

Fresno Public Workshop

Caltrans invites the public to help shape the state's transportation future by offering their input and comments on the California Transportation Plan 2040 (CTP 2040), which lays out potential scenarios for supporting California's economic and environmental goals.

The California Transportation Plan 2040 (CTP 2040) is a statewide policy plan designed to meet California's future transportation needs and the State's greenhouse gas emission target of 80% below 1990 levels by 2015. The plan envisions a fully integrated, multimodal, sustainable transportation system that supports economic vitality, protects natural resources, promotes the health and well-being of all Californians, and meets people's needs equitably.
