REQUEST FOR ERS STRUCTURE NUMBER

This request form is for special design earth retaining systems (ERS) only. No other structures are supported by the use of this request form. Attach the current General Plan (GP) which summarizes the scope of the work. Use one request form for each ERS.

### Contact Information

1. Project Number or Contract Number:  
2. EFIS Project ID Number:  
3. Organization Requesting ERS Structure Number:  
4. Contact Name:  
5. Contact Telephone Number:  
6. General Plan Provided:  
   - Yes  
   - No

### Location

1. District/County/Route/Post Mile at the beginning of ERS:  
2. Physical Location:  
   - Above/adjacent to Traveled Way  
   - Below/supporting the Traveled Way  
   - In front of bridge abutment

### ERS Information

1. Maximum Height:  
2. Length:  
3. ERS Name, Title or District ID:  
4. Anticipated year of construction:  
5. ERS Technology and Variation(s):  
   - Modified Standard Plan, Type:  
     - 1  
     - 1A  
     - 5  
     - 6  
     - 7  
     - crib  
     - barrier modification  
   - Soldier Pile:  
     - steel H/I  
     - twin C  
     - micropile  
     - secant  
     - tangent  
     - Other* see comments  
   - Final Facing:  
     - timber lagging  
     - concrete lagging  
     - CIP fascia  
     - Other* see comments  
   - Ground Anchor:  
     - on waler  
     - on pile  
     - on concrete diaphragm wall  
     - Other* see comments  
   - Final Facing:  
     - on timber lagging  
     - concrete lagging  
     - CIP fascia  
     - Other* see comments  
   - MSE:  
     - panels  
     - blocks  
     - planters  
     - steel mats  
     - geogrid  
     - Other* see comments  
   - Soil Nail:  
     - battered  
     - CIP facing  
     - carved Shotcrete facing  
     - Other* see comments

### Additional Information

1. Comments, such as special design details, experimental features, etc:

Submit to: DES/SP&I/ERS Specialist

SP&I/ERS-Br-4 (REV 10/2012)
