CIDH Inspection Pipes

60 mm OD inspection pipe, min 2 (when required)

Clear spacing* from outside of inspection pipe to main reinforcement

Spiral

840 mm max spacing for inspection pipes

75 mm clear

Clear spacing* from outside of inspection pipe to main reinforcement

* 50 mm clear for #25 and smaller not bundled main reinforcement; 75 mm clear for other reinforcing configurations.

Notes to Designers:

1. Inspection tubes shall not be shown on the plans (placement is covered by the contract specifications).
2. Inspection tubes are on the perimeter of the pile only and are not placed in the middle of the pile, even for large diameter piles.
