The above prices for construction layout are based on regular hourly labor rates. Any overtime labor costs incurred as a result of requests for layout work to be performed on weekends and holidays will be considered an extra, and will be billed accordingly. Restaking will be billed as an extra on an hourly rate.

Estimate is contingent on that Pts Surveying Inc. is furnished a hardcopy set of plans and granted access to the finished construction set of electronic Autocad drawings.

Proposed Estimate based on Bidding Plans dated September 2014. It is not implied nor guaranteed that this estimate covers all surveying which may be required by the plans and specifications.

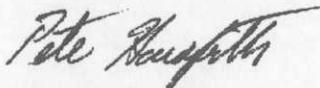

2-day notice is preferred on all staking

Job site must be ready when the crew arrives. Delays incurred due to moving materials or equipment or other circumstances beyond our control may constitute an extra charge.

This proposal is firm for a period of 120 days and assumes that the work will commence in the 2015 calendar year. After the 120 day time limit, it is possible that the costs may need to be revised.

Scope and Survey Cost can be adjusted to accommodate contractor needs.

Sincerely,

Pete Handforth
