I wanted to see if I could get a quote from you for cold plane and rumble strip. Could you please also quote your hourly rates for grinders (including your 2').

There is also a High Friction Surface Treatment...I am not sure if it is up your sister company (Pavement Coating) alley. Can you pass this email along to your contact there.

Thanks for your help.

- **Safety Striping Service, Inc is a certified California DVBE (Certification # 14354).**
- Safety Striping Service, Inc. requires IMMEDIATE notification upon being listed by the apparent low bidder, for purposes of scheduling and material management.
- Safety Striping Service, Inc. requires a written subcontract, purchase order or signed quote prior to mobilization for any work, or placing the order for job specific materials (i.e. signs, lead plans, etc).
- Safety Striping Service, Inc requires an invitation to pre-job meetings.
- Bonds are not included in this quote. If bonds are required, call for rate.
- Mobilizations will be priced per each on this project. A mobilization is defined as a period of **consecutive** eight hour days of continuous work, not including weekends or holidays. Any deviances from this, other than those initiated by Safety Striping Service, Inc, will be considered additional mobilizations and billed at $3,500.00 each.
- Referencing is included in this quote. Our referencing is **LINEAR ONLY,** identifying the limits of and changes in the striping details present prior to obliteration. Contractor is required to comply with Section 39-6.01 of the 2006 Standard Specifications (39-1.11 of the 2010 S.S.). Field Layout due to the misplacement of paving seams is at the prime Contractor's expense (Extra Work Force Account). Mobilization for referencing **will not** be considered a move-in.
- The unit price for removal includes the installation of tabs, but only on striping obliterated by Safety Striping. *All tab maintenance is the responsibility of the Contractor.* Any required temporary signage (i.e. "No Passing," etc) as well as any temporary edgeline delineation (i.e. cones, delineators, etc.) is the responsibility of the Contractor.
- Prices for various Yellow Removal items include all requirements of section 14-11.07 of the special provisions.
- Contractor must provide a secured (6' chain link fence) dumpsite at the project location for material awaiting testing results. When Safety Striping leaves the job-site, all potentially hazardous waste becomes the responsibility of the contractor and/or Caltrans. Safety Striping will arrange the proper testing and disposal, but will not be liable for the improper care of the waste after we have left the job-site.
- Contractor to provide an adequate water source for removal equipment and a location on-site for dumping non-hazardous grindings. All non-hazardous grindings become the responsibility of the Contractor.
- This quote includes removal of tabs (not half tracks) placed on center and lane lines only (excludes any locations where delineators can be used). This applies only to tabs properly placed at approximately 24' on center.
- Message Boards are not included in this quote.
- **A minimum of fifteen (15) working days advance notice is required for referencing and on each mobilization.**
- The bid includes traffic control for our work. We require exclusive access to the roadway without obstacles and the ability to begin work upon arrival at the job-site. Delays caused by conflicts in scheduling are the responsibility of the Contractor and are subject to standby time computed as labor in section 9-1.03A of the Standard Specifications.
- This quotation is valid for a period of sixty (60) calendar days from the date of issue and may be extended at the sole discretion of Safety Striping Service, Inc.
- Safety Striping carries $1 million in GL ($2 million GA); $1 million in Auto; $1 million in Work Comp.

These terms and conditions shall supersede any bid request, advertisement or subcontract language. Should this quotation be accepted, the entire quotation (both pages) must be included in the subcontract agreement or purchase order.

"Trucking's success depends on the individual contributions of our people, drivers, and owner operators." Serratos Transportation will strive to help all of them share in that success. After our country's economy crashed, and lost almost everything, we returned to the trucking industry stronger with higher expectations to become one of the best family oriented companies in Stockton and its surrounding areas. We will represent our company and the brokering company with dignity and cleanliness therefore we maintain all of our equipment in excellent conditions. Serratos Transportation meets the air pollution compliances, and has received certification rewards from the California Highway Patrol within the past six years. We have tried to be part of your team, and have been calling every year with little or no success. Therefore, we are excited for this opportunity of sending you our profile. Serratos Transportation has been in business for almost years but owner Victor Serratos has 20 years of experience in the trucking and management industry. Our leader will utilize a leadership philosophy and high ethical standards that foster trust throughout the organization.
