The Construction Zone is now a certified DBE!

This is great news for us and all of you. For any of you that are going to be bidding public works in the future or if you have ongoing public works projects anything purchased from us will count toward your DBE goal achievements. If you are a public entity which uses products we sell we can also be counted toward your increased DBE participation. We are a DBE supplier and any business done with us can help many of you to increase your DBE participation on the project DBE goals. The Construction Zone received certification through The California Department of Transportation CUCP Program which is recognized statewide.

All of our prices are competitive with the rest of the vendors in our market sector. So, please contact us immediately for any upcoming projects you may want us to bid on so we can help you make your goals and also help you be low bidder. **We stock all items in house and can deliver right to your job site or yard. Just think about how much money you can dedicate to your DBE goals when you buy from us instead of a large box store, like Whitecap or Home Depot.** The best part is that it won't even cost you any more $, because of our competitive pricing.

As always we are here to provide you with all of the products you need with outstanding customer service.

Our DBE Certification Firm ID is 43059 and a copy of our certificate is attached. Feel free to contact us with questions or product needs. **Also, be advised that we are in the process of adding additional work codes to our certification and we are available Statewide.**

Subject: Trucking Proposal for Caltrans 12-0P4504

Thank you for taking the time to look at this. Attached please find our trucking rates and brochure on our company. Feel free to call me with any questions; we are open to suggestions and negotiations.

Please take into consideration some of the benefits of working with us:

- A true "Full Service Construction Trucking Company," that actually owns equipment, we're not just a truck broker.
- The largest fleet in the area holding DBE/SBE/MBE Certifications
- Real time GPS tracking on all equipment, where we can give login access to customers for accountability and transparency.
- Equipment that's spec'd out to maximize payload (e.g. 34ft end dumps that can legal 80,000lbs; Super-tens that can gross more than 60,000lbs; light weight bottom dumps)
- Because equipment is company owned, we can provide a customized trucking service; such as spotting equipment for later use, leaving equipment loaded for delay unloads, ect
