

Oakland Public Workshop

Caltrans invites you to attend a public workshop for the California Transportation Plan 2040. Voice your opinion and share your ideas about the State's future transportation system and help shape the direction of transportation planning for the future.

The California Transportation Plan 2040 (CTP 2040) is a statewide policy plan designed to meet California's future transportation needs and the State's greenhouse gas emission target of 80% below 1990 levels by 2015. The plan envisions a fully integrated, multimodal, sustainable transportation system that supports economic vitality, protects natural resources, promotes the health and well-being of all Californians, and meets people's needs equitably.

Get INVOLVED!
