

Heliport Permitting

Amended Permits

Pursuant to PUC 21664.5, an Amended Heliport Permit is required for expansions of existing heliports. Proponents must submit Department Form DOA-0202, Corrected Heliport Permit - Application and provide the same information and documentation as needed for initial heliport permitting (see Site Approval Section).

Heliport expansions include the following:

- 1) The acquisition of any interest in land for the purpose of any other expansion as set forth below.
- 2) The construction of a new heliport landing area (TLOF/FATO equivalent to runway).
- 3) The extension or realignment of an existing FATO (equivalent to Primary Surface of an airport runway, from which Approach Surfaces originate).
- 4) Any other expansion of the heliport's physical facilities for the purpose of accomplishing or which are related to the purpose of paragraph (1), (2), or (3).
