1. List items of work the Bidder made available to DBE firms. Identify items of work the Bidder might otherwise perform with its own forces, items that have been broken down into economically feasible units to facilitate DBE participation, and items for which the Bidder has established flexible time frames for performance and delivery schedules in a manner that encourages and facilitates DBE participation. For each item listed, show the dollar value and percentage of the total contract. The bidder must demonstrate that sufficient work to meet the goal was made available to DBE firms.

Re: Tereso Flores

This letter serves as a personal evaluation of the qualification of Tereso Flores, a sweeper truck operator. Mr. Flores has been onsite for six months for the duration of the City of Lodi, Ca. Water Meter Project, Phase 3. Mr. Flores has been highly responsive to the special needs this project involves, as well as a good knowledge of his responsibilities.

Mr. Flores is motivated, with good attention to issues of safety, works well with others and is responsive to concerns of the public.

Sincerely,

Kimmis Westfall
Program Inspector

To Whom It May Concern:

I am writing to you on behalf of Mr. Tereso Flores.

Through Universal Sweeping or Statewide Sweeping Service Mr Flores has worked for me directly here at Knife River Construction for over 10 years. Tereso has handled many jobsites under difficult conditions for me throughout Central California. I have worked with many other sweepers during this time and Tereso has consistently outperformed all others.

Tereso is requested by several of my foremen whenever a sweep is necessary. I will continue to request Tereso for my sweeper needs any time in the future.

If you have any questions, please feel free to contact my office at (209) 948-0302.

Sincerely,

To whom it may concern,

I am writing this letter on behalf of Tereso Flores who operates a sweeper truck. Tereso has worked intermittently on projects for Teichert Construction that I have managed since 2007. When working on our projects, Tereso has demonstrated excellent concerns for Safety, Production and works well with others in a team environment.

Tereso Flores needs very little instruction and direction on the job, as he is very knowledgeable to our work and his role in the execution of the plan. He works well with others and respects direction from project staff. He shows dedication with a great attendance and willingness to work hard.

Sincerely,

Re: HWY 12 Repair Pavement/Overlay

Donat,

Thank you for considering Quality Erectors & Construction. We recently received your request for sub contractor’s bids for the HWY 12 Repair Pavement/Overlay although we will not be submitting a bid for this project; I would like to take this opportunity to introduce the services of our company. QEC, Inc. is a WBE/MBE/DBE certified with the DOT. QEC, Inc. was founded in 1982 and incorporated in 1986. A union shop signatory to California Field Ironworkers, as such we are able to bid not only union projects, but PLA, prevailing wage and private agreements as well. With our crews training and abilities along with hands on management we are able to contract projects that vary from large multi-unit commercial & industrial to the small private sector structures.

QEC, Inc. holds a Class B, C-51, C-13 and a C-39 license with the State of California Contractors Licensing Bureau and specializes in the complete erection of pre-engineered metal building packages. We are authorized dealer and erector for multiple Manufacturing Building Systems.

QEC, Inc. has a vast amount of experience installing and erecting Star, Varco Pruden, CBC, General & Braemar Buildings Packages, and also install Architectural roof paneling, bar joist installation, welding and miscellaneous steel structures.

We take pride in our commitment to the safety and health of all our employees and have established a thorough safety and health policy applicable to all phases of operations. Our goal is to eliminate personal injuries, occupational illnesses, damage to equipment and property, and protection of these when interacting with the general public during the course of construction. Safety inspections are performed daily by the job foremen to identify any potential safety risks and hazards on the jobsite. In addition, we require that each site foreman have a current CPR and Basic First Aid Certification.

All field personnel have received additional training and are certified operators for aerial lift equipment, forklift and scaffolding.

For a list of our completed projects, feel free to check out our new website at www.qec-inc.com. It is my sincere hope to establish a mutually beneficial working relationship with your firm. If we can be of any assistance, or for more information please feel free to call my office direct (707) 746-1233.

Sincerely,
