance of the stratigraphic context in which fossils are found. Indirect adverse impacts may be created by increased accessibility to important paleontological resources leading to looting or vandalism (BLM H-8270-1; BLM IM 2009-011). Paleo Solutions has been retained by Aspen Environmental Group to identify and analyze possible effects to significant paleontological resources within the study area for the Ocotillo Wind Express Project. The direct effects of all proposed surface disturbing activities and the indirect effects of increased public access and land tenure adjustments will be considered in the analysis. The paleontological assessment will include an initial analysis of existing data in order to determine whether further analysis will be necessary. All paleontological work will be conducted in consultation with Carrie Simmons, BLM Archaeologist in the El Centro Field Office. The BLM Authorized Officer and/or Project Leader will also be consulted on all final paleontological resource decisions. The purpose of this paleontological assessment is to determine the existence and general areal extent of any potentially fossiliferous geologic formations within the project area that may be impacted by construction activities.

GOOD FAITH EFFORTS DOCUMENTATION - DBE

DES-OE-0102.11A (NEW 06/2012)

2. List the names of certified DBEs and the dates on which they were solicited to bid on this project. Include the items of work offered and the dates and methods used for following up initial solicitations to determine with certainty whether the DBEs were interested. Attach copies of solicitations, telephone records, fax confirmations, etc.

Name of DBEs Solicited	Date of Initial Solicitation	Item(s) of Work	Follow Up Methods and Dates
See attached DBE Good Faith Effort Documentation - Attachment A- Item #2			

3. For each item of work made available, list the selected firm and its status as a DBE, the DBEs that provided quotes, the price quote for each firm, and the price difference for each DBE if the selected firm is not a DBE.

Item(s) of Work	Name of Selected Firm	DBE or non-DBE	Name of Rejected Firm	Quote ($)	Price Difference ($)
See Attached DBE Good Faith Effort Documentation - Attachment A - Item #3					

If the firm selected for the item is not a DBE, provide the reasons for the selection on a separate sheet and attach names, addresses, and phone numbers for the firms listed above.

STATE OF CALIFORNIA - DEPARTMENT OF TRANSPORTATION

GOOD FAITH EFFORTS DOCUMENTATION - DBE

DES-OE-0102.11A (NEW 06/2012)

4. List the names and dates of each publication in which a request for DBE participation for this project was placed by the bidder. Attach copies of published advertisements or proofs of publication:

Publications	Dates of Advertisement
See Copies of Advertisements- Attachment A - Item #4	
Caltrans Website	10-30-13
State of CA Website - Bid Sync	11-5-13
DBE Good Faith Effort	11-7-13
Compliance News	11-6-13

5. List the names of agencies and the dates on which they were contacted to provide assistance in contacting, recruiting and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.

Name of Agency	Date of Contact	Method of Contact	Results
See Copies of Documents - Attachment A - Item #5			
Caltrans Websitie	11-4-13 Exported to .xls	Website	Obtain list of DBE subs
MBDA Riverside	11-7-13	sent email	No response
Contractors Assistance Ctr	11-7-13	sent email	No response

6. List efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. Identify the DBE assisted, the information provided, and the date of contact. Provide copies of supporting documents.

Invitation to bid provided a website and ftp link where plans and specs can be viewed and printed from

7. List efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, materials, or related assistance or services, excluding supplies and equipment the DBE subcontractor purchases or leases from the prime contractor or its affiliate. Identify the DBE assisted, the assistance offered, and the date. Provide copies of supporting documents.

Invitation to bid stated that we would assist in obtaining necessary equipment , supplies, materials or related assistance in bonding.

8. Include additional data to support a demonstration of good faith efforts.

See Attachment A - Item #6 HHCI has an established Disadvantage Business Liaison for the Firm, Mrs. Cabral, who is responsible for the development and execution of Individual small business Subcontracting plans and monitoring performance.

NOTE: USE ADDITIONAL SHEETS OF PAPER IF NECESSARY.

Subject: Re: 2nd REQUEST - BID INVITATION - 13190 CALTRANS UPGRADE EXISTING ROADSIDE REST AREA CV KANE BARSTOW - REBID 08-0G840

Denia, I reviewed the bid specs and there is nothing I can do on this job, last may there was 850 CY of sludge that needed transport, but the updated CalTrans dosen't show that requirement anymore.

Am I missing something?

I noticed on the lead and transite pipe disposal report there maybe some, I can do that, but no pipe has been identified.

Please advise with your team. Thank you

Thomas M Abercrombie

Hi

I wanted to follow up with you to make sure you will be "Re-biding" the Caltrans Rest Area.

WE WANT TO WIN IT THIS TIME...We are going after very aggressively. ☺

Please respond to this email to let me know if you WILL or WILL NOT be bidding, I would really appreciate it.

Traffic Control System - Day or Night - Job # 08-0G8404

1 impact attenuator vehicle with driver $915.00 per 8 hour shift
1 man lane/ramp closures $945.00 per 8 hour shift
2 man lane/ramp closures $1,470.00 per 8 hour shift + 4@190 = 2230
3 man lane/ramp closures $2,370.00 per 8 hour shift - IAV included

All KRC SAFETY traffic control trucks consist of the following:

- Up to 300 cones, (2) arrow boards, applicable equipment to close 2 lanes in same direction and or 1 lane in opposite directions, applicable on/off ramp closure equipment for up to 2 ramps within the closure, (6) beacons with batteries, & (24) flag stands. All traffic control trucks are also equipped with (1) T13 setup.

Please add the following amount to any shift price above:

- $50.00 per additional arrow board per shift

Traffic Control Notes:

- If less than 3 consecutive shifts are performed please add 10% to quoted traffic control rates
- Cancelations made less than 8 hours notice of requested show up time will be charged at 40% of quoted rates, all cancelations MUST be received in written form, via fax or e-mail.
- Impact attenuator vehicle (IAV) & TC crews **subject to availability**
- If contractor elects to use (1) man lane closure option contractor must supply KRC with a qualified, knowledgeable traffic control tech to help set out and pick up equipment.
- Time starts when first piece of equip. is placed and ends when last piece of equip. is picked up.
- Please allow 30-90 minutes on each side of shift for placing and removing equipment.
- All overtime (8-12 hours) will be charged at $95.00 per hour per man
- All double time (over 12 hours) will be charged at $105.00 per hour per man
- All Saturday traffic control rates multiply by 1.45
- All Sunday traffic control rates multiply by 1.85
- ***KRC does not charge additional fees for additional closures within the shift. We will set up and take down as needed within the work shift for the price you see quoted with the equipment mentioned above.***

Impact Attenuator Vehicle (IAV) - Rental Only - Subject to Availability

- $350.00/day : $1,500.00/week : $3,500.00/month (month rate based on 30 calendar days)
- $400.00 delivery fee per pcms : $400.00 pick up fee per pcms
- Free pick up and drop off at KRC SAFETY's yard in Los Angeles

ATTACHMENT A

Job # 08-0G8404 Bid Date: 11-21-2013

1 KRC SAFETY CO., INC. is signatory to the Laborers of Northern California, Construction Laborers of Southern California and the Operating Engineers.

2 Unless otherwise noted on quote, all subsistence and travel pay is included in all prices.

3 KRC SAFETY CO., INC. is recognized by the Department of Transportation as a Certified Disadvantaged Business Enterprise (DBE) ~ (Certificate # 000447) Expires 11/23/2014, SBE (Certificate # 0006897), MBE (Certificate # 9IS00114)

4 Concrete nr asphalt coring / patching is NOT included in any quoted Items.

5 Unless noted on bid, traffic control is NOT included in the installation, removal, or repair of any items.

6 KRC SAFETY CO., INC. requires a, 12 WORKING DAY WRITTEN NOTICE IN ADVANCE, prior to commencement of work, including installation and removal of signs. Additionally, an Executed subcontract or purchase order must be on file with this office prior to the start of work.

7 This quote shall remain valid for a period of 45 days from actual bid opening unless otherwise agreed upon in writing.

8 Contractor agrees to provide personnel for up to 5 to 10 minutes per KRC employee for relief break periods as needed due to weather and heat conditions to meet CAL OSHA heat illness prevention requirements.

9 Lump Sum price for Construction Area Signs includes: USA Notification, installation, removal and INITIAL dating of any ramp signs. Contractor will be responsible for maintenance and changing dates on signs as required. All construction area signs are considered rental and shall remain property of KRC SAFETY CO., INC. at the conclusion of project. Per KRC standard rental agreement prime contractor will be charged replacement cost for any signs, lumber or barricades missing and or damaged at conclusion of project. This amount must be paid in full within 30 days by the contractor, retention shall not be held on this amount.

10 Prior to KRC SAFETY CO., INC. installing any signs contractor must have proper agency (i.e. Caltrans, County, City, etc.) mark out all sign locations. Proper agency must also mark out their underground utilities and or pipes that are not located by USA. Agency will be responsible for lines hit that are not marked out by their forces. Therefore KRC SAFETY CO., INC. will not be responsible for any damage done to agencies utilities and this will become the responsibilities of the contractor and or the representing agency.

11 Bid item 4 includes (2) mobilizations. Additional mobilizations will be charged at $1,200.00 each.

12 KRC SAFETY CO., INC. will not provide performance or payment bonds to the contractor.

13 Retention will not be held on traffic control work.

14 Compliance with Section 7108.5 of the Business & Professions code and any other statutes pertaining to prompt payment must be complied with and are and MANDATORY.

15 KRC SAFETY CO., INC. requests an invitation to all pre-job conferences.

16 Notification must be given to KRC SAFETY CO., INC. prior to any work performed as EXTRA-WORK nr Force Account. If notification is not received, KRC will bill at usual rates and full payment will be the responsibility of the contractor.

17 Contractors State License #507950 Expires 03/31/2015 (Class A & C31)

18 Portable Changeable Message Signs are strictly RENTAL, retention will not be held on rental equipment.

19 KRC SAFETY CO., INC. maintains Commercial General Liability Insurance with limits of $1,000,000 each occurrence $2,000,000 aggregate. Additional Insured and Hold Harmless are given only in respects to KRC SAFETY CO., INC. work. KRC SAFETY CO., INC. carries $5,000,000 excess liability. Any additional liability limits or additional endorsement, including Waiver nf Subrogation (add $300.00 per policy period) requested by Prime Contractor and not provided by KRC SAFETY CO., INC. will be charged to and will be the responsibility of the Prime Contractor. Railroad insurance requirements excluded from this quote.

20 Sign panels for permanent items supplied by KRC SAFETY must be given 45 days advanced notice prior to being needed.

21 Force account rates will be charged to the contractor for any onsite training or meetings required.

22 **Should this quote be accepted by the contractor, Attachment A in its entirety shall become part of any and all subcontract agreements and/or Purchase Orders relating to this project. This quote shall be deemed accepted if a contractor lists KRC in its bid or if this quote is used by a subcontractor in its bid to a prime contractor.**

SUPPLIER CLEARINGHOUSE
CERTIFICATE OF ELIGIBILITY

CERTIFICATE EXPIRATION DATE: **12-31-2015**

The Supplier Clearinghouse for the Utility Supplier Diversity Program of the California Public Utilities Commission hereby certifies that it has audited and verified the eligibility of:

KRC Safety Co., Inc.
of Visalia, California as a MBE

pursuant to Commission General Order 156, and the terms and conditions stipulated in the Verification Application Package. This Certificate shall be valid only with the Clearinghouse seal affixed hereto.

Eligibility must be maintained at all times, and renewed within 30 days of any changes in ownership or control. Failure to comply may result in a denial of eligibility. The Clearinghouse may reconsider certification if it is determined that such status was obtained by false, misleading or incorrect information. Decertification may occur if any verification criterion under which eligibility was awarded later becomes invalid due to Commission ruling. The Clearinghouse may request additional information or conduct on- site visits during the term of verification to verify eligibility.

This certification is valid only for the period that the above named firm remains eligible as determined by the Clearinghouse. Utility companies may direct inquiries concerning this Certificate to the Clearinghouse at 800-359-7998 in Los Angeles.

WE ARE A DBE

MARINA LANDSCAPE, INC.
EROSION CONTROL / SWPPP
1900 S. Lewis Street
Anaheim, CA 92805
Main Office: (714) 939-6600

Project: **CT 08-0G8404**
Location: **BARSTOW / SACRAMENTO**
Bid Date: **11/21/2013**
Bid Time: **2:00 PM**

Item	Description	U/M	Quantity		Unit Cost		Total
	EROSION CONTROL						
	(excluding all maintenance & removal of erosion control items listed below.)						
10	TEMPORARY SOIL BINDER	SY	5,000	$	0.485	$	2,425.00
11	TEMPORARY FIBER ROLL	LF	5,700	$	2.46	$	14,022.00
	TOTAL					$	16,447.00
	SWPPP						
	Work Days Total		*250*				
	Risk Level		*1*				
	Marina's QSD/QSP will be the project's Water Pollution Control Manager. The California General Stormwater Permit permit also requires a Qualified Stormwater Practitioner (QSP) perform weekly inspections and pre-, during- and post-rain event inspections of all BMPs. Marina will provide a QSP to complete all inspections including reports and photographs for the project duration. The QSP will also provide SWPPP training of the General Contractor's personnel as required by the State Permit. The QSP will monitor the weather and inform the Superintendent of forecasted rain events, and will organize and update the SWPPP Binder and related filing system. 3 Stormwater Annual Reports will be prepared and uploaded to the SMARTS system.						
2	CONSTRUCTION SITE MANAGEMENT (Includes QSD/QSP weekly jobsite management and BMP inspections and reports, 1 SWPPP training session, rain guage installation and NOAA monitoring. Includes SWPPP Binder maintenance.)	LS	1	$	18,700.00	$	18,700.00
8	PREPARE STORM WATER POLLUTION PREVENTION PLAN (3 hard copies in tabbed binders and a .pdf file)	LS	1	$	2,450.00	$	2,450.00
9	STORM WATER ANNUAL REPORT	EA	3	$	1,250.00	$	3,750.00
	TOTAL SWPPP					$	24,900.00

Additional Clarifications and Exclusions:

Unit prices in effect if quoted quantity for any item is exceeded.
Additional QSD/QSP Services at $150.00/Hour.
All Dewatering Activities Are Excluded.
BMP Chemical Treatments Are Excluded.
Storm Water Permit Fees Are Excluded.
Marina's approval required to split bid items

Item # 10 low BID

I hereby accept the terms & conditions of this proposal

Re: **CALTRANS 08-0G8404 UPGRADE EXISTING ROADSIDE REST AREA – BARSTOW ONLY**
Bid Date: 11/21/13

Proposal:

BWW & Company proposes bid item numbers 29, 38-39, 43 Includes labor and equipment. This includes one-time move on and move off only.

You provide and maintain all barricading and traffic control. All work is figured for daytime work, regular hours, if not, you will be charged cost, plus 10%.

No engineering, testing, nor survey, no permits, assessments, no other fees, no utility relocations, no as-built drawings, no traffic control, no removal, no handling, or responsibility of any kind for hazardous waste or materials.

BWW & Company excludes all fencing, shoring, permits and fees. BWW & Company is not responsible for liquidated damages due to scheduling by others for this project. No surface sand bagging of any kind will be maintained.

BWW & Company provides $1,000,000 in general liability insurance and $2,000,000 in aggregate. Any additional insurance to be paid for by others, additional coverage up to $5,000,000, add $4000 to our quote at this time. We will provide for CG 2010-11/85. No bond premiums are included in our quote.

Line items 29 and 43 are combined for a total of $58,676.52, and line item 38 is $178.64 per LF for a total of $144,698.40 and line item 39 is $6,000.00.

Respectfully submitted,
Bobby W. Wilson

Partial item 38 Precon

PRE-CON PRODUCTS TERMS AND CONDITIONS

1. **Purchase Price.** The Purchase Price specified on the face of this invoice is and shall be considered a lump sum price for the sale and/or installation of the Products based upon the aggregate prices of the time and material components of the Purchase Price including installment charges, if any, as have been separately stated.

2. **Payment.** Payment in full of the Purchase Price, including transportation costs, shall be due thirty (30) days after delivery. Interest at the rate of eighteen percent (18%) per annum shall accrue on the unpaid balance, and on any other charges or expenses payable by Buyer, from the due date until paid in full. Seller reserves the right to forthwith cease all further deliveries if timely payment in full has not been received.

3. **Price Change.** The Purchase Price is binding on the Seller only for the period indicated, and prices are subject to change without notice. The possession of price sheets or catalogs by any person should not be construed as a binding offer to sell by Seller. Price changes made by Seller shall apply to all materials covered by this contract and delivered after said period, provided that delivery is not delayed due to any fault of the Seller.

4. **Delivery.** Seller will deliver the Products to the job site, and if requested in writing by Buyer, Seller shall install, attach and affix the Products to their final location using Seller's trucks, trailers and personnel. The unloading, placement and installation of the Products shall be the sole responsibility of Seller based upon the reasonable directions and requirements of Buyer, unless otherwise agreed in writing. Buyer shall provide and maintain suitable access roads to the delivery site and protect utilities and adjacent structures.

5. **Installation.** In the event Seller is required to install the Products pursuant to Buyer's request, Seller shall further furnish all tools, equipment, labor, materials, structures and accessories which may be required or necessary to properly install and affix to the job site all of the Products. Seller makes no representations or guaranties, nor assumes any responsibility regarding the proper location, alignment, depth size, bedding, supports, physical requirements, base, backfill, compaction or any other condition affecting the placement or installation of the Products specified by Buyer, which responsibilities are exclusively borne by Buyer. Seller assumes no responsibility for water infiltration into any Product placed into any excavation.

6. **Capacity.** Seller shall be deemed a construction contractor for all purposes if Seller is required to install and affix the Products according to the plans and specifications of Buyer. Buyer's payment of the Purchase Price shall not be reduced or subject to any offset, retention, back-charge or other claims by reason of any term or condition not contained herein.

7. **Title.** Seller shall retain title to all Products until the full Purchase Price has been paid and, if Seller is responsible for the installation of the Products, until the Products have been attached to, incorporated in and affixed to their final position by Seller.

8. **Sales Tax.** The Purchase Price of the Products is based upon the assumption that Seller shall install and affix the Products, provided that in the event Buyer does not elect or contract with Seller to install the Products, then Buyer shall be further liable and responsible for the payment of all sales or use tax computed on the gross Purchase Price of the Products.

9. **Warranties.** Seller only warrants that the Products shall conform to the specification thereof and shall be free from defects in labor and materials for a period of one (1) year from date of delivery. If the Products should be found to be defective then upon written notice and after the return of the Product at Buyer's expense to Seller's business premises, Seller shall replace the Product with a duplicate Product free from defect without charge, but without further expense to Seller. SELLER MAKES NO OTHER WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, AND SELLER HEREBY EXPRESSLY DISCLAIMS ALL OTHER IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE OR PURPOSE. EXCEPT FOR THE REPLACEMENT OF ANY DEFECTIVE PRODUCTS AS SET FORTH ABOVE, SELLER SHALL NOT BE LIABLE OR RESPONSIBLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, COSTS, EXPENSES OR LOSSES SUFFERED BY BUYER, INCLUDING ANY CLAIMED OR ALLEGED DELAY DAMAGES, RESULTING FROM OR CAUSED BY DEFECTIVE PRODUCTS SUPPLIED BY SELLER. Products sold by Seller, but not manufactured by it, are warranted only to the extent such Products are warranted to Seller by the supplier.

10. **Inspections.** Buyer shall inspect the Products for any broken, chipped or other visible defect or deficiency prior to unloading the same and seller shall have no liability for any such deficiencies unless Buyer provided written notice to Seller on the shipping/delivery document evidencing Buyer's receipt of the same. All other inspections of the Products shall be made by Buyer within five (5) days from Seller's delivery of the products to the job site, at Buyer's sole cost and expense, for correct size, symmetry, depth and quality consistent with allowable tolerances and variations consistent with usual trade practices. Unless written notice of rejection is timely received by Seller, it is conclusively deemed that the Products meet with the Buyer's purchase requirements and are complete in accordance with the description of the Products.

11. **Returns.** Products shall not be returned by the Buyer without prior written acceptance by the Seller. The amount of credit to be given, if any, shall be determined by the Seller after inspection of the Products upon return to Seller's business premises.

12. **Quantity.** When the Buyer requests a reduction in total quantity of the Products ordered of more than ten percent (10%) for any category of Products listed, Seller may at its option increase the unit price of the Products a reasonable amount to offset the reduction in quantity.

13. **Scheduling.** Seller's delivery of the Products is based on its present estimate of the time required to ship after receipt of Buyer's order. ACCEPTANCE BY BUYER OF ANY PRODUCTS WITHOUT WRITTEN OBJECTION SHALL CONSTITUTE A WAIVER BY BUYER OF ANY CLAIM FOR ACTUAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ON ACCOUNT OF ANY DELAY IN DELIVERY OF SUCH PRODUCTS.

14. **Ordering Odd Lengths.** The Purchase Price is based upon furnishing not over two percent (2%) of total Products sold having standard four-foot lengths, unless otherwise agreed in writing on the reverse hereof. An additional charge will be made for any excess in such percentage. All pipe and Products will be billed at nominal lengths (4' or 8') and no allowance shall be chargeable for shortage due to bevelling.

15. **Default.** Upon any default by Buyer under this contract, Seller, at its option, may cancel the unfilled portion of this contract, and the full Purchase Price for all Products manufactured by Seller for Buyer under this contract, whether or not delivered to the job site, shall, at Seller's sole option, become immediately due and payable, the exercise by Seller of any of its rights under this contract shall not bar Seller from exercising any other rights or remedies under the applicable lien laws against the property where the Products are placed or installed. In the event of default in payment, or any other breach, Seller may retake possession of the Products wherever they may be found, and may resell the same without notice to Buyer, applying the amount so received to the balance due. Seller may otherwise exercise all rights and remedies available to Seller in accordance with California law.

16. **Sale Contract.** This contract is subject to acceptance only on the terms and conditions stated in this offer. This contract shall not be subject to modification except by an agreement in writing signed by both parties. Any additional or different terms and conditions proposed by Buyer, either before or after this offer, are hereby rejected.

17. **Force Majeure.** The Seller shall not be liable for delays or other failure to perform because of any delays in manufacture or delivery due to unforeseeable causes beyond the control and without the fault or negligence of the Seller, including, but not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, excessive traffic, major equipment or transportation failures, delays or defaults of third parties, freight embargoes, unusually severe weather or delays of subcontractors or suppliers due to any causes and non availability of materials. All claims for delay in delivery of the Products shall be deemed waived unless presented in writing concurrently with acceptance of the Products. Delays in delivery, for whatever reason, shall not be cause of cancellation of this contract by Buyer. The parties hereto acknowledge that the amount of damages suffered or incurred by Buyer as a result of any delay in the delivery of Products which is caused by Seller's neglect or default shall be incapable of accurate measurement and that the parties hereby agree that Seller shall solely be liable to Buyer in such event in an amount equal to Fifty Dollars ($50) per day of delay which amount shall constitute the sole and exclusive measurement of damages suffered by Buyer due to any such delay damages.

18. **Bid Jobs.** On bid jobs, this contract shall be binding on the parties only (a) for deliveries within sixty (60) days from the date on this contract and (b) if Buyer is awarded either from a general or subcontract embracing the use of the Products.

19. **Taxes Not Included.** The Purchase Price is exclusive of all state or local sales or use taxes and all other taxes of any governmental or public agency, applicable to this order unless specifically included.

20. **Indemnification.** Buyer expressly agrees to indemnify, defend and hold Seller harmless from and against all claims, demands, losses, expenses, costs, including reasonable attorney's fees, liabilities, suits or judgments of any kind or nature, arising out of, in connection with, or resulting from death or injury to persons and loss, damage or injury to property, caused or due directly or indirectly to the sale, delivery, installation, storage or use of the Products being provided to Buyer. Buyer further agrees to erect sufficient protective and warning devices at the time the Products are placed on the job site.

21. **No Assignment.** Buyer shall not assign this contract or any interest therein, without Seller's prior written consent.

22. **Risk of Loss.** Risk of damage or loss of the Products shall pass to the Buyer upon the transfer of title. Thereafter, Buyer shall be responsible for compliance of all governmental regulations and ordinances with regard to storage or placement of the Products.

23. **Attorney Fees.** In the event of any litigation, action or proceeding is commenced in connection with this contract, the prevailing party therein shall be entitled to recover its reasonable attorney's fee and court costs.

24. **Storage.** In the event Buyer does not accept delivery of the Products in accordance with the delivery schedule agreed upon between the Seller and Buyer, Seller will store the undelivered Products on its business premises for a period of thirty (30) calendar days beyond the scheduled delivery date; provided that Seller will charge Buyer an amount equal to one and one-half percent (1½%) for each month, or any portion thereof, of the Purchase Price for the undelivered Products from the scheduled delivery date, payable monthly, and continuing until delivery of the Products or the termination of this contract whichever shall last occur. Seller shall have the right to cancel this contract, retain any deposits or prepayments, and recover the remaining balance of the full Purchase Price of any undelivered Products, plus interest thereon at the rate of one and one-half percent (1½%) per month until paid in full, if Buyer shall not accept delivery, for any reason whatsoever, within ninety (90) days from the scheduled delivery date.

25. **Disclaimer of Plans.** Buyer hereby acknowledges that in the event the Seller has provided any layouts, schematics, drawings or other plans to Buyer in connection with the placement, location or installation of the Products, any such plans were prepared solely for the benefit of Seller and Seller hereby disclaims, and shall expressly not be liable or responsible for, any loss, damage, expense or other injury suffered by Buyer, or claimed to be suffered or incurred by Buyer, with respect to or arising out of Buyer's use of such plans. Buyer shall solely be responsible for determining the numbers, lengths, configurations, layouts installations, dimensions and all other design parameters affecting the installation of the Products provided by Seller.

One(1) move-in allowed for curbs.
No addendums acknowledged.

FLAT work

Additional Provisions:

Bid price is based on construction during a normal eight (8) hour, five (5) day, forty (40) hour week. Weekend or night work is excluded.

Contractor shall disburse payments as work is completed and billed. Contractor shall make a minimum of 90% monthly progress payments based on submitted invoices and to pay the remaining 10% within 30 days after substantial completion of our work. Substantial Completion is defined as the stage in the progress of the work called for in this proposal when the work, or designated portion thereof, is sufficiently complete in accordance with the contract documents so that the General Contractor can utilize the work for its intended purposes. The contract work may be substantially complete even if there is punch list or warranty work that remains to be completed. The contract work may be substantially complete even if the work of other trades or contractors is required before the work can be used for its intended purpose. Should the owner reduce the amount of retention on progress payments to the Contractor, the same percentage retention reduction shall apply to payments to the subcontractor. Payments not made monthly shall incur carrying charges (interest) at the rate of 10% APR until paid.

Cost of furnishing additional insurance above our basic policy covering $1,000,000 per occurrence for bodily injury and property damages, any riders, attachments or endorsements required by contractor or buyer, which changes the cost of any insurance policy carried by SAMROD Corporation, said cost shall be borne by the buyer. Contractor recognizes that OCIP costs and Waiver of Subrogation costs are not included in our Scope of Work outlined above, and any such costs must be approved as change orders and paid upon commencement of our work.

Any additional work or changes to the contract must have a signed change order processed before that work can be accomplished. If the change order work is field directed, said change order work is deemed authorized and billable to the Contractor by Samrod Corporation when work is performed. Any change order billed shall be paid according to the same provisions as previously outlined above.

Initial___

SAMROD CORPORATION

151 EAST AVENUE H-8, LANCASTER, CALIFORNIA 93535
TELEPHONE: (661) 945-3602 • FAX: (661) 949-8536

In the event the Project is interrupted, delayed, or prevented by acts of God, fire, flood, wind, sabotage, acts of war or rebellion, labor disturbances, strikes, civil unrest, acts of Government or governmental officers, governmental law or regulation now or hereafter in effect, or for delays or disruptions caused by SAMROD's suppliers, accidents, necessary repairs to equipment or machinery, adverse weather conditions, or any cause beyond the control of SAMROD, SAMROD shall be absolved of any responsibility therefore. In the event of any of the foregoing, SAMROD shall have the right to allocate and reschedule SAMROD's performance of work on the Project as SAMROD, in its sole discretion, shall deem fair and practical, without liability to SAMROD. SAMROD Corporation shall not be held responsible for damages to our work if said damages are as a result of others.

Disputes: Any controversy, dispute or claim arising out of or relating to this proposal, or any contract enter pursuant to this proposal, or breach thereof, shall be settled by binding arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association in effect at the time the Demand for Arbitration is filed. The venue for any arbitration shall be the Los Angeles office of the American Arbitration Association unless the arbitrator, for good cause, orders the arbitration to be held at a different location. Demand for Arbitration shall be filed within a reasonable time after the occurrence of the event or breach giving rise to the dispute and not later than the expiration of the applicable statute of limitations for bringing and action on the claim or dispute in civil court.

In no event shall SAMROD be liable for special, incidental, or consequential damages howsoever arising out of SAMROD's performance of this contract and notwithstanding whether SAMROD may have been advised or is advised of the possibility of special (or liquidated) damages.

Attorney's fees: In the event any party to this Agreement shall be required to commence any action or proceeding, including arbitration, against the other party by reason of any disputes, or breach or claimed breach of any provision of this Agreement, to commence any action or proceeding, including Arbitration, in any way connected with this Agreement, or to seek a declaration of rights under this Agreement, the party prevailing in such action or proceeding, including Arbitration, shall be entitled to recover from the other party, or to be reimbursed, the prevailing party's actual attorneys fees and costs incurred in good faith in such action. It is the intent of the parties to this Agreement to fully compensate the party prevailing in any such action for all costs and fees incurred in good faith and such costs shall include, but shall not be limited to expert witness fees, consulting fees, witness fees, and any and all other or costs, whether or not the proceeding or action proceeds to judgment.

Samrod Corporation is a **Caltrans certified DBE**, certification number **CT-001080**.
Samrod Corporation is a **California Unified Certification Program (CUCP)** certified **DBE/MBE**, certification number **CCA – 6436**.

Prices good thru 12/31/14.

Samrod Corporation proposal to be incorporated into any subsequent contract provided by customer in it's entirety (mutual agreement of all contract language between both parties must be agreed upon).

For legal and insurance purposes, all accepted proposals require a signature and date. Should Contractor not sign and date this proposal, commencement of work as outlined in above Scope of Work shall be considered acceptance in full of this proposal in its entirety, including Scope of Work, Exclusions, Inclusions, and Additional Provisions.

CALIFORNIA UNIFIED CERTIFICATION PROGRAM (CUCP)

March 12, 2009

Mr. Michael Rodriguez
Samrod Corporation
151 East Avenue H-8
Lancaster, CA 93535

RE: DISADVANTAGED/MINORITY BUSINESS ENTERPRISE (DBE/MBE) RECERTIFICATION APPROVAL **File No. - 6436**

Dear Mr. Rodriguez:

We are pleased to advise you that after careful review of your application and supporting documentation, the City of Los Angeles has determined that your firm meets the eligibility standards to be recertified as a **Disadvantaged/Minority Business Enterprise (DBE/MBE)** as required under the U.S. Department of Transportation (U.S. DOT) Regulation 49 CFR Part 26, as amended.

Your firm will be listed in the California Unified Certification Program (CUCP) database of certified DBEs and the City of Los Angeles DBE/MBE/WBE directory under the following specific areas of expertise that you have identified on the business service form for contracting opportunities:

NAICS Codes	Description
236220	Commercial and Institutional Building Construction
237310	Highway, Street, and Bridge Construction
238110	Poured Concrete Foundation and Structure Contractors

Your DBE certification is good for five years from the date of this letter and applies only for the above codes. You may review your firm's information in the CUCP DBE database which can be accessed at the California Department of Transportation's website at www.dot.ca.gov/hq/bep/ and the City of Los Angeles DBE/MBE/WBE database at http://bca.lacity.org. Any additions and revisions must be submitted to the City of Los Angeles for review and approval.

After the five-year certification period, your entire file will be reviewed in order to ascertain continued DBE certification status. You will be notified of the pending DBE status review and any documentation update necessary prior to the expiration date.

The Regulations also require annual updates during this five-year period. In order to assure continuing DBE status, you must submit annually a DBE Declaration with supporting documentation, in the format, which will be sent to you. Based on your annual submission that no change in ownership and control has occurred, or if changes have occurred, they do not affect your firm's DBE standing, the DBE certification of your firm will continue until the five-year certification has expired.

PALEO SOLUTIONS
Paleontological and Archaeological Compliance and Consulting Services

DBE

November 19, 2013

Denia Lanza
Hal Hays Construction Inc.
4181 Latham St. Riverside Ca 92501

RE: Request for Proposal to Provide Archaeological and Paleontological Services for the C.V. Kane Roadside Rest Area 30 miles Northeast of Barstow in San Bernardino Ca., Caltrans District 8. Project number 08-0G8404.5.

Ms. Lanza:

Paleo Solutions is pleased to present this proposal to provide archaeological and paleontological services for the C.V. Kane Roadside Rest Area (Project number 08-0G8404.5), San Bernardino County, California. In response to your request, we have a qualified team with the requisite education, experience, capacity, and responsiveness required for this project. This proposal discusses our scope of work required to complete an archaeological and paleontological resource mitigation plan, daily rates for a field technician to provide monitoring during construction activities. Our monitoring program will be followed up by a final technical report. Paleo Solutions is registered as a small business with the State of California, with the Department of General Services (Procurement Division-SBE), is certified with the California Public Utilities Commission (CPUC) as a Women-Owned Business enterprise (WBE), and is certified with the California Unified Certification Program (CUCP), as a Disadvantaged Business Enterprise (DBE).

The Paleo Solutions team consists of highly trained technical staff possessing extensive experience working on Caltrans, BLM, and U.S. Forest Service-managed projects, in addition to transmission line, power plant, pipeline, and military base projects. Our expertise includes surveying, preparation of EIS/EIR sections, preparation of mitigation plans, and final technical reporting. Our staff is familiar with construction site protocol and etiquette, the various types of equipment operating on construction sites, operator communication, and personnel safety.

If any of the following conditions arise during construction, a change of scope may be required:

- Concurrent construction activities occurring in more than one area, such that more than one monitor is necessary.
- If required to work more than 8 hours in a day because monitoring or fossil recovery extends beyond an 8-hour day, time will be billed at time and a half and a change order will be required.
- Findings requiring additional curation or analysis.
- Additional funds are required for storage and/or transport of discoveries.
- Additional supplies and staff members are needed to complete recoveries or collections.

LOW BIDDER

Office: (562) 818-7713 • Fax: (626) 359-0712 • 911 S. Primrose, Unit J, Monrovia, CA 91016

- Archaeological and paleontological laboratory processing of discoveries for identification and analysis is required.
- Additional funds may be required for report production due to paleontological or archaeological discoveries.
- If human remains are discovered the coroner will be call upon and additional procedures would be required.
- Additional visits by project management, certified paleontologist or the RPA are required or requested.
- This proposal includes 2 consecutive weeks of monitoring. If additional monitoring or trips are required to the job site a change order will be required.

No laboratory funds have been included in this proposal. If additional funds for identification, curation or outside consulting are needed, a change order will be requested. Paleo Solutions has developed a cadre of workers that are cross-trained in archaeology and paleontology so that one worker may be able to perform the duties (such as construction monitoring) that might otherwise require two persons with separate expertise.

Necessary Permits:
All archaeological and paleontological services will be conducted under the direction of the Meghan Lamb, M.A., RPA, Principal Investigator in collaboration with Certified Paleontologist, Sarah Siren, M.S., Principal Investigator. All work will be conducted in accordance with guidelines set forth under CEQA, NEPA, and the Society of Vertebrate Paleontology (SVP).

Scope of Work:

Task 1. Mitigation Plan
Before commencement of monitoring/fieldwork for the project, a Mitigation Plan (plan) will be prepared. The plan will investigate and review the known resources present, research and cite appropriate literature, outline proper field techniques, monitoring procedures, collecting procedures, approved environmental awareness training program (if applicable), and outlines archaeologically and paleontologically sensitive areas based on the Caltrans Standard Environmental Reference (SER) Volumes 1 and 2 Guidelines. These will identify which areas should require monitoring during construction activities. A pedestrian survey for both archaeological and paleontological resources may be necessary based on environmental documentation (EIR) previously compiled and the results of our records search. This cost has been included in Task 1 incase this service is required. We would also like to request any applicable geotechnical, archaeological, and / or paleontological reports that have been completed for the project previously.

Subtask 1a – Archaeological Resources Plan
An archaeological resources plan will be produced that will be consistent with Caltrans and CEQA and/or NHPA requirements, as necessary. The report will include a project description, cultural setting, and recommendations for the mitigation program. In addition, it will include relevant maps and photographs.

Subtask 1b – Paleontological Resources Plan
The plan will include a records search to determine if previous fossil localities are known on or nearby the project alignment.

We understand that all project related information will be kept confidential. This task will be crucial to help develop and understand future work that will require monitoring for the duration of the project. We will map the existing archaeological and paleontological resources and highlight areas that are potentially sensitive for these resources. This will be utilized as a future guide to help determine the potential impacts of archaeological and paleontological resources, and cordon off any environmentally sensitive areas associated to cultural sites.

Task 2. Preconstruction Measures
If it is determined that we are needed during construction to provide monitoring, Paleo Solutions project manager shall attend the preconstruction meeting to discuss field procedures, procedures for archeology and paleontology, safety protocol and establish communications. Our Safety Officer will develop a Health and Safety Plan (HASP) prior to construction commencing. The site-specific safety plan will outline emergency procedures in remote locations, emergency contact information, which includes local hospitals locations and emergency responders, and project related safety issues. This will be reviewed and signed by each monitor prior to working on-site.

Task 3. Daily Field Monitoring
Paleo Solutions will provide a Field Technician during grading/excavation activities that impact archaeologically and / or paleontologically sensitive deposits. This will be based on Task 1 and future potential construction work. For the purposes of this proposal we have assumed we will be needed for 10 days. However this is only and estimate. If earth-moving activities require additional monitoring beyond our 10 day estimate a change order will be required to continue monitoring services. A daily rate for monitoring is provided below. All monitoring will be conducted under the direction of the Certified Archaeologist Meghan Lamb, M.A., RPA, and Certified Paleontologist Sarah Siren, M.S. The Field Technician will conduct daily procedures outlined in the plan. In addition, the Field Technician will attend on-site daily/weekly construction safety meetings as necessary, and help implement the workers environmental awareness program (WEAP), if requested.

Monitoring will be conducted on a full-time basis during such time that deposits with a high sensitivity is being impacted, and outlined in Task 1. If the monitor finds significant archaeological or paleontological resources, earthmoving activities shall be temporarily diverted around the fossil site until the remains have been recovered and the monitor agrees to allow earthmoving to proceed. If the size of a given discovery is unmanageable for a single monitor, additional assistance will be called upon on a time and materials basis. In this case a change order will be required.

If any human remains are discovered, all construction activity in the area of the discovery will be halted, and all applicable laws and ethics will be followed. The San Bernardino County Coroner will be notified immediately. If the coroner determines that the remains are Native American in origin, the coroner shall contact the Native American Heritage Commission (NAHC) in Sacramento. The NAHC will then

identify a Most Likely Descendent (MLD) who will recommend the appropriate and dignified disposition of the remains and any associated materials.

In the event that archaeological or paleontological resources are encountered during monitoring they will be mapped, photographed, recorded, and collected for later documentation that will be included in the final technical report. Map points will be taken with a GPS unit (Trimble, and/or Garmin). At a minimum, an overview photograph will be taken of each discovery site. All appropriate field notes and documentation will be recorded. A single point will be taken for isolated discoveries. Recordation will include the notation of all information required to fully complete a discovery form. In instances where sites contain large numbers of archaeological or paleontological resources, they will be generally quantified and described, and collected. If a find is too large for a single field technician to handle, additional staff will be called upon and overseen by the Field Director and/or Principal Investigator. These procedures will be properly outlined in the plan and in accordance with CEQA and SVP guidelines.

Monitoring will be increased or decreased based on the actual deposits being impacted during construction activities. This will depend on the sensitivity of the deposits being impacted and the nature of construction occurring.

Overtime will be billed at time and a half when the Paleontological Technician is asked to work more than 8 hours a day. This will be over and above the day rate. Scheduling will be coordinated with the Construction Manager and Caltrans. An 8 hour minimum will be billed for night work.

Task 4. Project Management
Paleo Solutions will provide Project Management services throughout the duration of the project. This will include tracking budgets, managing field personnel, attending and/or conference calling weekly construction meetings as requested. On-site inspections will occur as necessary by the Project Manager/Principal Investigator. All fees will be billed monthly and based on time and materials. Task 4 does not include travel costs for site-visits when requested. Project Management will only be billed when project activities are ongoing.

Task 5. Final Technical Report
A Final Paleontological Report will be prepared for compliance documenting the archaeological and paleontological context for the general site area, including the methods and results of the archival research and monitoring. In the event that significant archaeological or paleontological discoveries are made, a change order will be required to accommodate additional time needed for this task.

Subtask 5a – Archaeological Report: At the conclusion of the archaeological monitoring program, Ms. Lamb will prepare a report for submittal to Caltrans and The San Bernardino Information Center. A total of six-copies will be submitted. The report will describe the cultural history of the project area, summarize field and laboratory methods (if applicable), and include any testing or special analysis data used to support the findings and conclusions. A records search will be conducted and included in the final report.

Subtask 5b – Paleontological Report: The report will include a faunal list, an inventory of curated fossil specimens, and discuss the relationship of any newly recorded fossils within the project to previously recorded relevant fossils (This service is not included in this proposal). Field forms will be attached to the report as an appendix. The technical report will meet or exceed all local, state, and federal standards. The report will include evaluation of sites recorded, field, and laboratory results. The report will describe parcel geology/stratigraphy; summarize field techniques used, summarize new and existing fossil localities collected in the immediate area.

Task 5 details costs associated with a negative report with no significant findings. Additional funds will be needed if archaeological or paleontological resources are discovered. All finds will be discussed with the Construction Manager before recovery of fossil resources, especially if additional personnel are required.

Task 6. Archaeological and Paleontological Discoveries
If the monitor finds archaeological or paleontological resources, earthmoving activities shall be temporarily diverted around the discovery site until the remains have been recovered and the monitor agrees to allow earthmoving to proceed. If the discovery is unmanageable for one monitor, additional assistance will be billed on a time and materials basis. A change order will be required in this event. No recovery funds have been included in this budget.

Task 7. Archaeological and Paleontological Laboratory Analyses
No laboratory funds have been included in this proposal. If additional funds for identification, curation or outside consulting are needed beyond this estimate, a change order will be required. This includes all mitigation plan, field monitoring, project management, and written technical negative report production for the project. Extended periods of no ground disturbance will result in significantly reduced project activity charges.

Cost Estimate for Project (not including recurring monitoring or management costs):

TASK(S)	**COST**
Task 1. 1a. Archaeological and 1b. Paleontological Mitigation Plan	$ 11,785.03
Task 2. Preconstruction Measures	$ 1,752.65
Task 3. Archaeological/Paleontological Monitoring	$ 6,397.00
Task 4. Project Management	$ 2,606.91
Task 5. Final Technical Report (Negative Findings) 5a.Archaeology and 5b.Paleontology	$ 7,247.29
Task 6. Archaeological and Paleontological Discoveries	Time and Material
Task 7. Archaeological and Paleontological Laboratory Analyses	Time and Material
Total Budget	**$ 29,788.88**

PALEO SOLUTIONS
Paleontological and Archaeological Compliance and Consulting Services

In Summary:

Safety
Paleo Solutions has a zero incident record of safety. Scott Armstrong, the safety officer, will establish a site-specific safety plan with emergency contact information, which will include local hospital locations and emergency responders. All our employees have proper knowledge and training to work safely around all types of heavy equipment related to all aspects of construction projects. In house safety meetings are conducted periodically to review all safety issues. We ensure all employees comply with federal and state safety procedures applicable to the construction activities, including attending required on-site safety meeting.

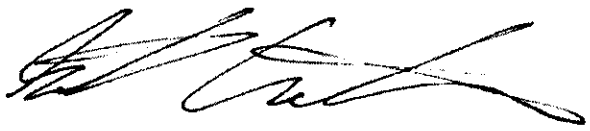
Communication
We believe that good communication is a key element for all construction projects. This is especially true for larger projects and those involving multiple disciplines and sensitive issues dealing with environmental resources. Paleo Solutions is committed to having daily and weekly contact with all required entities. This is facilitated through phone and electronic communication, and continually maintained through the project life. Daily communication with Paleo Solutions management and field personal is required, in addition to liaison with construction and management personal. All Paleo Solution staff members are available through email and cell phone.

We are a pro-active, responsive firm that is mindful of our clients' needs. Our staff is committed to being available at all times to deal with any unforeseen issues. This is complimented by our cost-effective solutions and is facilitated by our efficient project management and communication, thus minimizing unnecessary site visits and increasing proper utilization of project funds. We have developed efficient fossil recovery techniques in an effort to avoid project downtime.

We have great working relationships with the natural history museums in southern Califomia and affiliations with universities and other repository institutions.
And most of all we enjoy what we do!

It is our intent for you to be pleased with our service. Contact me (Scott) by phone at (949) 813-1240, or scott@paleosolutions.com if you have any questions or comments. Alternatively, you can also contact Geraldine Aron at geraldine@paleosolutions.com or by phone at (562) 818-7713.

We look forward to hearing from you.



Scott Armstrong
Vice President
Paleo Solutions, Inc.

PALEO SOLUTIONS
Paleontological and Archaeological Compliance and Consulting Services

PALEONTOLOGICAL RESOURCES AND REFERENCES:

Paleo Solutions Inc. (Paleo Solutions) is in commencing our tenth year of successful paleontological and archaeological field services. Our professional staff has extensive experience, allowing us to develop cost-effective mitigation solutions for local governments, private developers, planning firms, public utilities and other entities throughout California conducted according to Society Vertebrate Paleontology (SVP), Bureau of Land Management (BLM), museum standards and agency guidelines. Our staff has experience consisting of permitting, analyses, surveying, implementing mitigation and monitoring plans, documentation review, writing EIR/EIS documentation, fossil collection, fossil preparation, museum curation, and technical report preparation. We have a modern and complete facility capable of housing large and small specimens and staff experienced in proper paleontological preparation for curation for museums and repository facilities. Our geographic areas of expertise include Contra Costa County, Kern County, Los Angeles County, Orange County, Riverside County, San Bernardino County, San Diego County, San Luis Obispo County, Imperial County, and other northern counties. We have extensive experience in all of Southern California Edison's defined service areas/regions (Southern Sierra, Mojave Desert, Southern California Coast, and Channel Islands). A list of relevant experience is listed below.

Geraldine Aron, President of Paleo Solutions, has over 15 years of experience in the field of paleontology, with the completion of her Master of Science in Geology. She has taught paleontology laboratory classes and taken numerous field geology classes that involved field trips and research opportunities in and around the Owens Valley area. Ms. Aron holds a current California BLM Permit (2010-2013) and a current U.S.D.A Forest Service Permit with the Angeles National Forest (2010-2011). Geraldine Aron exceeds the minimum qualifications to be a project manager and principal investigators under the Society of Vertebrate Paleontology (SVP), U.S.D.A. Forest Services, and BLM guidelines. She also posses all county and city qualified paleontological certifications where they are required. Some of these include San Diego County, Orange County, Riverside County, and San Luis Obispo County

Complimented by our scientific backgrounds, Scott Armstrong has 18 years of experience in southern California paleontology including field and laboratory management, proper collection techniques and has a reputation for running large fossil recoveries in a safe, fast and thorough manner. Mr. Armstrong has recently conducted paleontological public outreach programs to better service the community.

Paleo Solutions has maintained a close working relationship with SDNHM and utilizing them as support to our team enhances our expertise and quality assurance to conduct paleontological field services to the highest scientific standards.

Our staff possesses certificates including:
Certified Archaeologist, County of Orange, California
Certified Paleontologist, County of Orange, California

California BLM Permit issued from April 2013 through April 2016. The permit number is CA-10-00-006P
U.S.D.A. Forest Services (Angeles National Forest 2010-2011)
Professional Geologist, PG#8327, Expiration date July 31, 2011
Campbell Nuclear Test Gauge Certified
Paleontological Resource Specialist for the California Energy Commission
Qualified Paleontologist, City and County of San Diego, California
Qualified Paleontologist, County of Riverside, California
Certificate in Cartography and Geographical Information Systems
40 Hour Hazwoper Training

Relevant experience:

Paleo Solutions staff has managed, surveyed, and monitored multiple linear projects that include transmission line, water pipelines, sewer pipelines, gas pipelines and energy projects in Southern California over the last 15 years. Our experience demonstrates our diversity of linear and energy projects and knowledge of construction procedures. Each project's approach of construction varied widely from trenching to directional boring to mass grading. Some other examples of relevant projects our paleontological staff has been involved in include:

Relevant Projects:
San Joaquin Cross Valley Loop Project, Tulare County, California (Southern California Edison).
Contra Costa-Moraga 230kV Reconductoring Project, PG&E, Contra Costa County, California (Far Western/Insignia).
Desert Sunlight Solar Farm Project, Riverside County, California. Paleontological Mitigation Plan, Survey and Monitoring (entirely on BLM land).
UHS Temecula Hospital, Riverside County, California.
El Casco System-Transmission Line, Southern California Edison, Riverside County, California.
Paleontological Mitigation Plans (PMP) for Caltrans Cherry/Citrus Ave I-10 interchange, San Bernardino, California.
Paleontology Survey and Assessment for the Cadiz Groundwater Project San Bernardino County, California (EIR).
Ocotillo Wind Express Project, Ocotillo, Imperial County, California.
Paleontological Assessment Report For The Havasu Springs Project, Havasu Lake, San Bernardino: Tentative Parcel Map Number 19169 And Plan Tract Number 8284 (Apn# 0649-201-43).
California Edison (SCE) Orange County Access Roads Maintenance -YR 2010 Cultural Resources Impact Avoidance Protocol (2010-present; teamed with ECORP).
Tehachapi Renewable Transmission Project, Southern California Edison, Los Angeles, Kern, and San Bernardino, Counties, California (Pacific Legacy)
Paleontological Review and Report for the proposed Devore Substation Project, San Bernardino County, California (IO 307041), Southern California Edison (LSA).
Paleontological Review and Report for the proposed Horsetown Substation Project, Riverside County, California (CWA 1: IO # 306687), Southern California Edison (LSA).

Paleontological Mitigation Plan and Monitoring for Manzana Wind Energy Project, Kern County, California (Sapphos Environmental).
SDGE Project, County of San Diego. On-Call Paleontological Services (2009-2012).
Nacimiento Water Project Survey and Monitoring Compliance, San Luis Obispo County Flood and Conservation District, California (ESA).
Paleontological Assessment Sensitivity Report and Survey for the Irvine Water District-Baker Regional Water Treatment Plant Project, Lake Forest,
Orange County, California (ESA).
Third Party Review for SES Solar Two Project, Imperial Valley, Imperial County, California.
Paleontological Assessment Report For The Havasu Springs Project, Havasu Lake, San Bernardino: Tentative Parcel Map Number 19169 And Plan Tract Number 8284 (Apn# 0649-201-43).
Sewer 703 Project, City of San Diego, San Diego County, California.

This partial list of our experience demonstrates our diversity of pipelines and energy projects and variability on construction procedures. Each project's approach of construction varied widely from trenching to directional boring to mass grading. We have conducted surveys and completed large-scale construction projects that are an equivalent order of magnitude, if not greater than the Ocotillo Project (~15,000 acres).

Our team uses an interdisciplinary compliance monitoring and survey approach that is integrated with the government agencies, construction and engineering plans and is designed to eliminate confusion regarding which areas require monitoring. I have included key staff member's resumes and details are outlined in them. If awarded the contract, we can submit the remaining resumes of field technicians as necessary. Please keep in mind this is a partial list of our staffing resources available.

CURRENT RELEVANT PROJECTS AND CLIENT REFERENCES:

Project: I-805 at La Jolla Village Drive
Client: Caltrans District 11
Contact: Karen Crafts, 619.688-0188

Paleo Solutions is responsible for paleontological monitoring during construction improvements to the I-805 at La Jolla Village Drive in San Diego County, California. This ongoing project traverses paleontologically sensitive rock units within coastal San Diego, and will require a final technical report for submittal to Caltrans District 11.
Project: Marblehead Coastal (between Avenida Hermosa and Avenida Pico, San Clemente, CA)
Client: SunCal Companies

As paleontologist, Ms. Sarah Siren was responsible for a paleontological assessment of the 266-acre property, and oversight of paleontological resource monitoring during rough grading. An archaeological survey was designed and implemented in consultation with the California Coastal Commission and local Native Americans. Survey methods were tailored in response to specific California Coastal Commission concerns regarding ground surface visibility, historical land use, previously recorded archaeological traces, and diverse development impacts. A detailed archaeological, Native American, and

paleontological monitoring and discoveries treatment plan was successfully developed to address California Coastal Commission, Native American, and City of San Clemente concerns. A final technical report of discoveries, including a partial marine mammal skeleton from the Capistrano Formation and Ice-age megafauna from the overlying terrace deposits, was submitted to the client.

Project: Southern California Edison Company Tehachapi Renewable Transmission Project (TRTP)
Client: Pacific Legacy (SCE)
Contact: Thomas Jackson, Arnold, 209.795.4481 ext 15

Paleo Solutions was hired by Pacific Legacy to conduct all paleontological monitoring services of the proposed construction sites for Southern California Edison's (SCE) Tehachapi Renewable Transmission project (TRTP), and other associated Areas of Potential Effects (APE's) including but not limited to areas in the counties of Los Angeles, Kern, and San Bernardino, California. The APE's include but are not limited to surveying and grading for access roads, pulling and splicing locations, marshalling and staging yards, shooflies, and tower erection sites. Our services are conducted in order to assist SCE with compliance responsibilities under California Environmental Quality Act (CEQA), National Environmental Policy Act (NEPA) and federal paleontology guidelines, using Society for Vertebrate Paleontology (SVP), and Bureau of Land Management's Potential Fossil Yield Classification System (PYFC) systems and guidelines.

Paleo Solutions joined this team January 2010 and is contracted through 2013. We have acquired all proper permits for the TRTP project to conduct paleontological investigations in the Angeles National Forest (U.S.D.A Forest Service). We have assisted with the Paleontological Resources Monitoring Plan (PRMP), surveyed APE's prior to construction, monitored construction activities (boring, trenching, and grading), and report writing summaries with results and recommendations. Our team is very aware of proper lines of communication, especially on a large-scale project that have multiple disciplines constantly interacting.

Project: Southern California Edison (SCE) Orange County Access Roads Maintenance -YR 2010
Cultural Resources Impact Avoidance Protocol (2010-present)
Client: Southern California Edison (SCE)
Contact: David C. Hanna, Jr., Rosemead, 949.322.0600

Paleo Solutions was hired by Southern California Edison, and is teamed with Ecorp Consulting, Inc. This overview describes the Cultural Resources Impact Avoidance Protocol (Protocol) for YR 2010 annual maintenance of Southern California Edison (SCE) dirt access roads by the Orange County Fire Authority (OCFA).

The Protocol was developed as a practical tool for managing SCE compliance with laws relating to archaeological and historical resources, among which are the following.

National Environmental Policy Act (NEPA)
Coastal Zone Management Act (CZMA)

National Historic Preservation Act (NHPA)
Native American Graves Protection and Repatriation Act (NAGPRA)
California Environmental Quality Act (CEQA, Public Resources Code § 2100 et seqem)
California Health and Safety Code § 7050.5

In 2010 Paleo Solutions was hired by SCE to work with ECORP to document for the cultural resources portion, which include information regarding the location and condition of archaeological sites recorded at or near the access roads, and recommends impact avoidance measures for future years in implementing the Protocol for 73 known archaeological sites. It is founded upon a tripartite categorization of sites. These categories include Pre-Documentation, Compliance Monitoring, and Post-Documentation of the access roads. This project is located on California State Parks, Orange County State Parks, Irvine Ranch Conservancy, the Irvine Company, and the San Onfre-Santiago #2 230 kV and San Onofre-Viejo 230 kV corridor easements.

Project: Southern California Edison (SCE)-El Casco System Transmission Line, Beaumont, Riverside County, California.
Client: LSA Associates, Inc. (SCE)
Contact: Roderic McLean, Carlsbad, 949.678.3326

Paleo Solutions was hired by LSA Associates, Inc to conducted paleontological monitoring services for the El Casco System Project for Southern California Edison (SCE). This includes the proposed El Casco Substation site, upgrades to the Zanja and Banning Substations and the SCE's Mill Creek Communications Site, upgrades to a total of 15.4 miles of existing 115 kV sub-transmission line and associated structures, and the installation of fiber optic cables within existing conduits in public streets and on existing SCE structures between the Cities of Redlands and Banning. All portions of the Proposed Project are located within Riverside and San Bernardino Counties, California. Paleo Solutions salvaged significant Ice Age Fossils from the San Timoteo Formation and have helped refine the age of the sediments in this area (~1.8 to 1.3 million years old). We specifically discovered ground sloths (rare-specie), saber-tooth tigers, horse, plant material, and numerous microfossils (snake, lizard, birds, gastropods (snails), etc.). The San Timoteo formation contains fossils of land animals and represents sediments deposited from about 3.5 to 0.7 million years ago, during Late Pliocene to middle Pleistocene time. The presence of non-marine fossils within a sequence of rocks spanning such a long time has lead to several studies of the depositional environments and paleontology of the formation. The fieldwork was complete in April 2010 and the extensive collection is being prepared and matrix samples sorted in preparation of the final report.

Paleo Solutions has teamed with LSA on the following SCE projects listed below:

Assessments:
Paleontological Review, Proposed Devore Substation Project, San Bernardino County, California (IO 307041), Southern California Edison (LSA).
Paleontological Review, Proposed Horsetown Substation Project, Riverside County, California (CWA 1: IO # 306687), Southern California Edison (LSA).
Monitoring:

El Casco System-Transmission Line, Southern California Edison, Riverside County, California (LSA).

Project: Nacimiento Water Project, San Luis Obispo County (2008-2010) AND IRWD Survey Reports
Client: ESA Associates
Contact: Mitch Marken, Ph.D, Los Angeles, 310.971.1500

Paleo Solutions was contracted by ESA to conduct all paleontological surveys and to develop and implement a mitigation plan and monitoring services for all aspects of the 46-mile water pipeline being installed from Lake Nacimiento extending to the southern portion of the county including Camp Roberts National Guard Base. Construction includes mostly trenching and boring procedures. This paleontological monitoring program begun March 2008 and ended December 2009. This project is complete.

Paleo Solutions also worked closely with Albion Environmental on this project.

We have also conducted several paleontological sensitivity assessment surveys for ESA for the Irvine Water District with the completion of two technical reports:

Paleontological Assessment Sensitivity Report and Survey for the Irvine Water District-Baker Regional Water Treatment Plant Project, Lake Forest,
Orange County, California (April 2009).

Paleontological Assessment Sensitivity Report for the Irvine Water District (IRWD)-Wells 1, 21, and 22 Project, Tustin, Orange County, California (December 2009).

Project: Ocotillo Express, Imperial County, California:
Client: ASPEN Environmental Group
Contact: Jon Davidson, Agura Hills, 818.597.3407 ext 343

Paleo Solutions was contracted by ASPEN to conduct all paleontological related services starting March 2010-present. This includes proper BLM authorization and permitting to conduct surveying and a research design for field reconnaissance related to EIS/EIR documentation for 15,000 acres in Ocotillo. This project is the future home of wind turbines. This paleontological program begun March 2010 and is still in progress.

Pattern Energy, through Ocotillo Express LLC (OE LLC), proposes to construct, operate, maintain and decommission a 561 megawatt (MW) wind generation facility on approximately 14,980 acres in the Ocotillo Express wind project area (Figures 1 and 2). OE LLC acquired from Greenhunter, another developer, its rights to approximately 5,915 acres of BLM administered Lands and OE LLC also acquired from its affiliate Wind Development Contract Co. its application for an additional 8,878 acres of adjacent BLM administered lands. OE LLC also has entered into an agreement with the owner of approximately 26 acres of private land near the center of the wind project area for wind monitoring. The three separate parcels are consolidated into a single 561 MW wind project in this Plan of Development.

The proposed action consists of the construction, operation, maintenance and decommissioning of wind turbine generators and associated facilities necessary to successfully generate up to 561 MW in Imperial County west of Ocotillo, California. Ocotillo is located in Imperial County, California at the intersection of Highways 8, 89, and Imperial and adjacent to the US-Mexico border.

Surface disturbing activities may cause direct adverse impacts to paleontological resources through the damage or destruction of fossils; or loss of valuable scientific information by the disturbance of the stratigraphic context in which fossils are found. Indirect adverse impacts may be created by increased accessibility to important paleontological resources leading to looting or vandalism (BLM H-8270-1; BLM IM 2009-011). Paleo Solutions has been retained by Aspen Environmental Group to identify and analyze possible effects to significant paleontological resources within the study area for the Ocotillo Wind Express Project. The direct effects of all proposed surface disturbing activities and the indirect effects of increased public access and land tenure adjustments will be considered in the analysis. The paleontological assessment will include an initial analysis of existing data in order to determine whether further analysis will be necessary. All paleontological work will be conducted in consultation with Carrie Simmons, BLM Archaeologist in the El Centro Field Office. The BLM Authorized Officer and/or Project Leader will also be consulted on all final paleontological resource decisions. The purpose of this paleontological assessment is to determine the existence and general areal extent of any potentially fossiliferous geologic formations within the project area that may be impacted by construction activities.

Receipt - Transaction # 2687-19551

We thank HAL HAYS CONST. INC. for choosing DBE GoodFaith Inc. to assist in the recruitment of socially and economically disadvantaged businesses (DBE, MBE, WBE, DVBEs, UDBEs, & SBEs, etc.) for your contract. All solicitations are conducted in good faith. We declare under penalty of perjury that all documentation is true and correct.

Transaction Date & Time: 11/7/2013 11:02:54 AM

Estimator Name: Rebecca Ferrell

Awarding Agency: 08-0G8404

Project Name: CALTRANS UPGRADE REST AREA BARSTOW

Bid Date & Time: 11/20/2013 3:00 P.M

Service Chosen: Bronze Service (Ad only service)

Amount Paid: $30

PLEASE NOTE:

- All outreach performed by DBE GoodFaith Inc. can be tracked and downloaded from the customers' account homepages.
- All advertisements are published immediately after submission in our online Minority Focus & Trade Journals and run until the bid date listed on the advertisement.
- For Silver and Gold Package transactions, faxes are sent within 3 business-hours after the submission of the advertisement.
- Documentation for Gold Package transactions will not be completed until the completion of the final call on the second call date. DBE GoodFaith Inc. requires a minimum of three (3) business days to process a Gold Package transaction. On Day One (1), DBE GoodFaith Inc. publishes and faxes invitations to bid to the selected recipients. On Day Two (2), DBE GoodFaith Inc. performs the initial calls. On Day Three (3), DBE GoodFaith Inc. performs follow-up calls. If the transaction is submitted less than three (3) business days prior to the bid date, DBE GoodFaith Inc. reserves the right to change the 2nd call date.
- Review the contract's bid documents to ensure that your outreach is in compliance with any and all additional requirements and guidelines established by
  the awarding agency. Regardless of the service package selected, DBE GoodFaith Inc. customers may be required to perform outreach steps beyond what the services we
  provide. DBE GoodFaith Inc. strongly recommends that its customers advertise in other local minority focus outlets and make additional contact with selected and other minority firms to ensure compliance with good faith effort requirements.
- The Terms of Agreement between your company and DBE GoodFaith Inc. can be viewed at www.dbegoodfaith.com.
- If you have any questions or if we can be of further assistance please feel free to contact us via email at info@dbegoodfaith.com.

Thanks again,

DBE GoodFaith Inc.

ITEM #6

HHCI Disadvantage Business development plan

As a graduate of the SBA' 8(a) program, former HUBZone designate firm, and former CalTrans certified DBE firm, Hal Hays Construction, Inc. (HHCI) has supported disadvantaged business concerns since its inception. HHCI understands and encourages sub-contractor participation in various disadvantaged business programs for the firm's federal, state, public utilities, and private industry projects.

HHCI has an established a Disadvantaged Business Liaison for the firm, Mrs. Elizabeth Cabral, Diverse and Small Business Liaison Officer, who is responsible for the development and execution of individual small business subcontracting plans, and monitoring performance of contractual subcontracting. Specific responsibilities for procurement with DBE concerns include:

- Developing and maintaining bidders lists of DBE concerns
- Ensuring that procurement packages are structured to encourage DBE concerns to participate to the maximum extent possible
- Assuring inclusion of DBE concerns in all solicitations for products or services which they are capable of providing
- Reviewing solicitations to remove statements, clauses, and alike, which may tend to restrict or prohibit DBE concerns participation
- Ensuring periodic rotation of potential subcontractors on bidders lists
- Ensuring that the bid proposal review board documents its reasons for not selecting low bids submitted by DBE concerns
- Ensuring the establishment and maintenance of records of solicitations and subcontract award activity
- Attending or arranging for attendance of company representatives at Business Opportunity Workshops, Minority Business Enterprise Seminars, and Trade Fairs
- Conducting or arranging for conduct of motivational training for estimating staff
- Monitoring attainment of proposed goals

Under the direct supervision of the Diverse and Small Business Liaison Officer, HHCI procurement representatives ensure complete inclusion of DBE concerns in procurement. During the performance of this contract, HHCI has identified potential subcontractors via ongoing and continual recruitment, including:

- Trade and General Newspaper Advertisement
- Contacts with minority, women, veterans, small business trade and service associations
- Contacts with business development organizations, including Minority Business Development Agencies
- Attendance at small and minority business procurement conferences and trade fairs
- Online database searches, including California DOT Disadvantaged Business Enterprise (DBE) Database
- Review of Caltrans posted contract award listings
- In person meetings with subcontractors to review capabilities and services offered
- Pre-qualify subcontractors based upon past experience and/or familiarity with subcontractors on previous projects

As evidence of HHCI's commitment to the disadvantaged business community, to date the firm has spent over **$108M** with disadvantaged and small business concerns, averaging to **42%** of its **total subcontracting dollar spend.**
