# Workers Locked Out of Disputed Santa Clara Valley Hospital Construction Site

A finger-pointing feud between Santa Clara County and a company facing the severance of a \$380 million contract inconvenienced construction workers Monday when they couldn't retrieve their gear from the Valley Medical Center expansion site due to safety issues.

A security guard said about 100 people showed up Monday morning to enter the grounds to collect their tools but were turned away. The site was locked down Friday by county workers in anticipation of the county terminating Turner Construction's contract Tuesday.

While the county had planned to let workers in to get their possessions, the lights and elevators at the site were turned off because of what officials called a miscommunication between the county and Turner.

"We were concerned about safety," said Ken Rado, the county's deputy director of fleet and facilities. "I didn't want people in the building under those conditions."

Rado said the county has contacted Turner and hopes to have the power back on Tuesday. The county is also asking Turner to help arrange a pickup schedule so officials aren't overwhelmed

by workers showing up all at once. "If there is no plan and everybody shows up at 10 a.m., we will do our best," he said. "But we don't want a lot of people walking through unescorted."

A handful of construction workers waiting at Turner offices near the site declined Monday to comment on what happened.

Turner issued a statement calling it "unfortunate" that workers were unable to get their tools, placing the blame squarely on the county for initiating the lockout.

"Subcontractors should reach out to (County Executive) Jeff Smith for access and retrieval of their belongings," the statement read.

The acrimony between the parties went public last month, when Turner and the county accused each other of being responsible for delays that have held up construction of the facility. The project broke ground in 2009 and was supposed to open this month but is far behind schedule.

The county says Turner never put the needed resources into the project, which now sits "stagnant"

# SCDCL: Southern California District Council of Laborers

## The Southern California Laborers' Union Provides \$182,500 in College Scholarships

Once again, the Southern California District Council of Laborers (SCDCL) is proud to have sponsored the Mike Quevedo, Sr. Scholarship Golf Tournament and Dinner. This scholarship event raises money for the dependent children of Laborers' International Union of North America (LIUNA) members in Southern California to attend post-secondary institutions.

Now in its 20th year, the Mike Quevedo, Sr. Scholarship Fund provided \$182,500 in scholarship monies to 89 students for the 2015 academic year. Southern California District Council of Laborers (SCDCL) Business Manager, Armando Esparza said, "I am so proud of our union for creating this opportunity for our members' children. Laborers in Southern California, and throughout the country, are incredibly hard-working and want nothing more than to provide for their families. If we can help our members, even a little bit with these scholarships, I think we've accomplished our goal as an organization - to improve the lives of our members and their families."

The Mike Quevedo, Sr. Scholarship Fund is a non-profit organization created for the purpose of raising scholarship monies and honoring its namesake. Mike Quevedo, Sr., came to Southern California from New Mexico at the age of 16 in 1926. Mike began his construction career in 1940, worked his way up through the ranks, and eventually became Business Manager of Laborers' Local 300 in Los Angeles. A labor pioneer, Mike Sr., believed it was important to give young people in the community a chance to improve their opportunity in life by attending college and this scholarship fund continues that legacy.

Since 2000, the Mike Quevedo, Sr., scholarship fund has provided more than \$1,250,000 in scholarship monies for more than 800 children of LIUNA members in Southern California. Student recipients have attended local community colleges and universities throughout California, as well as ivy-league institutions across the country.
