GRINDING JOB AGREEMENT

The prices set forth above are based on the following assumptions and are subject to change under conditions set forth below.

1) A minimum daily rate is any part of an 8 hour day and overtime will be charged for work done other than a regular weekday shift.
2) Modification to the work may require a change in the quote.
3) Unless otherwise indicated the unit prices are based on ABSL performing all the work included on the proposal. If ABSL does not receive a contract for all the work, the unit prices are subject to adjustment.
4) The unit prices are based on the estimated quantities in the bid proposal. If the quantity of the item changes by 25% or more the unit price is subject to equitable adjustment.
5) All teeth over one complete set will be charge to the contractor.
6) Prices are good for 30 days from the date of this proposal, after that date the prices are subject to adjustment.
7) In the event there is an increase in the cost of fuel of more than $0.50 per gallon during the performance of this contract, ABSL will be entitled to a $75.00 per day fuel surcharge. The base cost of fuel shall be established on the bid date of the contract by reference to the Weekly Retail On-Highway Diesel Prices for California, as published by the U.S. Department of Energy on its web site at www.tonto.eia.doe.gov/oog/info/wohdp/diesel.asp.
8) If ABSL cannot proceed with its work as scheduled due to others, standby time will be charged at the following rate: $425.00 per hour.

10) This proposal to be attached and made part of any and all resulting contracts.
11) The above price does not include permits, fees, bonding, state or local taxes.
12) This is a proposal only for the purpose of establishing a price for work as outlined. In the event ABSL is the low bidder a formal contract or PO suitable to both parties shall be prepared and fully executed.
13) Repairs of damage to ABSL equipment due to unmarked or buried obstructions; i.e. valve boxes, manholes covers, concrete, steel fence posts, steel pipe or excessive depth asphalt will be billed at time and material for repairs.
14) Backcharges to ABSL must be communicated by contractor in a written notice within 72 hours from the time of occurrence for backcharges.

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach $3.50 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every $0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price $/gallon	% increase to hourly/tonnage rate
$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%
$3.80 - $3.899	4%
$3.90 - $3.999	5%
$4.00 - $4.099	6%
$4.10 - $4.199	7%
$4.20 - $4.299	8%
$4.30 - $4.399	9%
$4.40 - $4.499	10%
$4.50 - $4.599	11%
$4.60 - $4.699	12%
$4.70 - $4.799	13%
$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

Haul only pricing is based on the customer's direct purchase and scheduling with the material supplier or dump site.

Delivered pricing includes scheduling, costs of materials, applicable tax and cost of trucking (tonnage rate conditions will apply).

Tonnage/Per Load rates will include the following conditions:

- Transfers are allotted 15 min. to load/20 min. to dump, end dumps and bottom dumps are allotted 15 min. to load/15 min. to dump; time exceeding the allotted time for each truck will be billed at a rate of $1.50 per minute. If the standby time exceeds 30 minutes that truck will be billed at the applicable hourly rate.
- Flatbeds are allotted 1 hour to load and 1 hour to unload; if loading/unloading exceeds allotted time the truck will be billed at the applicable hourly rate.
- If the supplier or material changes during a shift the shift will be billed hourly.
- If the delivery site changes the shift will be billed hourly.
- Partial shifts will also be billed hourly.
- For work performed under this tonnage rate agreement on weekends or holidays, an additional 5% will be charged per ton.
- For work performed under this tonnage rate agreement after December 31, 2015 the rates are subject to a 5% cost of living increase.

General Hauling Terms: For flatbed hauling, where the starting location is more than 1 hour from our hub in Rancho Cordova, CA, travel time will be billed for the time in excess of 1 hour it takes to travel to the starting location and billed at the applicable hourly rate. All trucks charge back to their original starting location empty. We reserve the right to refuse to haul material that we deem either unsuitable for the truck requested or material such as open grade/rubberized asphalt.

All prices quoted are subject to fuel increases. A copy of our Fuel Surcharge Assessment is attached. There is a four (4) hour minimum charge per truck. For night work there is a six (6) hour minimum charge per truck. There is a two (2) hour show-up time charge per truck if the job is cancelled and the truck(s) have already shown up on the job site. Payments for invoices are due within thirty (30) days of the invoice date. All prices are for work performed through December 31st 2015. For work performed after December 31st 2015 the rates are subject to a 5% cost of living increase. Prices quoted are good for a period of thirty (30) days from the bid date.

A signed work/purchase order constitutes acceptance of these terms.

Thank you,
Jennifer Gemignani

Fuel Surcharge Assessment:

A fuel surcharge is assessed when fuel prices reach $3.50 per gallon as reported by the U.S. Energy Information Administration. The fuel surcharge is 1% for every $0.10 increase in fuel prices, or portion thereof. The breakdown is as follows:

Diesel price $/gallon	% increase to hourly/tonnage rate
$3.50 - $3.599	1%
$3.60 - $3.699	2%
$3.70 - $3.799	3%
$3.80 - $3.899	4%
$3.90 - $3.999	5%
$4.00 - $4.099	6%
$4.10 - $4.199	7%
$4.20 - $4.299	8%
$4.30 - $4.399	9%
$4.40 - $4.499	10%
$4.50 - $4.599	11%
$4.60 - $4.699	12%
$4.70 - $4.799	13%
$4.80 - $4.899	14%
$4.90 - $4.999	15%

*$5.00 and above add an additional 1% for each $0.10 increase in price per gallon.

Fuel prices are checked weekly and any increase is based on the weekly retail on-highway diesel prices found at: www.eia.doe.gov/oog/info/wohdp/diesel.asp.

All fuel surcharges will be billed separately. After the assessment of the fuel prices at the end of the week, if a surcharge is applicable, a bill for the surcharge would be generated based on the hours worked within that week.

A signed work/purchase order constitutes acceptance of these terms.

Thank you.

Federally Funded Contracts
Evaluating DBE Participation
Role of OBEO, Contract Evaluation Unit

May 2013

The California Department of Transportation (Caltrans), Office of Business and Economic Opportunity (OBEO), Contract Evaluation Unit (CEU), is responsible for evaluating all Caltrans federally funded contracts and is responsible for counting Disadvantaged Business Enterprise (DBE) participation towards contract goals according to federal regulation. The CEU determines whether the goal has been met or an adequate good faith effort has been made by the contractor.

Bidder's Responsibility – For Meeting DBE Requirements

Refer to the Special Provisions of the specific contract you are bidding on for your responsibilities. Contracts are advertised on the Office Engineer's (OE) website at http://dot.ca.gov/hq/esc/oe/weekly_ads/index.php and the Division of Procurement and Contracts' (DPAC) website at http://caltrans-opac.ca.gov/contract.htm.

Contract Evaluation Unit's Responsibility – Counting DBE Participation

Step 1	A contract is received from Office Engineer (OE) or Division of Procurement and Contracts (DPAC) and the CALTRANS Bidder-DBE Commitment form from the prime contractor is reviewed to see if the prime contractor met the goal. If not, the good faith effort will be evaluated. See 49 CFR, Part 26, Appendix A, for good faith efforts guidance. This determination is based only on information timely submitted with the bid.

Step 2	Review the CALTRANS Bidder-DBE Commitment form from the prime contractor to:
	• ensure that the DBEs are certified by checking the California Unified Certification Program (CUCP) database [cross referencing DBE work category code(s) with contract bid items] *(If the DBE is not certified, their participation will not be counted.)*
	• ensure that the DBEs possess the correct work category code for the type of work they are listed to perform http://www.dot.ca.gov/hq/bep/find_certified.htm *(If the DBE does not possess the correct work category code, their participation will not be counted.)*
	• verify the dollar amount claimed for credit is accurate
	  ◦ amount claimed for credit on DBE Commitment form is consistent with written confirmation (quote) from DBE.**
	  ◦ amount claimed for credit is consistent with the prime contractor's bid and subcontractor listing
	Written confirmation (quotes) from the DBEs are reviewed to verify if the DBEs are committed to do the work on the Caltrans Bidder DBE Commitment form.**
	**Important Note: Rate sheets that are generic will not be accepted in lieu of written confirmation (quotes). This determination is based only on information timely submitted with the bid.

Step 3	Counting DBE participation: DBE participation is "counted" only where it is demonstrated that a certified DBE possessing the correct work codes will be actively participating on the contract. CEU will count DBE participation as follows: • The entire amount of that portion of a construction contract that is performed by the DBE's own forces are counted. • DBE' participation will not be counted if the DBE is not certified at the time of bid or if a certified DBE does not possess the correct work codes. • The method for counting trucking towards the DBE goal requires the following additional documentation: motor carrier permit, truck title, registration, and proof of insurance, trailer or tanker registration, bills of lading, sub-hauling agreements, existing commitments of trucking on other jobs, and subcontract specific information (e.g., type of material hauled, number of trucks/trailers/tankers, load capacity, distance traveled, and schedule). Truckers need to own at least one, operable, insured truck. • DBE trucking firms receive 100 percent credit for the value of the hauling. DBE trucking firms who sublease to other DBE firms or DBE owner operators receive 100 percent of the value of the hauling. • DBE trucking firms who sublease to non-DBE trucking firms or non-DBE owner operators receive credit for the transportation arrangement or broker fees ***only*** – typically from 5 -20 percent of the value of the hauling. • Cost of material or supplies are counted at 60 percent for regular dealers. Those claiming to be regular dealers of bulk items must additionally demonstrate that they own and operate appropriate distribution equipment. **Important Note:** There may be times when further clarification of commitment is requested for other types of work.
Step 4	Determination is made regarding whether goal was met. If goal was not met, the good faith effort documentation will be evaluated. **Important Note:** The steps above are not all inclusive. Other steps may be taken in the contract evaluation process.
Step 5	The contracts are returned to OE or DPAC, whichever is applicable.

FACT SHEET

Federally Funded Contracts
Monitoring DBE Participation
During Construction

May 2013

Role of the Division of Construction

California Department of Transportation (Caltrans) resident engineers and inspectors monitor the contract work to ensure the DBEs listed on the approved CALTRANS Bidder-DBE Commitment form perform the items of work specified at the time of bid opening and that no improper substitutions occur. Monitoring includes documenting the work DBEs perform by completing inspection reports. Resident engineers and inspectors ensure that all DBEs are performing a commercially useful function (CUF).

CUF is a matter of contract compliance that achieves two objectives: (1) ensures that dollars counted towards DBE goals are merited, and (2) ensures the Federal Government that funds entrusted to the State of California meet federal requirements.

Code of Federal Regulations 49, Part 26.55(c)(1)(2) states, "A DBE performs a commercially useful function when it is responsible for execution of the work on the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved."

To perform a commercially useful function, the DBE must also be responsible, with respect to materials and supplies used on the contract, for negotiating a price, determining quality and quantity, ordering the material, and installing where applicable and paying for the material itself.

A DBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed in order to obtain the appearance of DBE participation.

To ensure DBEs are performing a CUF, the resident engineer or inspector documents the DBE's work in inspection reports and reviews additional documentation that verifies the DBE's participation. Some examples of the types of documents are:

- certified payroll records
- paid supplier invoices
- monthly trucking verification reports
- supplier bills of lading or purchase requests
- leases

Service and Architect and Engineering Contracts

Monitoring DBE participation, including whether a DBE is performing a CUF, are subject to the same guidelines as stated above [49 CFR, Part 26.55(c)(1)(2)].

For further details, please refer to 49 CFR, Part 26.55.

CALIFORNIA DEPARTMENT OF TRANSPORTATION
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS
FEBRUARY 2015

On October 2, 2014, the United States Department of Transportation published revisions to the Disadvantaged Business Enterprise (DBE) program regulations found in Title 49 of the Code of Federal Regulations, Part 26 (49 CFR 26). The DBE regulations in 49 CFR 26 form the basis for the California Department of Transportation's (Caltrans) DBE program.

As a result of the changes to 49 CFR 26, the California Department of Transportation (Caltrans) has completed significant revisions to the following sections of its Standard Specifications:

- Section 2: Bidding
- Section 5: Control of Work

Following is a summary of changes:

Counting DBE Participation 2-1.12A General

- To count toward meeting a DBE goal, each listed DBE, at bid opening, must possess the work category code(s) applicable to the type of work they will perform on the contract.
- If a DBE leases trucks from a non-DBE truck leasing company, it must use its own employees as drivers in order to be eligible to receive credit for the total value of the hauling services.

DBE Commitment Submittal 2-1.12B(2)

- All bidders must submit, no later than 4 p.m. on the 4th business day after bid opening, the following information:
  - DBE Commitment form.
  - Quote from each listed DBE that describes the type and amount of work shown on the DBE Commitment form.
  - DBE Written Confirmation form for each listed DBE to establish that the DBE has agreed to participate in the type and amount of work shown on the form.
  - If the contract goal is not met, good faith efforts documentation. Good faith efforts documentation submitted outside of the specified timeline will not be considered as part of Caltrans' evaluation of good faith efforts.
- Caltrans has modified its DBE Commitment and DBE Good Faith Efforts Documentation forms based on changes in 49 CFR 26.

Evaluation of Good Faith Efforts 2-1.2B(3)

- Appendix A to 49 CFR 26, "Guidance Concerning Good Faith Efforts," has been revised. Highlights include:
  - Additional emphasis on a bidder's efforts to identify and solicit DBEs.
  - Additional emphasis on a bidder's efforts to negotiate in good faith with interested DBEs, including evaluation of quotes provided by DBEs.
  - Caltrans must consider the performance of other bidders in meeting the contract goal as part of an evaluation of good faith efforts.

CALIFORNIA DEPARTMENT OF TRANSPORTATION
DISADVANTAGED BUSINESS ENTERPRISE PROGRAM REVISIONS
FEBRUARY 2015

Reporting 5-1.13B(1)

- Caltrans must begin collecting and reporting DBE payment data for all ongoing contracts. This is in addition to the collection and reporting of DBE final utilization upon acceptance of contract work.
- Prime contractors must submit by the 15th of each month a Monthly DBE Payment form documenting payments made to DBEs during the previous month. Failure to submit this form each month by the specified due date will result in withholds pursuant to section 9-1.16E(3), Performance Failure Withholds, of the Caltrans Standard Specifications.

DBE Substitutions 5-1.13B(2) General

- A substitute DBE, at the time of substitution, must possess the work category code(s) applicable to the type of work the substitute DBE will perform on the contract.
- The prime contractor must submit good faith efforts documentation for DBE substitutions within 7 days; the timeline may be extended an additional 7 days at the contractor's request.
- A prime contractor's inability to find a replacement DBE at the original price is not alone sufficient to support a finding of good faith efforts to replace the original DBE.

This summary was prepared by the Office of Business and Economic Opportunity (OBEO) to promote awareness of changes to the DBE regulations at 49 CFR 26. The information provided in this document is not intended to supplement or replace contract documents that contain information regarding contract-specific requirements.

Caltrans encourages bidders and DBEs to review on a contract by contract basis all bid documents, including but not limited to, standard specifications and standard plans, forms, and addenda to identify, understand, and comply with contract requirements.

For more information about the Caltrans' DBE program, please visit the OBEO's web site at http://www.dot.ca.gov/hq/bep/.
