Aviation in California: Fact Sheet (APRIL 2015)

Aviation Facilities

- **243** Public Use Airports
- **215** General Aviation Airports
- **28** Commercial Service Airports – 2,500 annual enplanements or more in 2014 (25 report greater than 10,000 annual enplanements = Primary)
- **68** Special Use Airports
- **8** Seaplane Bases
- **160** Hospital & **163** Corporate, Police, Fire, or Private Heliports
- **22** Military/NASA Bases & **1** Joint Use Facility
- **108** Automated Weather Observation System Locations

Scheduled Passenger Service

- In CY 2013, 182.4 million passengers traveled through California’s Commercial airports, and the FAA AIP Passenger Entitlement Program awarded a total of $69.2 million in 2013 to these airports.
- California’s share of national enplanements total: 89.1 million enplanements or 12.1 Percent
- Nationally, eleven of California’s commercial service airports ranked in the top 100 (2012).
  
  (LAX-3rd; SFO-7th; SAN-28th; OAK-33th; SNA-38th; SJC-43th; ONT-60th; BUR-61st; LGB-70th; & PSP-93th)

Air Cargo

- In CY 2013, 3.8 million U.S. Tons of air cargo moved through 27 Commercial and GA airports, and the FAA AIP Cargo Airport Entitlement Program awarded $10.2 million in FFY 2014 to CA airports.
- Thirteen California airports’ share of U.S. Landed Weight: 6.2 U.S. Tons, or 9.0 percent (LAX-7th; OAK-11th; ONT-13th; SFO-21st; SAN-35th; MHR-63th; SMF-75th; SJC-77th; LGB-96th; FAT-110th; RIV-122nd; SCK-127th; VNY-128th)
- The top four California airports accounted for 84.8 percent of the states reported landing weight.
  
  With nearly 14,000 weekly truck trips, 13 airports handled 3.6 million short tons of air cargo (2010)
- Air cargo handled within, from, and to California totaled $198.9 billion (2010).
  
  For more detailed information of the top 12 air cargo airports go to the Freight Planning Branch website.
  
  http://transplanning.onramp.dot.ca.gov/freight-planning-fact-sheet-index

CA Certified Pilots and Registered Aircraft

- General Aviation (GA) operations account for approximately four of every five aircraft operations.
- FAA Registered Aircraft (March 2015): **29,211** (10 percent of the U.S. total)
- FAA Certified Pilots (2013): **59,841** (10 percent of the U.S. total)
- GA & Air Taxi Active Aircraft (2013): **20,560** – FAA Estimate (10 percent of U.S. total, accounting for an estimated 2.3 million flight hours)

Aviation’s Economic Impact

- Contribution to the U.S. Gross Domestic Product (GDP): **$168.7 billion** (4.7 percent of U.S. GDP)
- Contribution to the U.S. employment: **1.2 million jobs** (5.8 percent)
- General Aviation’s total economic output: **$30.2 billion**
- California leads the nation in economic output ($ in billions): Airline and Airport Operations, ($45); General Aviation and Manufacturing ($38.5) Visitor Expenditures ($76.0); Value of Air Freight Flow ($113.7)
- Impact of FAA Spending in California: **$1.6 billion; 11,940 jobs** – includes payroll, facility, equipment, operations and research expenses
- In FY 2013, the California Legislature directed $1.96 million to the Caltrans Division of Aeronautics for capital improvement projects.

Emergency Preparedness Aviation Facilities

- California’s 243 public airports are potential staging areas for an emergency response in the case of a major catastrophic event.
- U.S. Forest Service, Fire & Aviation Management relies on aircraft to deliver equipment & supplies, transport and deploy personnel, reconnaissance, etc. http://www.fs.fed.us/fire/aviation:
  
  - **21** Federal Firefighting Airtanker Base
  - **2** Federal Firefighting Helibases
- Cal Fire firefighting bases are strategically located to provide air support within 20 minutes.
- Cal Fire Aviation Program:
  
  http://www.fire.ca.gov/fire_protection/fire_protection_aviation_program.php
  
  - **13** Cal Fire Airtanker Bases (Grumman S-2T 1, 200 gallon air tankers & **13** OV-10A airtactical aircraft)
  - **9** Cal Fire Helitack Bases (Super Huey helicopters)

Sources:

1Caltrans’ Airport Information Management System and the 2013 Federal Aviation Administration’s National Plan of Integrated Airport Systems; March ARB is the only Joint Use* facility (*Joint Use = March Inland Port Airport Authority is granted access to March Air Reserve Base runway for civil operations without the need for the aircraft operator to provide prior notification of landing or take-off during normal air traffic control tower operations)

Aviation in California: Fact Sheet (APRIL 2015)

Federal Aviation Administration (FAA)

The Airport and Airway Trust Fund (AATF) enacted total for FFY 2014 is $15.9 billion for operations; facilities & equipment; research, engineering & development; and airport grants.

(AATF Fact Sheet April 2014- includes sequestration)

In FFY 2014, the FAA Airport Improvement Program approved $294.9 million in grants to California’s airports.

California Aid to Airports Program (CAAP) Grants

- FY 2013/14: $1.96 million
  - State AIP Matching Grants (29): $516,286
  - Annual Credit Grants (144 of 149): $1.44 million
  - Acquisition & Development: No Grants Issued

California Aviation System Plan: CIP & GASNA

The 2013 Capital Improvement Plan (CIP) total estimated project cost is $2.9 billion – [$1.3 billion at General Aviation Airports and $1.6 billion at Commercial Service Airports (2014-2023 CIP)]. The next iteration of the CIP is scheduled for release by December 2015. The 2013 update of the 2010 General Aviation System Needs Assessment (GASNA) Appendix IV – a supplemental airport improvement planning document to the CIP, highlights the state’s recommended safety and capability enhancement projects valued at an estimated cost of $282 million.
