Upshot

These are the assignments made at the meeting. As new ones are added they will be appended to the list. As assignments are completed they will be lined out with a ~~strike-through~~, but left on the list. This will provide a running record of assignments made at these meetings.

Ref. #	Who	What	When
1	Joe	Provide data for RAP specific gravity and binder content to Tony and Tim on the two projects where we have data.	2/22/2013 4/11/2013
2	Joe	will get data for industry on the mixes Caltrans has, and will look at 12.5 and 13.5.	2/22/2013 3/12/2013
3	Tony	Establish a focus group New mix design when RAP Specific Gravity changes by $> \pm 0.06$	6/1/2013
4	Pascal Tim	Establish a focus group VMA for $\frac{3}{4}$ and $\frac{1}{2}$ inch mixes (13.5/14.5) –work with Tony and look for volunteers.	6/1/2013
5	Joe	Work with Construction and report back to the group at the next	3/12/2013

Superpave Meeting Notes - Fontana, Ca.

Ref. #	Who	What	When
		meeting. "Item 19: To resolve dispute both QC and QA data should be reviewed. Initially by Engineer and Contractor and then ITP, if needed."	4/11/2013
6	Joe	Joe needs to share data with industry on item 21: Minimum binder content of 7.5 may be a problem. Does Caltrans have data to support this change?	3/12/2013 4/11/2013
7	Tony and Tim	Item 21: Industry needs to show data with gyratory compactor, if they have it.	6/1/2013
8	Joe	Joe agrees with this item, and will provide language. "Item 30. Section 39-1.01C(1): "Submit quality control test results within 2 days of request"	3/12/2013 4/11/2013
9	All-	REMIND YOUR COLLEAGUES OF THIS STG, share the information.	

From 3/12/2013 Meeting

Ref. #	Who	What	When
10	Jim StMartin	Send Joe comments for the Superpave project list.	3/15/2013
11	Tony	Create a focus group to come up with a project data collection template. Aa 3)	4/11/2013
12	Joe	Provide language for spec related to issue 1 asking for contractors to take action, modify their JMF. CT is trying to make sure contractors manage their stockpiles (log # 1) CT will define one-point verification.	4/11/2013
13	Joe	Modify the time frame for submittal of QC tests, specifically T283.(issue 8)	4/11/2013
14	Tony L	Truncate issue 10, bring forward at next meeting. (issue 10)	
15	Tony	Set up meeting with Joe to discuss issue 17, 18 and 19	

Critique from this meeting:

What went well	What Needs Improvement
Rita did the analysis Not a lot of side conversations Facilitator and notes	Set up a lunch do a working lunch. Go from 10 to 3

What went well	What Needs Improvement
Covered a lot of ground Good turnout Good facility	Donuts and coffee. Too many side conversations

Superpave Meeting Notes - Fontana, Ca.

Good duration	
---------------	--

#	Time	Topic and Presenter	Purpose and Process
1	0845	Arrival and Networking	
2	0900	Opening and Introductions, sign-in sheet– Joe Peterson	

1. Opening comments

1. 1. We will work through the working list from the first item to the last. We don't want to go backwards.
1. 2. Industry is logging the issues we are working off of. Tony will post comments on his document and will be sending it out. That document will be a reference for the group as we discuss individual items.

3	0910	Meeting set up & housekeeping details: Agenda Review, Facilitator role, recorder role, ground rules, upshot and bin list Halverson	Establish roles, process and meeting schedule for Sub-task group.
4	0915	Superpave pilot project update – Joe Peterson	Status of Superpave work under way. Status of Superpave Working Group

2. Superpave update

2. 1. Bidding on projects in D-8 and D-=6, five live projects.
2. 2. Jim StMartin has added comments to the project list that Joe sent out. Jim would like to have Joe update his list with the information – (see upshot # 10)
2. 3. There are 12 projects being converted to the 2010 specs. Four projects will be done by CCO.
2. 4. There are 21 projects on the list total.

5	0920	Superpave Data Collection Plan Tony and Pascal	
---	------	--	--

3. Data collection plan

3. 1. We (Industry) need to formalize the data collection protocol. It will be hard to make comparisons from job to job – what will we do for a process?
3. 2. Joe is using a spread sheet to put the data onto. Information is provided by RE (QC data) and from Design. Notations will include variance in tolerances.
3. 3. Industry could come up with a template they can share with each other on industry side. They could share this with CT. (see upshot # 11)
3. 4. Joe will make the CT spreadsheet available as he updates it.
